The Practice of Christianity, 1913

*The Dangers of Christian Practice* Lauren F. Winner, 2018-01-01 Challenging the central place that practices have recently held in Christian theology Lauren Winner explores the damages these practices have inflicted over the centuries Sometimes beloved and treasured Christian practices go horrifyingly wrong extending violence rather than promoting its healing In this bracing book Lauren Winner provocatively challenges the assumption that the church possesses a set of immaculate practices that will definitionally train Christians in virtue and that can t be answerable to their histories Is there for instance an account of prayer that has anything useful to say about a slave owning woman s praying for her slaves obedience Is there a robustly theological account of the Eucharist that connects the Eucharist s goods to the sacrament s central role in medieval Christian murder of Jews Arguing that practices are deformed in ways that are characteristic of and intrinsic to the practices themselves Winner proposes that the register in which Christians might best think about the Eucharist prayer and baptism is that of damaged gift Christians go on with these practices because though blighted by sin they remain gifts from God

**Following Jesus in a Culture of Fear (The Christian Practice of Everyday Life)** Scott Bader-Saye, 2007-06-01 Through politics marketing news programming and popular culture we are taught to fear often in ways that profit others But what does all this fear do to our moral lives as it forms or deforms our character and our judgment Drawing on Christian scripture and tradition Following Jesus in a Culture of Fear articulates a response to fear that resists an ethic of security in favor of fostering an ethic of risk The Christian virtues of hospitality peacefulness and generosity are presented as the way to defeat the counter virtues of suspicion preemption and control Pastors students and lay people will find this unique book both accessible and intriguing

EXCERPT Do not be afraid We live in a time when this biblical refrain cannot be repeated too often Both John Paul II in 1978 and his successor Benedict XVI in 2005 used these words to begin their papacies Among all the things the church has to say to the world today this may be the most important No one has to be convinced that we live in fearful times though we are not always sure what we should be afraid of and why

We suspect that our fears make us vulnerable to manipulation but we find it hard to quell the fear long enough to analyze how it is being produced and directed for the benefit of others One reason we are a more fearful culture today despite the fact that the dangers are not objectively greater than in the past is because some people have incentives and means to heighten manipulate and exploit our fears Fear is a strong motivator and so those who want and need to motivate others politicians advertisers media executives advocacy groups even the church turn to fear to bolster their message I call this the fear for profit syndrome and it is rampant We have become preoccupied with unlikely dangers that take on the status of imminent threats producing a culture where fear determines a disproportionate number of our personal and communal decisions The sense of ever increasing threats can overwhelm our ability to evaluate and respond proportionately to each new risk thus we allow fear to overdetermine our actions

**Practicing Christianity** Margaret R. Miles,1990 Men and women throughout history have learned to shape their lives around Christian ideas attitudes and values in many different ways They have been helped by liturgies sermons visual imagery religious drama and hymns But perhaps the most important sources were the classic devotional manuals like *The Imitation of Christ* and *The Pilgrim's Progress* many of which are still in use today In this book Margaret Miles subjects these devotional manuals to a detailed critique Miles speaks as a scholar as a Christian living in the modern world and as a woman and she ends by discussing the relevance of her findings to Christian life today Dr Miles rightly highlights the importance of manuals in the spiritual formation of lay people down the ages Her active and disobedient reading of historical texts which were written for the care and cultivation of an interior life engages the reader in a serious and fascinating study In fact she has succeeded in fulfilling every literary critic's dream She has written a book which sends us straight back to her primary sources by providing richly documented insights into the relevance of the imagery to our contemporary search for God Lavinia Byrne IBVM Margaret R Miles was formerly Bussey Professor of Historical Theology at the Harvard University Divinity School She is the author of *Augustine on the Body Image as Insight and Carnal Knowing*

**The Knowledge and Practice of Christianity Made Easy to the Meanest Capacities** ,1792 **Christian Missionaries, Ethnicity, and State Control in Globalized Yunnan** Gideon Elazar,2023-10-31 Following the Communist Revolution of 1949 missionaries were kicked out of China and proselytizing was outlawed However since the beginning of the reform era China has witnessed a massive return of missionary workers Today there are more Christians in church on a given Sunday in China than anywhere else on the globe This book investigates the interaction of Western missionaries ethnic minorities and Han Chinese converts with the Chinese state in an increasingly

globalized China Based on extensive ethnographic fieldwork conducted in Yunnan it tries to make sense of the disparity between official state rhetoric and everyday reality Examining morality in the context of the free market system spatial practices linguistic activity and Christian welfare organizations Gideon Elazar reveals the ways in which the previously conflicting Communist Party and Christian civilizing projects have reached a measure of convergence enabling local authorities to treat missionaries with a degree of tolerance Elazar shows how this unofficial arrangement relates to the social realities and challenges of the reform era including ethnic culture and identity Yunnan s many social problems and the integration of ethnic minorities into the state system By exploring the continuously shifting social and religious borders negotiated by converts missionaries and state authorities in Southwest China this book sheds light on the larger issue of contemporary religion in China s global era It will be of interest to researchers of religion Christianity and minority groups in the People s Republic of China      **The Social Implications of Christianity** John Lee,1922      **Practicing Theology**

Miroslav Volf,Dorothy C. Bass,2001-10-26 In a time when academic theology often neglects the lived practices of the Christian community this volume seeks to bring balance to the situation by showing the dynamic link between the task of theology and the practices of the Christian life The work of thirteen first rate theologians from several cultural and Christian perspectives these informed and informative essays explore the relationship between Christian theology and practice in the daily lives of believers in the ministry of Christian communities and as a needed focus within Christian education

original first published in 1861      *Christianity, LGBTQ Suicide, and the Souls of Queer Folk* Cody J. Sanders,2020-05-15 While garnering the attention of professionals across disciplines from medicine to public health to psychology and frequently covered as a topic of public concern in the news media the elevated occurrence of suicide attempts among LGBTQ persons has received little attention within the literature of theology and religious studies This book fills that lacuna by addressing the role that religious spiritual and theological narratives play in shaping the souls of queer folk Taking a narrative approach to qualitative interview material from LGBTQ individuals who survived their suicide attempts Cody J Sanders argues that

theological narratives can operate violently upon the souls of LGBTQ people in ways that make life precarious and at times seem unlivable. The book critically addresses the violence of theological narratives upon queer souls, filling a crucial void in scholarship concerning the role of religion, specifically Christianity, in LGBTQ suicide. Ultimately, the author draws upon the interview material to move readers toward constructive methods of contributing to the resistance and resilience of queer souls in relation to soul violence, asking how we can intervene with practices of care in order to cultivate livability of life for queer people.

**In God's Empire** Owen White, J.P. Daughton, 2012-07-31 A collection of original essays by leading scholars in the field. *In God's Empire* examines the complex ways in which the spread of Christianity by French men and women shaped local communities, French national prowess, and global politics in the two centuries following the French Revolution. More than a story of religious proselytism, missionary activity was an essential feature of French contact and interaction with local populations. In many parts of the world, missionaries were the first French men and women to work and live among indigenous societies. For all the celebration of France's secular civilizing mission, it was more often than not religious workers who actually fulfilled the daily tasks of running schools, hospitals, and orphanages. While their work was often tied to small villages, missionaries' interactions had geopolitical implications. Focusing on many regions from the Ottoman Empire and North America to Indochina and the Pacific Ocean, this book explores how France used missionaries' long connections with local communities as a means of political influence and justification for colonial expansion. *In God's Empire* offers readers both an overview of the major historical dimensions of the French evangelical enterprise as well as an introduction to the theoretical and methodological challenges of placing French missionary work within the context of European imperial religious history and world history.

**Forrester on Christian Ethics and Practical Theology** Duncan B. Forrester, 2017-05-15 Bringing together articles and chapters from his considerable work in theological ethics, *India and the Social Order*, Duncan Forrester incorporates new writing and introductions to each thematic section to guide readers through this invaluable resource. This book offers stimulating studies in three related areas: Indian Christianity with particular attention to the caste system; contemporary Christian theological ethics and the distinctive and challenging theological approach that Duncan Forrester has developed in relation to public issues such as prisons and punishment, welfare provision, social justice, and poverty.

**Christian Naturalism** Karl E. Peters, 2022-08-31 Is it possible to believe that our life in this world is all there is and be Christian? Karl Peters says yes. We can think about God as the creativity of the world. About our life as beginning when we were hydrogen atoms so that everything is family. About how the evils of sexism, racism, and speciesism, climate change, arose in human history. Peters says that Jesus is fully human. His mother Mary was raped by a Roman soldier. And he is savior by being an inspiring moral example of how we should live: loving God completely and our neighbor as ourselves. Through evolution, we are related to everything else. Therefore, we should love as family all varieties of humans, other species, and the planet itself.
