how the Zhouyi was composed and explains its use for divination It also shows how centuries later the Zhouyi was adapted by the Confucians who believed it to be the creation of ancient sages and the source of their metaphysics and cosmology Redmond also analyzes the Changes through a variety of philological heuristics such as the Sapir Whorf hypothesis methods of analogy and anomaly the distinction between argumentative and context dependence as well as modern approaches such as Jungian psychology and critical theory Included are the interlinear Chinese text and a glossary of key words in English Chinese and pinyin making it essential reading for students studying Chinese philosophy Chinese religion and early Chinese history as well as readers looking for a clear and accessible gloss of this text *The Original I Ching Oracle or The Book of Changes* Rudolf Ritsema, Shantena Augusto Sabbadini, 2018-05-15 Often referred to as the Eranos edition this revised and updated translation offers the most substantial advance in I Ching since Richard Wilhelm introduced the oracle to the West in the 1920s The I Ching is one of the oldest Chinese texts and the world's oldest oracle Accumulated from over 2 500 years of diviners sages and shamans and born out of the oral tradition the I Ching as we know it today is a collection of texts imagery and advice philosophy and poetry divided into 64 chapters There are 64 hexagrams created from a collection of six lines either broken or solid In order to read from the book you must cast a hexagram The traditional method required yarrow sticks but nowadays is based on tossing three coins six times The Original I Ching Oracle or Book of Changes was inspired by Carl Gustav Jung's insights into the psyche and researched for more than 60 years through the Eranos Foundation of Switzerland It presents the oracular core of the I Ching as a psychological tool the symbols interact with our minds in the same way dream images do **The I Ching (Book of Changes)** Geoffrey Redmond, 2017-07-13 The I Ching has influenced thinkers and artists throughout the history of Chinese philosophy This new accessible translation of the entire early text brings to life the hidden meanings and importance of China's oldest classical texts Complemented throughout by insightful commentaries the I Ching A Critical Translation of the Ancient Text simplifies the unique system of hexagrams lying at the centre of the text and introduces the cultural significance of key themes including yin and yang gender and ethics As well as depicting all possible ethical situations this new translation shows how the hexagram figures can represent social relationships and how the order of lines can be seen as a natural metaphor for higher or lower social rank Introduced by Hon Tze Ki an esteemed scholar of the text this up to date translation uncovers and explains both the philosophical and political interpretations of the text For a better understanding of the philosophical and cosmological underpinning the history of Chinese philosophy the I Ching is an invaluable starting point *The Original I Ching Oracle* ,2007 This remarkable work is the final result of 50 years of I Ching research and over 10 years of roundtables and seminars Based on a revolutionary translation method and inspired by Carl Jung's insights into the psyche The Original I Ching Oracle offers Western readers the closest possible approach to the true content of the ancient Chinese oracle By cutting through layers of philosophical analysis and recovering the original images of the I Ching it puts readers in contact with a deep universal dimension of the
