G. H. Vickers,1969 **Women, Horse Sports and Liberation** Erica Munkwitz,2021-07-13 Shortlisted for the 2022 Lord Aberdare Literary Prize This book is the first full length scholarly examination of British women's involvement in equestrianism from the eighteenth through the twentieth centuries as well as the corresponding transformations of gender class sport and national identity in Britain and its Empire It argues that women's participation in horse sports transcended limitations of class and gender in Britain and highlights the democratic ethos that allowed anyone skilled enough to ride and hunt from chimney sweep to courtesan Furthermore women's involvement in equestrianism reshaped ideals of race and reinforced imperial ideology at the zenith of the British Empire Here British women abandoned the sidesaddle which they had been riding in for almost half a millennium to ride astride like men thus gaining complete equality on horseback Yet female equestrians did not seek further emancipation in the form of political rights This paradox of achieving equality through sport but not through politics shows how liberating sport was for women into the twentieth century It brings into question what emancipation meant in practice to women in Britain from the eighteenth through twentieth centuries This is fascinating reading for scholars of sports history women's history British history and imperial history as well as those interested in the broader social gendered and political histories of the nineteenth and twentieth centuries and for all equestrian enthusiasts **Business Integrity in Practice** Agata Stachowicz-Stanusch,2012-11-18 The quest for integrity in business is not only a reaction against malfeasance in business and associated calls for reform but also a search that stems from changes and new demands in the global business environment Among the sources of these new demands are the expectations of stakeholders that corporations and their leaders will take more active roles as citizens within society and in the fight against some of the most pressing problems in the world such as poverty environmental degradation defending human rights corruption and pandemic diseases This book presents and critically discusses key case studies from all over the world offering essential insights practical advice and guidance for any business leader wishing to lead an organization with reliable and proven integrity The authors provide valuable research results as well as real teaching tools for faculty and students
