**Practical Guide to Managing Acidic Surface Waters and Their Fisheries** Robert W. Brocksen, Michael D.

Marcus, Harvey Olem, 1992-01-14 Practical Guide to Managing Acidic Surface Waters and Their Fisheries explains how to manage acidic surface waters to preserve or restore fisheries The work gives readers the basic tools to carry out a variety of surface water management activities Topics include biological productivity and recovery costs of liming fish stocking lake liming techniques nutrients regulations and permits sampling stream liming techniques water quality analysis and watershed liming techniques The book will be a useful reference for fishing club managers state and local government personnel lake association managers and others responsible for maintaining lakes and streams that may be affected by acidity from any source

**Liming of Acidified Surface Waters** Lennart Henrikson, Y.W. Brodin, 2012-12-06 Acidification is one of the most serious environmental problems especially in Sweden which suffers most from the consequences of acid rain Besides international negotiations to reduce sulphur emissions 85% of the acid load on Sweden can be traced to emissions from outside Sweden the Swedish Government has employed large scale operative liming activities to counteract acidification of surface waters The scientific results show that although acidification cannot be solved by liming the measures taken resulted in substantially improved conditions in around 8 000 Swedish lakes and watercourses and other countries affected by acidification may also profit from the Swedish experience
