There is an art to dying well that can be taught and learned. While death is inevitable, dying badly is not. This practical guide to achieving a good death will reduce the fear that often cloaks discussions about death and dying and give readers the knowledge and skills to achieve a peaceful and gentle death. With the multiple options available at the end of life, people can design and direct their end-of-life journey so they have as fulfilling and meaningful a life as possible right up to the end and achieve the elusive good death when the time comes. Chapters focus on essential elements of living well and preparing for a good death, including: Death cleaning so we don't burden our loved ones with a big mess; Talking with loved ones and doctors about our end-of-life wishes and aspirations so they know what matters to us and how we want to be treated; Writing a legacy letter, an ethical will, and a memoir to let loved ones know what is deep in our hearts; Understanding caregivers, an underappreciated group of people, usually unpaid women who number in the millions; The benefits of palliative care, hospice care, and end-of-life doulas and the necessary vigilance to get the most out of these essential services; End-of-life options, including medical aid in dying (MAID) and voluntarily stopping eating and drinking (VSED); What it's like to die and how to help people as they die; Options for disposition of the body of a loved one or your own body after death, especially in an economically and ecologically responsible way; Planning commemorations and celebrations of life; The nature of grief, including how to deal with it and why it is often unbearably painful.
