**Running Group Visits in Your Practice** Edward B. Noffsinger,2009-07-21 A Fateful Meeting A year and a half ago I was sitting at a conference listening to Ed Noffsinger speak and suddenly had the most profound Aha moment of my professional career Here was someone presenting a practical and tested solution to some of the most challenging problems currently plaguing the US healthcare system problems such as poor access to primary and specialty care the uncontrollable and rising costs of healthcare our nation s relatively poor quality outcomes and finally the sense of frustration disempowerment loneliness and disenfranchisement that patients and their families too often experience Dr Noffsinger s solution seemed deceptively simple shared medical appointments SMAs that afford the highest quality healthcare to be delivered in the highest quality care experience a group setting Experience collected over a decade and involving more than 100 000 patient visits throughout the United States Canada and parts of Europe has demonstrated that SMAs when used in primary care as well as in the medical and surgical subspecialties lead to increased access to care enhanced quality of care and improved patient satisfaction For physicians the efficiency gains and team support from their participation in SMAs translate into much needed relief and improved career satisfaction The Southwestern Reporter ,1915 Early Years Practice Nóirín Hayes,2023-12-01 This fully revised edition of Early Years Practice Getting It Right From the Start integrates theory and practice and expands on the topics of early childhood practice as located within the context of international curriculum frameworks including Aistear the Irish framework With two new chapters it introduces readers to the complexities and possibilities of a play based pedagogy and the importance of pedagogical leadership Drawing on recent international scholarship the book pays particular attention to the role of outdoor play and learning and the impact of digital technologies It considers how best to manage the competing demands challenges and tensions that affect the daily experiences of educators and children in contemporary society This new edition also revises the original text with expanded references on topics such as the ecology of early childhood settings education for sustainability developmental psychology education and neuroscience This timely text also reviews international literature from both research and practice strengthens understandings of the key role of relationships to quality practice and the effects on the development and learning of young children All the chapters provide specific examples of good practice with strategies and suggestions aimed at enhancing the overall experience of early childhood settings for both educators and children The information collected and explored in the book can be used by lecturers and educators alike to stimulate conversation guide reflection and support the

profession of early childhood educators to collectively work towards achieving supporting and sustaining high quality early years practice that adds constructively to the lives of babies and young children

**Practical Phlebology: Starting and Managing a Phlebology Practice** Marlin Schul, Sandra Spruiell, Clint Hayes, 2024-11-01

Studies routinely report a prevalence of venous disease of twenty percent or higher among western industrialized countries and it is predicted that numbers will rise even higher in industrialized and obese populations The management of venous disease has moved from the hospital and institutional setting to one that operates predominantly in an outpatient arena These settings are often far more representative of a cosmetic surgery or dermatology practice targeted to optimize the patient experience Those who have adopted endovenous procedures in the typical hospital environment often meet obstacles that limit their ability to expand phlebology care

Practical Phlebology Starting and Managing a Phlebology Practice provides a practical yet effective framework for transitioning an existing hospital based practice to the outpatient arena Some of the questions tackled by this manual include Where can I acquire the necessary training and education What equipment is required and where might I find it What are my start up costs and will I need a loan What personnel are needed and how do I identify the best candidates What is the best way to market my practice How much will I spend and how effective will a campaign be How do insurers view procedures for varicose veins How will I be paid These questions and many more are outlined in detail The book provides examples that help readers take steps towards creating a successful phlebology practice There are many ways to develop and manage a practice and the authors recognize that not all strategies work in all markets Despite differences from country to country this text shares sound principles that when implemented should enhance an existing system and help to improve patient outcomes
