Psychology and the Question of Agency Jack Martin, Jeff Sugarman, Janice Thompson, 2012-02-01 Disciplinary psychology has failed to achieve a coherent conception of human agency Instead it oscillates between two differing conceptions of agency that are equally untenable a scientific reductive approach to choice and action and an instrumental approach that celebrates a romantic notion of free will This book examines theoretical philosophical psychology and argues for a historically and socioculturally situated human capacity for choosing and acting in ways not entirely determined by culture and or biology The authors present a detailed developmental theory of how agentic

capability emerges from the pre reflective activity of humans in a real physical and social world Implications of the theory are considered for psychological research and practice and for the broader socio political impact of disciplinary psychology in Western liberal democracies
