**The Law of**

**Security and Title-Based Financing** Michael Bridge, Louise Gullifer, Eva Lomnicka, 2024-10-23 Personal property security is an important subject in commercial practice as it is the key to much of the law of banking and sale. This book examines traditional methods of securing debts such as mortgages, charges and pledges as well as so-called quasi security on property other than land, describing how these are created, how they must be registered or otherwise perfected if they are to be valid, the rights and duties of the parties and how the security is enforced if the debt is not paid. This fourth edition has been updated to incorporate recent political and legal developments including Brexit. The Edinburgh Reforms, which have followed the United Kingdom's exit from the European Union, promise a thorough overhaul of the consumer credit regime. The Retained EU Law Revocation and Reform Act 2023 potentially affects the interpretation of EU assimilated law, including the Financial Collateral Arrangements (No. 2) Regulations (FCARs). This edition further assesses the implications of the Business Contract Terms (Assignment of Receivables) Regulations 2018, taking pledges over electronic documents of title in the light of the Electronic Trade Documents Act 2023, the outlawing of ipso facto clauses by the Corporate Insolvency and Governance Act 2020, and the reduced scope of the EU Insolvency Regulation. The treatment of insolvency matters within the framework of the Cape Town Convention is also considered, as are recent cases on pledges of bills of lading when the carrier no longer has possession of the goods, the distinction between fixed and floating charges, equitable liens and the right of appropriation of financial collateral. There is a full discussion of the taking of security over digital assets and the relevance of the FCARs. The only full-length treatment covering both traditional security over personal property and also devices that fulfil a similar economic function, such as retention of title and sales of receivables. The Law of Security and Title-Based Financing is a frequently cited and indispensable reference work both for practitioners and academics. *Basic Immigration Law*, 2010

**Elgar Encyclopedia of Comparative Law, Second Edition** J. M. Smits, 2012-01-01 Acclaim for the first edition. This is a very important and immense book. The Elgar Encyclopedia of Comparative Law is a treasure trove of honed knowledge of the laws of many countries. It is a reference book for dipping into time and time again. It is worth every penny and there is not another as comprehensive in its coverage as Elgar's. I highly recommend the Elgar Encyclopedia of Comparative Law to all English chambers. This is a very important book that should be sitting in every university law school library. \_ Sally Ramage. The Criminal Lawyer. Containing newly updated versions of existing entries and adding several important new entries, this second edition of the Elgar Encyclopedia of Comparative Law takes stock of present-day comparative law scholarship. Written by leading authorities in their respective fields, the contributions in this accessible book cover and combine not only questions regarding the methodology of comparative law but also specific areas of law such as administrative law and criminal law and specific topics such as accident compensation and consideration. In addition, the Encyclopedia contains reports on a selected set of countries' legal systems and as a whole presents an overview of the current state of affairs. Providing its readers with a unique point of reference as well as stimulus for further research, this volume is an indispensable tool for anyone interested.

in comparative law especially academics students and practitioners      *Theory and Practice of Harmonisation* Mads Andenas, Camilla Baasch Andersen, 2012 Harmonised and uniform international laws are now being spread across different jurisdictions and fields of law bringing with them an increasing body of scholarship on practical problems and theoretical dimensions This comprehensive and insightful book focuses on the contributions to the development and understanding of the critical theory of harmonisation The contributing authors address a variety of different subjects concerned with harmonisation and the application of legal rules resulting from harmonisation efforts This study is written by leading scholars engaged in different aspects of harmonisation and covers both regional harmonisation within the EU and regional human rights treaties as well as harmonisation with international treaty obligations With comparative analysis that contributes to the development of a more general theory on the harmonisation process this timely book will appeal to EU and international law scholars and practitioners as well as those looking to future legal harmonisation in other regions in Asia Latin America and Africa      Secured Transactions Law Reform in Africa Marek Dubovec, Louise Gullifer, 2019-10-31 Over the last few decades many countries have reformed their secured transactions law One of the main reasons has been the clear link between reform and the availability of credit and the drive to improve access to finance particularly for micro small and medium sized enterprises This book focuses particularly on developing economies in Africa which have legal frameworks influenced by English French Belgian Roman Dutch and other laws Reform in this area of law across African countries has taken a number of forms which are explored and discussed in this book Secured Transactions Law Reform in Africa is a mixture of a critical description of the pre reform law and practice and the reform process itself It also includes a comparative analysis of the legal provisions and an examination of the early results of the reforms The book sets out a road map for the future of secured transactions reform primarily in Africa but also in other countries that have undertaken or are contemplating similar reforms This book is the second in a series of books about Secured Transactions Law in countries around the world and its reform both on a national and an international scale The first book Secured Transactions Law Reform Principles Policies and Practice was published in 2016      *International Lawyer's Deskbook* Lucinda A. Low, Daniel M. Drory, 2003 A reference tool for lawyers facing international legal problems outside their own areas of expertise

**Modern Chinese Real Estate Law** Gregory M. Stein, 2016-04-15 With massive growth taking place in the real estate industry how can China develop a free market and private ownership of land while still officially subscribing to Communist ideology This study uses fieldwork interviews to establish how the Chinese real estate market operates in practice from both legal and business perspectives It describes how the market functions which laws are applicable and how they are applied and how a nation can achieve dramatic economic growth so rapidly while its legal system is so unsettled The book demonstrates how China is drawing on the world for ideas while retaining a domestic system that remains essentially Chinese and how the recent revitalization of China's real estate market has confounded the predictions of many

developments economists     Searching the Law, 3d Edition Frank Bae,Edward Bander,Francis Doyle,Joel Fishman,Paul Richert,2021-12-13     **Self-Help, Private Debt Collection and the Concomitant Risks** Cătălin Gabriel

Stănescu,2015-08-25 The book shows that self help in commercial law is a fast inexpensive and efficient alternative to court enforcement Self help remedies and private debt collection are largely but not exclusively features of common law jurisdictions since remnants of private enforcement can still be found in contract law in civilian systems The book argues that despite their usefulness self help and private debt collection entail significant risks especially for consumer debtors This means that private enforcement needs to be accompanied by the introduction of tailor made consumer debtor protection regulation Specific attention is given to factoring which functions in many instances as a form of pseudo private debt collection and which has been exploited to bypass sector specific consumer protection regulations     Intellectual Property, Finance and Corporate Governance Janice Denoncourt,2018-04-19 IP law has evolved from being a little pool to a big ocean Corporate governance needs to respond to society's rising expectations of directors and boards as the impact of the global intellectual property ecosystem is felt How can a responsible corporate culture of IP transparency be stimulated to create a rosy future to connect corporate communication with the desires of shareholders investors and other stakeholders The astonishing lack of material quantitative and qualitative information companies report about their IP assets makes it difficult for shareholders and other stakeholders to assess directors stewardship of those assets a pressing corporate governance issue in the 21st century This book advances IP reporting in alignment with the key corporate governance principles of transparency and disclosure It analyses the juncture between the IP ecosystem corporate finance and accounting for intangibles and corporate governance Patents mini case studies and an original business triage style model for assessing IP disclosures are used to illustrate the gaps corporate governance theory needs to address Focussing on the common law tradition of corporate governance in England and Wales intangibles and IP reporting developments in other jurisdictions are also explored
