Pioneers Of Human Rights:

Pioneers of Human Rights Cheryl Fisher Phibbs, 2005 The quest for fulfillment of the human spirit has existed since the beginning of humanity yet there are people who stand out in history for their incredible personal sacrifice and mission to improve the quality of life for others This book profiles such leaders like Eleanor Roosevelt Mohandas Gandhi Nelson Mandela Harry Wu Iqbal Masih Tenzin Gyatso and others who have tirelessly pioneered the cause of human rights **The History of Human Rights** Micheline Ishay, 2008-06-02 Micheline Ishay recounts the dramatic struggle for human rights across the ages in a book that brilliantly synthesizes historical and intellectual developments from the Mesopotamian Codes of Hammurabi to today's era of globalization As she chronicles the clash of social movements ideas and armies that have played a part in this struggle Ishay illustrates how the history of human rights has evolved from one era to the next through texts cultural traditions and creative expression Writing with verve and extraordinary range she develops a framework for understanding contemporary issues from the debate over globalization to the intervention in Kosovo to the climate for human rights after September 11 2001 The only comprehensive history of human rights available the book will be essential reading for anyone concerned with humankind's quest for justice and dignity Ishay structures her chapters around six core questions that have shaped human rights debate and scholarship What are the origins of human rights Why did the European vision of human rights triumph over those of other civilizations Has socialism made a lasting contribution to the legacy of human rights Are human rights universal or culturally bound Must human rights be sacrificed to the demands of national security Is globalization eroding or advancing human rights As she explores these questions Ishay also incorporates notable documents writings speeches and political statements from activists writers and thinkers throughout history *Inventing Human Rights* Lynn Hunt, 2008-03-25 In this extraordinary work of cultural and intellectual history Professor Hunt grounds the creation of human rights in the changes that authors brought to literature the rejection of torture as a means of finding out truth and the spread of empathy over the centuries **Human Rights in World History** Peter N. Stearns, 2012-05-04 Defended by a host of passionate advocates and organizations certain standard human rights have come to represent a quintessential component of global citizenship There are however a number of societies who dissent from this orthodoxy either in general or on particular issues on the basis of political necessity cultural tradition or group interest Human Rights in World History takes a global historical perspective to examine the emergence of this dilemma and its constituent concepts Beginning with premodern features compatible with a human rights approach including religious doctrines and natural rights ideas it goes on to describe the rise of the first modern style human rights statements associated with the Enlightenment and contemporary antislavery and revolutionary fervor Along the way it explores ongoing contrasts in the liberal approach between sincere commitments to human rights and a recurrent sense that certain types of people had to be denied common rights because of their perceived backwardness and need to be civilized These contrasts find clear echo in later years with

the contradictions between the pursuit of human rights goals and the spread of Western imperialism By the second half of the 20th century human rights frameworks had become absorbed into key global institutions and conventions and their arguments had expanded to embrace multiple new causes In today s postcolonial world and with the rise of more powerful regional governments the tension between universal human rights arguments and local opposition or backlash is more clearly delineated than ever but no closer to satisfactory resolution

The ^AHuman Rights Revolution Akira Iriye,Petra Goedde,William I. Hitchcock,2012-01-05 This volume explores the place of human rights in history providing an alternative framework for understanding the political and legal dilemmas that these conflicts presented with case studies focusing on the 1940s through the present

The History of Human Rights Micheline Ishay,2008-06-02 Ishay recounts the struggle for human rights across the ages from the Mesopotamian Codes of Hammurabi to the era of globalization She illustrates how the history of human rights has evolved from one era to the next through texts cultural traditions creative expression

The Routledge History of Human Rights Jean Quataert,Lora Wildenthal,2019-09-05 The Routledge History of Human Rights is an interdisciplinary collection that provides historical and global perspectives on a range of human rights themes of the past 150 years The volume is made up of 34 original contributions It opens with the emergence of a new internationalism in the mid nineteenth century examines the interwar League of Nations and the United Nations eras of human rights and decolonization and ends with the serious challenges for rights norms laws institutions and multilateral cooperation in the national security world after 9 11 These essays provide a big picture of the strategic political and changing nature of human rights work in the past and into the present day and reveal the contingent nature of historical developments Highlighting local national and non Western voices and struggles the volume contributes to overcoming Eurocentric biases that burden human rights histories and studies of international law It analyzes regions and organizations that are often overlooked The volume thus offers readers a new and broader perspective on the subject International in coverage and containing cutting edge interpretations the volume provides an overview of major themes and suggestions for future research This is the perfect book for those interested in social justice grass roots activism and international politics and society

The Oxford Handbook of History and International Relations Mlada Bukovansky,Edward Keene,Christian Reus-Smit,Maja Spanu,2023-08-03 Historical approaches to the study of world politics have always been a major part of the academic discipline of International Relations and there has recently been a resurgence of scholarly interest in this area This Oxford Handbook examines the past and present of the intersection between history and IR and looks to the future by laying out new questions and directions for research Seeking to transcend well worn disciplinary debates between historians and IR scholars the Handbook asks authors from both fields to engage with the central themes of modernity and granularity Modernity is one of the basic organising categories of speculation about continuity and discontinuity in the history of world politics but one that is increasingly questioned for privileging one kind of experience and marginalizing others The theme of granularity

highlights the importance of how decisions about the scale and scope of historical research in IR shape what can be seen and how one sees it Together these themes provide points of affinity across the wide range of topics and approaches presented here The Handbook is organized into four parts The first Readings gives a state of the art analysis of numerous aspects of the disciplinary encounter between historians and IR theorists Thereafter sections on Practices Locales and Moments offer a wide variety of perspectives from the longue dur e to the ephemeral individual moment and challenge many conventional ways of defining the contexts of historical enquiry about international relations Contributors come from a range of academic backgrounds and present a diverse array of methodological and philosophical ideas as well as their various historical interests The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal s original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

Curating Human Rights Robin Ostow, 2024-11-25 Curating Human Rights conceptualizes the human rights museum as a dynamic cultural political genre that interacts with multiple social activist state and corporate stakeholders Drawing upon ethnographic and archival research on seven human rights museums in six countries Ostow examines specifically what these museums do when they set out or purport to promote human rights This includes the stories they visualize display strategies educational and other activities internal structures the way they position their visitors the parameters of the human rights they address and the politics of pleasing their multiple stakeholders The book also explores the contradictions and political and corporate pressure that contributes to foregrounding some human rights violations and ignoring or obscuring others Ostow also examines the reactions to each museum in the local and national press and by local visitors politicians donors and other stakeholders The book ends with a discussion of the success and limitations of museums for promoting human rights and policy recommendations to enhance their effectiveness Curating Human Rights considers whether these museums are appropriate for and effective at promoting human rights and if they address the pitfalls that have been identified Curating Human Rights provides new perspectives on the field of human rights education and activism and will be of interest to academics and students engaged in the study of museums human rights culture and communication
