Encyclopedia of Postcolonial Studies John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

Edinburgh Companion to the Postcolonial Middle East Ball Anna Ball, 2018-11-14 This Edinburgh Companion seeks to develop a postcolonial framework for addressing the Middle East The first collection of essays on this subject it assembles some of the

world's foremost postcolonialists to explore the critical theoretical and disciplinary possibilities that inquiry into this region opens for postcolonial studies. Throughout its twenty-four chapters, its focus is on literary and cultural critique. It draws on texts and contexts from the late nineteenth to the early twenty-first centuries as case studies and deploys the concept of postcolonial modernity to reveal the enduring impact of colonial and imperial power on the shaping of the region. And it covers a wide and significant range of political, social, and cultural issues in the Middle East during that period, including the heritage of Orientalism in the region, the roots and contemporary branches of the Israel-Palestine conflict, colonial history, state formation, and cultures of resistance in Egypt, Turkey, the Maghreb, and the wider Arab world; the clash of tradition and modernity in regional and transnational expressions of Islam; the politics of gender and sexuality in the Arab world; the ongoing crises in Libya, Iraq, Iran, and Syria; the Arab Spring; and the Middle Eastern refugee crisis in Europe.

Writing the Modern History of Iraq Jordi Tejel, 2012. The modern history of Iraq is punctuated by a series of successive and radical ruptures: coups d'état, changes of regime, military adventures, and foreign invasions whose chronological markers are relatively easy to identify. Although researchers cannot ignore these ruptures, they should also be encouraged to establish links between the moments when the breaks occur and the *longue durée* in order to gain a better understanding of the period. Combining a variety of different disciplinary and methodological perspectives, this collection of essays seeks to establish some new markers which will open fresh perspectives on the history of Iraq in the twentieth and twenty-first centuries and suggest a narrative that fits into new paradigms. The book covers the various different periods of the modern state: the British occupation and mandate, the monarchy, the first revolutions, and the decades of Ba'athist rule, through the lens of significant groups in Iraqi society, including artists, film makers, political and opposition groups, members of ethnic and religious groups, and tribes.
