Practicing New Historicism:

Practicing New Historicism Catherine Gallagher, Stephen Greenblatt, 2001-09 Two literary scholars focus on five central aspects of the literary critical theory recurrent use of anecdotes preoccupation with the nature of representations fascination with the history of the body sharp focus on neglected details and skeptical analysis of ideology **Greenblatt's New Historicism. A Viable Theory?** Sebastian Languer, 2014-10-01 Seminar paper from the year 2011 in the subject Literature Comparative Literature grade 1 0 University of Constance course Kulturkontakte Theorien in den Geschichts und Literaturwissenschaften language English abstract By the 1990s New Historicism and its main progenitor Stephen Greenblatt rose to the attention of scholars worldwide and it is now a widely accepted theory If one can speak of a theory since New Historicism has often been accused of lacking a distinct theoretical program However this did not remain the sole critical reproach New Historicism had to deal with As with many a radically new idea the approach provoked discontent as well Inaccuracy and armchair historicism were among the accusations New Historicism had to cope with Nevertheless its popularity increased and it is well nigh impossible to imagine literary studies today without it Despite its importance and popularity the New Historicism has to this day successfully refused to be thoroughly theorized and classified to be forced into a strict set of rules It therefore remains a difficult task to label anything truly New Historicist as even New Historicists themselves are reluctant to give a subsumable definition of the concept The principal question of this thesis Is New Historicism a viable theory after all Despite the international acclaim it has earned does it keep its promises Has it revolutionized modern literary studies Historicizing Theory Peter C. Herman, 2003-12-04 Examines deconstruction New Historicism postcolonialism and other contemporary theoretical movements in their historical contexts Narrating the Past A. Robinson, 2011-10-04 In recent years controversy has surrounded the narrative turn in history and the historical turn in fiction This book clarifies what is at stake tracing connections between historiography and life writing arguing that the challenges posed in representing the past illuminate issues which are central to all literary narrative The Arden Research Handbook of Contemporary Shakespeare Criticism Evelyn Gajowski, 2020-10-15 The Arden Research Handbook of Contemporary Shakespeare Criticism is a wide ranging authoritative guide to research on critical approaches to Shakespeare by an international team of leading scholars It contains chapters on 20 specific critical practices each grounded in analysis of a Shakespeare play These practices range from foundational approaches including character studies close reading and genre studies through those that emerged in the 1970s and 1980s that challenged the preconceptions on which traditional liberal humanism is based including feminism cultural materialism and new historicism Perspectives drawn from postcolonial gueer studies and critical race studies besides more recent critical practices including presentism ecofeminism and cognitive ethology all receive detailed treatment In addition to its coverage of distinct critical approaches the handbook contains various sections that provide non specialists with practical help an A Z glossary of key terms and concepts a chronology of

major publications and events an introduction to resources for study of the field and a substantial annotated bibliography

Shakespeare and Historical Formalism Stephen Cohen, 2016-04-01 Located at the intersection of new historicism and the new formalism historical formalism is one of the most rapidly growing and important movements in early modern studies taking seriously the theoretical issues raised by both history and form it challenges the anti formalist orthodoxies of new historicism and expands the scope of historicist criticism Shakespeare and Historical Formalism is the first volume devoted exclusively to collecting and assessing work of this kind With essays on a broad range of Shakespeare's works and engaging topics from performance theory to the emergence of the literary and from historiography to pedagogy the volume demonstrates the value of historical formalism for Shakespeare studies and for literary criticism as a whole Shakespeare and Historical Formalism begins with an introduction that describes the nature and potential of historical formalism and traces its roots in early modern literary theory and its troubled relationship with new historicism The volume is then divided into two sections corresponding to the two chief objectives of historical formalism a historically informed and politically astute formalism and a historicist criticism revitalized by attention to issues of form The first section Historicizing Form explores from a variety of perspectives the historical and political sources meanings and functions of Shakespeare's dramatic forms The second section Re Forming History uses questions of form to rethink our understanding of historicism and of history itself and in doing so challenges some of our fundamental literary critical pedagogical and epistemological assumptions Concluding with suggestions for further reading on historical formalism and related work Shakespeare and Historical Formalism invites scholars to rethink the familiar categories and principles of formal and historical criticism Swimming the Christian Atlantic (2 vols) Jonathan Schorsch, 2009-09-30 Scholarship on the formation of the Atlantic world through contributions from Europe Africa and the Americas has grown in recent decades The results offer new understandings of the transformations in ethnic and religious identity faced by peoples from all the surrounding continents Long used by scholars of Jewish studies records from the Spanish and Portuguese Inquisitions have become an important source for historians of Africans and Amerindians in the Iberian colonial orbit Using these and other materials this book explores race religion and politics among three newly and incompletely Christianized groups in the seventeenth century Judeoconversos Afroiberians and Amerindians This fresh cross cultural analysis brings these differing trajectories into dialogue **Pleasure in Profit** Laura Moretti, 2020-12-22 In the seventeenth century Japanese popular prose flourished as waves of newly literate readers gained access to the printed word Commercial publishers released vast numbers of titles in response to readers hunger for books that promised them potent knowledge However traditional literary histories of this period position the writings of Ihara Saikaku at center stage largely neglecting the breadth of popular prose In the first comprehensive study of the birth of Japanese commercial publishing Laura Moretti investigates the vibrant world of vernacular popular literature She marshals new data on the magnitude of the seventeenth century publishing business and highlights the diversity and porosity of its

publishing genres Moretti explores how booksellers sparked interest among readers across the spectrum of literacies and demonstrates how they tantalized consumers with vital ethical religious societal and interpersonal knowledge She recasts books as tools for knowledge making arguing that popular prose engaged its audience cognitively as well as aesthetically and emotionally to satisfy a burgeoning curiosity about the world Crucially Moretti shows readers experienced entertainment within the didactic finding pleasure in the profit gained from acquiring knowledge by interacting with transformative literature Drawing on a rich variety of archival materials to present a vivid portrait of seventeenth century Japanese publishing Pleasure in Profit also speaks to broader conversations about the category of the literary by offering a new view of popular prose that celebrates plurality Literature: An Introduction to Theory and Analysis Mads Rosendahl Thomsen, Lasse Horne Kjældgaard, Lis Møller, Lilian Munk Rösing, Peter Simonsen, Dan Ringgaard, 2017-03-09 How does literature work And what does it mean How does it relate to the world to politics to history to the environment How do we analyse and interpret a literary text paying attention to its specific poetic and fictitious qualities. This wide ranging introduction helps students to explore these and many other essential questions in the study of literature criticism and theory In a series of introductory chapters leading international scholars present the fundamental topics of literary studies through conceptual definitions as well as interpretative readings of works familiar from a range of world literary traditions In an easy to navigate format Literature An Introduction to Theory and Analysis covers such topics as Key definitions from plot character and style to genre trope and author Literature's relationship to the surrounding world ethics politics gender and nature Modes of literature and criticism from books to performance from creative to critical writing With annotated reading guides throughout and a glossary of major critical schools to help students when studying revising and writing essays this is an essential introduction and reference guide to the study of literature at all levels The companion website to the book litdh au dk focuses on digital humanities and literary studies For each topic in the book you will find an introduction to computational aspects of the topic approaches for both newcomers and advanced users and references to tools scripts and articles The website also has a comprehensive and well structured reference page Passionate Playgoing in Early Modern England Allison P. Hobgood, 2014-01-23 Passionate Playgoing in Early Modern England examines the emotional effect of stage performance on the minds of the early modern theatre audience A Handbook of Anglo-Saxon Studies Jacqueline Stodnick, Renée Trilling, 2012-08-08 Reflecting the profound impact of critical theory on the study of the humanities this collection of original essays examines the texts and artifacts of the Anglo Saxon period through key theoretical terms such as ethnicity and gender Explores the interplay between critical theory and Anglo Saxon studies Theoretical framework will appeal to specialist scholars as well as those new to the field Includes an afterword on the value of the dialogue between Anglo Saxon studies and critical theory The sense of early modern writing Mark Robson, 2018-09-30 In The sense of Early Modern writing Mark Robson pursues the relation between the concept of the early modern and modernity tracing the

complex interactions of post Romantic philosophical aesthetics and early modern rhetoric and poetics The book therefore questions the status of what we now think of as literary texts in a period prior to the emergence of literature as a category In this way Robson argues for an attention to the classical notion of aisthesis that is for the crucial dimension of perception and response in reading and thinking and its rhetorical determination to be taken into account Robson's theoretically informed approach drawing in particular on the work of Jacques Derrida and Paul de Man fundamentally challenges the idea that critical theory is of little relevance in the reading of early modern texts The sense of Early Modern writing includes readings of both familiar and unfamiliar texts by Shakespeare Sidney Jonson Hester Pulter and others and considers topics such as ears eyes tongues hands and voices in order to ask How should we read early modern texts The book will therefore be of interest to all students and researchers in early modern or Renaissance studies as well as to those thinking through the theories and histories of literature aesthetics and rhetoric Speaking With the Dead Jurgen Pieters, 2019-08-06 This book deals with the special power of literary texts to put us in contact with the past A large number of authors coming from different ages have described this power in terms of the conversation with the dead when we read these texts we somehow find ourselves conducting a special kind of dialogue with dead authors. The book covers a number of texts and authors that make use of this metaphor Petrarch Machiavelli Sidney Flaubert Michelet Barthes In connecting these texts and authors in novel ways Jurgen Pieters tackles the all important question of why we remain fascinated with literature in general and with the specific texts that to us are still its backbone Siituated in the aftermath of New Historicism the book challenges the idea that literary history as a reading practice stems from a desire to speak with the dead Key Features Offers a broad survey a combination of classical literature Renaissance literature and modern theory and history Issues a plea for the importance of reading literary texts and the power of literature Discusses key figues from the Western canon Homer Virgil Dante Machiavelli in light of the idea that we can learn from the past by talking to the dead Combines theoretical discussions of the relationsip between literature and history with close reading of works by major literary authors and historians **Modernity** James Dorson, Florian Sedlmeier, Mary Ann Snyder-Körber, Birte Wege, 2020-12-16 Modernity is made and unmade by the anecdotal Conceived as a literary genre a narrative element of criticism and most crucially a mode of historiography the anecdote illuminates the convergences as well as the fault lines cutting across modern practices of knowledge production The volume explores uses of the anecdotal in exemplary case studies from the threshold of the early modern to the present

Melville and the Question of Meaning David Faflik,2018-01-17 This rich volume of essays restores meaning itself as the focal point of one of our most thoughtful modern writers Herman Melville Melville and the Question of Meaning thinks about thinking in Melville For if Melville's concerns with interpretation the contributors to one recent collection variously read the author for the meaning of the characters the meaning of the body recesses of meaning deepest levels of meaning double meaning and the meaning of being and everything else overlap with our own concerns at a cultural moment when meaning

feels especially strained we have lost sight of the central place of meaning making in Melville's work My own readings in Melville are a pedestrian s guide through the self conscious complications of meaning we meet with in Melville across a range of different disciplines and endeavors Combining aesthetics and sociolinquistics history and theory rhetoric and politics philosophy and film studies Melville and the Question of Meaning demonstrates that the project of making meaning in Melville remains as vital as ever What is Literature? Mark Robson, 2020-02-11 An essential guide to understanding literary theory and criticism in the European tradition What is Literature A Critical Anthology explores the most fundamental question in literary studies What is literature is the name of a problem that emerges with the idea of literature in European modernity This volume offers a cross section of modern literary theory and reflects on the history of thinking about literature as a specific form What is Literature reveals how ideas of the literary draw on the foundations of Western thought in ancient Greece and Rome charting the emergence of modern literature in the eighteenth century and including selections from the present state of the art The anthology includes the work of leading writers and critics of the last two thousand years including Plato Henry James Virginia Woolf Edward Said Gayatri Chakravorty Spivak Jacques Ranci re and many others The book is an insightful examination of the nature of literature its meanings and values functions and forms provocations and mysteries What is Literature brings together in one volume influential and intriguing essays that show our enduring fascination with the idea of literature This important guide Contains a broad selection of the most significant texts on the topic of literature Includes leading writers from ancient times to the most recent thinkers on literature and criticism Encourages readers to reflect on the varied meanings of literature What is Literature A Critical Anthology is a unique collection of texts that will appeal to every student and scholar of literature and literary criticism in the European tradition

The Wiley Blackwell Companion to Ancient Israel Susan Niditch,2016-01-26 The Companion to Ancient Israel offers an innovative overview of ancient Israelite culture and history richly informed by a variety of approaches and fields Distinguished scholars provide original contributions that explore the tradition in all its complexity multiplicity and diversity A methodologically sophisticated overview of ancient Israelite culture that provides insights into political and social history culture and methodology Explores what we can say about the cultures and history of the people of Israel and Judah but also investigates how we know what we know Presents fresh insights richly informed by a variety of approaches and fields Delves into religion as lived an approach that asks about the everyday lives of ordinary people and the material cultures that they construct and experience Each essay is an original contribution to the subject Literature as History Simon Barker, Jo Gill, 2010-01-26 New essays by a range of leading theorists on the interdisciplinary study of literature and history Novel horizons Gerd Bayer, 2016-07-15 Novel horizons analyses how narrative prose fiction developed during the English Restoration It argues that after 1660 generic changes within dramatic texts occasioned an intense debate within prologues and introductions This discussion about the poetics of a genre was echoed in the paratextual material of prose fictions In the

absence of an official poetics that defined prose fiction paratexts fulfilled this function and informed readers about the budding genre This study traces the piecemeal development of these boundaries and describes the generic competence of readers through the analysis of paratexts and prose fictions Novel horizons covers the surviving textual material widely focusing on narrative prose fictions published between 1660 and 1710 In addition to tracing the paratextual poetics of Restoration fiction this book also covers the state of the art of fiction writing during the period discussing character development narrative point of view and questions of fictionality and realism Emulation on the Shakespearean Stage Vernon Guy Dickson, 2017-03-02 The English Renaissance has long been considered a period with a particular focus on imitation however much related scholarship has misunderstood or simply marginalized the significance of emulative practices and theories in the period This work uses the interactions of a range of English Renaissance plays with ancient and Renaissance rhetorics to analyze the conflicted uses of emulation in the period including the theory and praxis of rhetorical imitatio humanist notions of exemplarity and the stage's purported ability to move spectators to emulate depicted characters This book emphasizes the need to see emulation not as a solely or even primarily literary practice but rather as a significant aspect of Renaissance culture giving insight into notions of self society and the epistemologies of the period and informed by the period s own sense of theory and history Among the individual texts examined here are Shakespeare s Titus Andronicus and Hamlet Jonson's Catiline and Massinger's The Roman Actor with its strong relation to Jonson's Sejanus
