Practicing Enlightenment Hume And The Formation Of A Literary Career:

Practicing Enlightenment Jerome Christensen,1987 *Practicing Enlightenment* Jerome Christensen,1987-01-01

Theory and Practice in the Philosophy of David Hume James Wiley,2012-07-31 An original interpretation of Hume's philosophy as centered on the relationship between theory and practice The author argues that Hume's Essays and History represent a humanist practical philosophy derived from the speculative philosophy of A Treatise of Human Nature and the Enquiries

The Testimony of Sense Tim Milnes,2019-07-04 The Testimony of Sense attempts to answer a neglected but important question what became of epistemology in the late eighteenth century in the period between Hume's scepticism and Romantic idealism It finds that two factors in particular reshaped the nature of empiricism the socialisation of experience by Scottish Enlightenment thinkers and the impact upon philosophical discourse of the belletrism of periodical culture The book aims to correct the still widely held assumption that Hume effectively silenced epistemological inquiry in Britain for over half a century Instead it argues that Hume encouraged the abandonment of subject centred reason in favour of models of rationality based upon the performance of trusting actions within society Of particular interest here is the way in which after Hume fundamental ideas like the self truth and meaning are conceived less in terms of introspection correspondence and reference and more in terms of community coherence and communication By tracing the idea of intersubjectivity through the issues of trust testimony virtue and language the study offers new perspectives on the relationships between philosophy and literature empiricism and transcendentalism and Enlightenment and Romanticism As philosophy grew more conversational the familiar essay became a powerful metaphor for new forms of communication The book explores what is epistemologically at stake in the familiar essay genre as it develops through the writings of Joseph Addison David Hume Samuel Johnson Charles Lamb and William Hazlitt It also offers readings of philosophical texts such as Hume's Treatise Thomas Reid's Inquiry and Adam Smith's Theory of Moral Sentiments as literary performances

Reflecting Subjects Jacqueline Taylor,2015-01-15 Jacqueline Taylor offers an original reconstruction of Hume's social theory which examines the passions and imagination in relation to institutions such as government and the economy Reflecting Subjects begins with a close

examination of Hume's use of an experimental method to explain the origin nature and effects of pride an indirect passion that reflects a person's sense of self worth in virtue of her valuable qualities for example her character or wealth In explaining the origin of pride in terms of efficient causes Hume displaces the traditional appeal to final causes and is positioned to give an account of the significance for us of the passions in terms of a social theory Subsequent chapters reconstruct this social theory looking in particular at how the principle of sympathy functions to transmit cultural meanings and values before examining Hume's account of social power especially with regard to rank and sex Turning to Hume's system of ethics Taylor argues for the importance of Hume's more sophisticated moral philosophy in his Enquiry concerning the Principles of Morals since it emphasizes certain virtues of good moral evaluation She demonstrates that the principle of humanity stands as the central concept of Hume's Enlightenment philosophy

Fictions of Reality in the Age of Hume and Johnson Leopold Damrosch, 1989 During the second half of the eighteenth century the most powerful literary work in Britain was nonfictional philosophy history biography and political controversy Leo Damrosch argues that this tendency is no accident at the beginning of the modern age writers were consciously aware of the role of cultural fictions and they sought to ground those fictions in a real world beyond the text Their political conservatism often neglected by modern scholars was an extensively thought out response to a world in which meaning was inseparable from consensus and in which consensus was increasingly under attack Damrosch finds strong affinities between writers who are usually described as antagonists The first chapter places Hume and Johnson in dialogue showing that their responses to the challenge of their age have deep similarities and that their thinking points forward in significant ways to twentieth century pragmatism Subsequent chapters explore the interrelationship of the fictive and the real in a wide range of works by Boswell Gibbon White Burke and Godwin In its combination of literary philosophical and cultural criticism this book will appeal to scholars in many fields as well as to nonacademic readers interested in intellectual history
