**Advancing the Science of Environmental Justice in the International Wildlife Trade**

Jamie K. Reaser, Nicholas King, Gunārs Haufls Platais, Ines Arroyo-Quiroz, Meredith L. Gore, Isla Kirkey, 2025-06-03 The Smithsonian Institution has offered to cover the publication costs of most if not all of the papers accepted for this Research Topic There is a need to conceptualize an environmental justice framework that informs regulation of the international wildlife trade to minimize species endangerment and infectious disease risks while also affording environmental justice to communities nations species and ecological systems entwined in the commerce pathway This Research Topic is dedicated to advancing the science of environmental justice in the international wildlife trade from both problems and solutions

perspectives We welcome manuscripts relevant to legal and or illegal aspects of the international wildlife trade Submissions must be of a scholarly nature and framed from a social sciences perspective although inter disciplinary work is encouraged The international wildlife trade has been recognized as one of the greatest threats to biodiversity as well as a facilitator of zoonotic disease transmission with pandemic potential This has led to increased calls for regulation of this megabillion year industry ranging from comprehensive bans to risk based strategies that are species product and or geography specific Every aspect of wildlife commerce and every proposed risk mitigation measure has implications for environmental justice yet environmental justice has not been mainstreamed in the scientific inquiry policy nor planning processes relative to the international wildlife trade Because wildlife trade has diverse drivers and purposes as well as different levels of legality social legitimacy and enforcement there is an urgent need to understand the environmental justice issues tied to consumer demand vs supply provision along the trade chain including how this is influenced by economic cultural and geographic biases An understanding of environmental justice patterns and trends is necessary for the design and support of effective regulatory frameworks that manage risks in actuality rather than merely in concept Determining where and how to permit and support legal and sustainable wildlife trade versus where it should be more tightly regulated or even cease requires at least as much understanding of the human animal as it does the wildlife species A greater understanding of the political economy of the illegal aspects of the international wildlife trade from an environmental justice perspective can also open new vistas of green criminological inquiry Ecological citizenship and environmental justice are central themes in green criminology highly relevant to the wildlife trade They recognize justice as central to the right to be protected from harm whether that is one on one harm institutionalized harm or harm arising from human actions that affect climates and environments on a global scale The recognition of such rights in trade regulation is scant and more likely overshadowed by a desire to protect the economic value of a good rather than the inherent value of the wild animal being consumed We will prioritize papers that use social science approaches tools to empirically investigate aspects of environmental justice in the international wildlife trade Manuscripts should be framed so as to facilitate development of an environmental justice framework that informs regulation of the international wildlife trade to minimize species endangerment and infectious disease risks while also affording environmental justice to communities nations and ecological systems entwined in the commerce pathway We welcome manuscripts relevant to legal and or illegal aspects of the international wildlife trade Submissions must be of a scholarly nature we will not accept advocacy documents The following manuscript types will also be considered if the contributions are sufficiently innovative transformative 1 Case studies of environmental justice problems resolutions in the international wildlife trade context 2 Models for advancing the science of environmental justice in the international wildlife trade context 3 Analyses of international wildlife trade law policy frameworks with a view toward integrating environmental justice issues as rooted in scholarly science All papers should emphasize conservation goals

, 1979 *Popular Music Will Not Save Us* Lauren K. Richerme, 2025 In today's globalized landscapes both traditional and progressive K 12 music education practices including those associated with popular music can further capitalism related inequities In this context music educators and students might consider how they position themselves and their music making practices in relation to capitalist aims and processes and confront the more unethical aspects of capitalism *Popular Music Will Not Save Us* challenges music educators to rethink their philosophical stances in the face of contemporary capitalist values and explores the intersection of music education and globalized capitalism unveiling how certain practices exacerbate material inequities and erode social responsibility As author Lauren Kapalka Richerme unravels the complexities of music education her analysis sheds light on how prevalent practices can inadvertently uphold capitalist ideals and reinforce individualism unceasing accumulation and precarity in the workforce Given that no musical genre inherently challenges problematic aspects of capitalism Richerme proposes that music educators instead focus on affective flows or the circulation of sensations within pedagogical spaces and consider four alternative positionalities thriving within surviving under resisting and challenging capitalism *Popular Music Will Not Save Us* advocates for a shift away from capitalistic individualism and

inequities and toward a more equitable affective pedagogical mode Now is the time to transcend traditional boundaries and embrace a new paradigm that prioritizes social impact over commercial gain Riverside ,1995 **Congressional Record** United States. Congress,2000 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Considering Trilingual Education** Kathryn Henn-Reinke,2012-04-27 Based in case studies conducted in the US Europe and Latin America this book explores the feasibility and benefits of trilingual multilingual education in the United States Currently there are few programs in the country of this nature as educators tend to conclude that English language learners would be overwhelmed by study in additional languages Henn Reinke builds an argument supporting trilingual education in the US discussing issues of identity curriculum pedagogy and the impact of other psycho socio linguistic factors **Geriatric Rehabilitation** K. Rao Poduri,2017-03-16 Geriatric Rehabilitation addresses the fact that this is an age in which individuals have increasing longevity better health care education and expectations of health care which present new increasing and even radical challenges to health care providers The care of our older patients in rehabilitation settings demands the broad understanding of the key differences in strategies to care for older adults The combined skills embraced in rehabilitation and geriatrics are presenting unprecedented opportunities for both fields to make substantive and even ground breaking improvements in the lives of millions of older adults who entrust their lives to us Rarely in one s medical career are such opportunities so evident and achievable Geriatric Rehabilitation edited by Dr K Rao Poduri MD FAAPMR draws on a distinguished group of authors who are the front line providers of care to the older adults This book presents the full spectrum of the unique care needs of older patients who need the combined skills of physical medicine and geriatrics It provides an easily accessible means of acquiring and improving these new skills for all those involved in geriatric care The Crash of Ruin Peter Schrijvers,2001-02 In the ruined Europe of World War II American soldiers on the frontline had no eye for breathtaking vistas or romantic settings The brutality of battle profoundly darkened the soldiers perceptions of the Old World Drawing on soldiers diaries letters poems and songs Peter Schrijvers offers a compelling account of the experiences of U S combat ground forces their struggles with the European terrain and seasons their confrontations with soldiers and their often startling encounters with civilians Schrijvers relays how the GIs became so desensitized and dehumanized that the sight of dead animals often evoked more compassion in them than enemy dead The Crash of Ruin concludes with a dramatic and moving account of the final Allied offensive into German held territory and the soldiers bearing witness to the ultimate symbol of Europe s descent into ruin the death camps of the Holocaust
