Place And Spirit In Taiwan:

Place and Spirit in Taiwan Alessandro Dell'Orto, 2003-08-29 Based on field work in Taiwan this book examines the ancient indigenous religious cult of Tudi Gong both as a religious social phenomenon and as an appropriate medium for exploring and analysing the social changes that have been occurring in contemporary Taiwan and the people's strategic adaptations to these changes In this comprehensive ethnography of Tudi Gong Dell'Orto engages in a theoretical discussion of the practices processes and strategies of ethnography and ethnographic writing and contributes to the construction of an anthropology of place by analysing a number of key concepts related to the notion of place and space The study combines the use of personal ethnography with raconteurs own accounts as a way of tracing senses of place and memories of the past This is a pioneering foundation text for an anthropology of non domestic place and space and brings the most important recent work of social geographers into the field of anthropology

Historical Dictionary of Taiwan Cinema Daw-Ming Lee, 2012-11-08 Taiwan was able to solidly build and sustain a film

industry only after locally produced Mandarin films secured markets in Hong Kong and Southeast Asia during the 1960s and 1970s. Though only a small island with a limited population in its heyday, Taiwan was among the top 10 film producing countries/areas in the world, turning out hundreds of martial arts kung fu films and romantic melodramas annually that were screened in theaters across Southeast Asia and other areas internationally. However, except for one acclaimed film by director King Hu, Taiwan cinema was nearly invisible on the art cinema map until the 1980s when the films of Hou Hsiao-hsien, Edward Yang, and other Taiwan New Cinema directors gained recognition at international film festivals first in Europe and later throughout the world. Since then, many other Taiwan directors have also become an important part of cinema history, such as Ang Lee and Tsai Ming-liang. The Historical Dictionary of Taiwan Cinema covers the history of cinema in Taiwan during both the Japanese colonial period (1895-1945) and the Chinese Nationalist period (1945-present). This is accomplished through a chronology highlighting the main events during the long period and an introduction which carefully analyses the progression. The bulk of the information, however, appears in a dictionary section including over a hundred very extensive entries on directors, producers, performers, films, film studios, and genres. Photos are also included in the dictionary section. More information can be found through the bibliography. Taiwan cinema is truly unique, and this book is a good place to find out more about it, whether you are a student or teacher or just a fan.

Ritual Performances as Authenticating

Practices Michael Rudolph, 2008. This present study examines the dynamics of the contemporary rituals of Taiwanese Aborigines following the change of this people's self-perception in times of Taiwanese multiculturalism and nativism. Based on materials collected in many years of participating observation, the book scrutinizes the efficacy of these rituals within the new religious, socio-cultural, and political context, a context that today is not only impacted by local and national but also by global influences. Are these rituals mere folkloristic representations of culture, or do they have deeper implications for society and people's identities? The book argues that the often newly invented or re-invented rituals play a crucial role regarding the generation, confirmation, and transformation of social reality in the new socio-political context.

Culture and Customs of

Taiwan Gary M. Davison, Barbara Reed, 1998-09-24. Taiwanese society is in the midst of an immense, exciting effort to define itself, seeking to erect a contemporary identity upon the foundation of a highly distinctive history. This book provides a thorough overview of Taiwanese cultural life. The introduction familiarizes students and interested readers with the island's key geographical and demographic features and provides a chronological summary of Taiwanese history. In the following chapters, Davison and Reed reveal the uniqueness of Taiwan and do not present it simply as the laboratory of traditional Chinese culture that some anthropologists of the 1950s through the 1970s sought when mainland China was not accessible. The authors examine how religious devotion in Taiwan is different from China in that the selected deities are those most relevant to the needs of the Taiwanese people. Literature and art, particularly of the 20th century, reflect the Taiwanese quest for identity more than the grand Chinese tradition. The Taiwanese architecture, festivals, and leisure activities, music, and

dance cuisine and fashion are also highlighted topics The final chapter presents the most recent information regarding children and education and explores the importance of the Taiwanese family in the context of meaningful relationships amongst acquaintances friends and institutions that make up the social universe of the Taiwanese This text is a lively treatment of one of the world s most dynamic societies **Taiwan** Steven Crook,2014 A new edition of the most in depth guide available to Taiwan covering everything from secret urban gems to remote mountains and islets Bradt s Taiwan helps the visitor discover a beautiful island dominated by its industrial and economic associations **Policing in Taiwan** Liqun Cao,Lanying Huang,Ivan Y. Sun,2014-05-09 The police in Taiwan played a critical role in the largely peaceful transition from an authoritarian regime to a democracy While the temptation to intervene in domestic politics was great the top down pressure to maintain a neutral standing facilitated an orderly regime change This is the first monograph to examine the role of the police as a linkage between the state and civil society during the democratic transition and the role of the police in contemporary Taiwan Starting with a brief history of Taiwan this book examines the development of policing in Taiwan from a comparative environmental historical operational philosophical and political perspective considers the role of the police in the democratic transition and draws comparisons between police cultures in the East and in the West both now and in the past Taiwan operates as a modern country within an East Asian culture and this book shows that Taiwan s move towards democracy may have political ramifications for the rest of the nations in the area Including references to literature on policing in China and the U S this book about Taiwan police may serve as a springboard for academics and students to learn about similar cultures in this important area of the world Policing in Taiwan will be of interest to academics and students who are engaged in the study of criminology criminal justice policing studies and Asian studies as well as the general reader

Tracing the History of Contemporary Taiwan's Aboriginal Groups Su-Chiu Kuo,2022-09-28 Using archaeological evidence the author investigates the prehistories of Austronesian migrants to Taiwan and their connections to contemporary peoples in Taiwan Due to its unique geographic location Taiwan has played a significant role in various peoples maritime migrations and the process of cultural interactions for tens of thousands of years Within the history of humankind Taiwan has also evidenced a high degree of cultural continuity Paleolithic people had already settled on the island at least 30 000 years ago but Taiwan only entered the historical period as recently as the 17th century Before this there was a long and continuous development over the prehistoric period To this day there are at least 20 different indigenous ethnic groups on the island totalling over half a million people all of whom speak Austronesian languages Investigating the archaeology of abandoned villages Kuo takes the Paiwan and Sanhe cultures as key case studies of these groups This book provides valuable insight for historians and archaeologists of Taiwan and scholars of prehistoric Austronesian migration *Making Saints in Modern China* David Ownby,2017 Sainthood has been and remains a contested category in China given the commitment of China s modern leadership to secularization modernization and revolution and the discomfort of China s elite with matters concerning

religion However sainted religious leaders have succeeded in rebuilding old institutions and creating new ones despite the Chinese government's censure This book offers a new perspective on the history of religion in modern and contemporary China by focusing on the profiles of these religious leaders from the early 20th century through the present Edited by noted authorities in the field of Chinese religion Making Saints in Modern China offers biographies of prominent Daoists and Buddhists as well as of the charismatic leaders of redemptive societies and state managers of religious associations in the People's Republic The focus of the volume is largely on figures in China proper although some attention is accorded to those in Taiwan Hong Kong and other areas of the Chinese diaspora Each chapter offers a biography of a religious leader and a detailed discussion of the way in which he or she became a saint The biographies illustrate how these leaders deployed and sometimes retooled traditional themes in hagiography and charismatic communication to attract followers and compete in the religious marketplace Negotiation with often hostile authorities was also an important aspect of religious leadership and many of the saints' stories reveal unexpected reserves of creativity and determination The volume's contributors from the United States Canada France Italy China and Taiwan provide cutting edge scholarship Taken together these essays make the case that vital religious leadership and practice has existed and continues to exist in China despite the state's commitment to wholesale secularization

Tourism Places in Asia Alan A. Lew, 2021-05-27 Tourism Places in Asia examines the impacts of tourism on places in East and Southwest Asia Asia has been the most dynamic region for tourism development in recent decades and tourism research from this region has grown significantly to better understand this phenomenon The primary focus is on the Chinese realm of mainland China and Taiwan East Asia has been the most dynamic region for tourism development in the world in recent decades driven by the growth of both outbound and domestic travel and tourism among mainland Chinese This

reflects the phenomenal change in prosperity that the People's Republic of China has experienced since the 1970s as well as the human drive to travel and explore their world. Tourism research has also grown significantly in the Asian continent in recent years. Much of this scholarship is focused on developing the Asian economies to move them from their developing world status. Tourism Places in Asia: Destinations, Stakeholders and Consumption highlights the progress of tourism scholarship in Asia in other areas, especially in the way places are impacted by tourists and the tourism industry. The chapters in this book were originally published as a special issue of the journal *Tourism Geographies*. **Taiwan and China** Lowell Dittmer, 2017-09-26. At publication date, a free ebook version of this title will be available through Luminos University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. China's relation to Taiwan has been in constant contention since the founding of the People's Republic of China in October 1949 and the creation of the defeated Kuomintang (KMT) exile regime on the island two months later. The island's autonomous sovereignty has continually been challenged initially because of the KMT's insistence that it continue to represent not just Taiwan but all of China, and later because Taiwan refused to cede sovereignty to the then dominant power that had arisen on the other side of the Taiwan Strait. One thing that makes Taiwan so politically difficult and yet so intellectually fascinating is that it is not merely a security problem but a ganglion of interrelated puzzles. The optimistic hope of the Ma Ying-jeou administration for a new era of peace and cooperation foundered on a landslide victory by the Democratic Progressive Party, which has made clear its intent to distance Taiwan from China's political embrace. The Taiwanese are now waiting with bated breath as the relationship tautens. Why did it fail and what chance does Taiwan have without it? Contributors to this volume focus on three aspects of the evolving quandary: nationalistic identity, social economy, and political strategy. Asian Folklore Studies, 2003
