Practical Muse:

The Practical Muse Patricia Rae,1997 Patricia Rae's study while accepting Rorty's view that there is philosophical solidarity between pragmatism and modernism rejects his interpretation of both as forms of dogmatic skepticism. If pragmatism and modernism coincide, Rae argues, the case of these three writers suggests that the intersection lies not in a rejection of truthfulness to experience but in a cautious respect for it.

Renaissance and Baroque art and cultural practice Rebecca Harding Davis and American Realism Sharon M.

Harris,1991-06 From the late 1860s until her death in 1910 Rebecca Harding Davis was one of the best known writers in America She broke into print as a young woman in the 1860s with *Life in the Iron Mills* which established her as one of the pioneers of American realism She developed a literary theory of the commonplace nearly two decades before William Dean Howells shaped his own version of the concept Yet in spite of her importance to the literary and popular culture of her time she has been for the most part ignored by scholars *Rebecca Harding Davis and American Realism* helps to change that

Creating Realities Erhan Simsek,2019-02-20 Business is woven into the very fabric of American life yet rarely surfaces in the nation's literary history Even in novels about business it proves an elusive motif that fails to mirror actual business organizations This book argues that literary representations of business remain ineffable because business serves potential aesthetic functions subtly yet meaningfully impacting readers Exploring the complex representation of business in realist naturalist and modernist works Erhan Simsek reveals these functions by analyzing how the motif intertwines with social developments literary movements and author biographies He thus illuminates the motif itself while highlighting the utility of a focus on the changing functions of literature **Marianne Moore and the Cultures of Modernity** Victoria

Bazin,2016-05-06 Victoria Bazin examines the poetry of Marianne Moore as it is shaped by and responsive to the experience of being a modern woman of living in the aftermath of the First World War of being interpellated as a modern consumer and of writing in the age of mechanical reproduction She argues that Moore's textual collages and syllabic sculptures are based on the cultural clutter or debris of modernity on textual extracts and reproductions on the phantasmagoria of city life revealing something modernism worked hard to conceal its relation to modernity more specifically its relation to the new emerging and expanding mass consumer culture Drawing extensively on archival resources to trace Moore's influences and to describe her own distinctive modernist aesthetic this book argues that it was her feminist adaptation of pragmatism that shaped her poetic response to modernity Moore's use of the quoted fragment is conceptualised in relation not only to Walter Benjamin's philosophical history but also to William James's image of the world as a series of partial stories As such this account of Marianne Moore not only contributes to a greater understanding of the poet and her work but it also offers up a more politicized and historically nuanced understanding of poetic modernism between the wars one that retains a sense of the formal complexities of poetic language and the poet's own ethical imperatives whilst also recognising the material impact of modernity upon the modernist poem This book will appeal therefore not only to scholars already familiar with Moore's poetry but more widely to those interested in modernism and American culture between the wars **Amherst Collegiate**
