both inside the church and beyond it *Faith in Black Power* Kerry Pimblott,2017-01-20 In 1969 nineteen year old Robert Hunt was found dead in the Cairo Illinois police station The white authorities ruled the death a suicide but many members of the African American community believed that Hunt had been murdered a sentiment that sparked rebellions and protests across the city Cairo suddenly emerged as an important battleground for black survival in America and became a focus for many civil rights groups including the NAACP The United Front a black power organization founded and led by Reverend Charles Koen also mobilized thanks in large part to the support of local Christian congregations In this vital reassessment of the impact of religion on the black power movement Kerry Pimblott presents a nuanced discussion of the ways in which black churches supported and shaped the United Front She deftly challenges conventional narratives of the de Christianization of the movement revealing that Cairoites embraced both old time religion and revolutionary thought Not only did the faithful fund the mass direct action strategies of the United Front but activists also engaged the literature on black theology invited theologians to speak at their rallies and sent potential leaders to train at seminaries Pimblott also investigates the impact of female leaders on the organization and their influence on young activists offering new perspectives on the hypermasculine image of black power Based on extensive primary research this groundbreaking book contributes to and complicates the history of the black freedom struggle in America It not only adds a new element to the study of African American religion but also illuminates the relationship between black churches and black politics during this tumultuous era *The Motif of Hope in African American Preaching during Slavery and the Post-Civil War Era* Wayne E. Reddie,2019-06-03 This book offers a comprehensive analysis of the theological challenge presented by the new post Brexit epoch The referendum vote for Britain to leave the European Union has led to a seismic shift in the ways in which parts of the British population view and judge their compatriots The subsequent rise in the reported number of racially motivated incidents and the climate of vilification and negativity directed at anyone not viewed as authentically British should be a matter of concern for all people The book is comprised of a series of essays that address varying aspects of what it means to be British and the ways in which churches in Britain and the Christian faith could and should respond to a rising tide of White English nationalism It is a provocative challenge to the all too often tolerated xenophobia as well as the paucity of response from many church leaders in the UK This critique is offered via the means of a prophetic postcolonial model of Black theology that challenges the incipient sense of White entitlement and parochial nativism that pervaded much of the referendum debate The essays in this book challenge the church and wider society to ensure justice and equity for all not just a privileged sense of entitlement for some It will be of keen interest to any scholar of Black political and liberation theology as well as those involved in cultural studies from a postcolonial perspective **From Rights to Lives** Françoise N.

Hamlin,Charles W. McKinney,2024-03-15 Broadly speaking the traditionally conceptualized mid twentieth century Civil Rights Movement and the newer BlackLivesMatter Movement possess some similar qualities They both represent dynamic complex moments of possibility and progress They also share mass based movement activities policy legislative advocacy grassroots organizing and targeted media campaigns Innovation growth and dissension core aspects of movement work mark them both Crucially these moments also engender aggressive repressive multilevel responses to these assertions of Black humanity From Rights to Lives critically engages the dynamic relationship between these two moments of liberatory possibility on the Black Freedom Struggle timeline The book s contributors explore what we can learn when we place these moments of struggle in dialogue with each other They grapple with how our understanding of the postwar moment shapes our analysis of BLM and wherein lie the discontinuities in order to glean lessons for future moments of insurgency **The**

Forged in the Fiery Furnace Diana L. Hayes, 2012 African American spirituality was forged in the fiery furnace of slavery segregation and ongoing racial discrimination in both church and society But African Americans are a people who are strengthened rather than weakened by their experience This volume traces how African Americans have articulated their faith and love of God in language song and daily living Beginning with its spiritual roots in Africa Hayes shows how African American spirituality encompassed and incorporated the experience of slavery and the encounter with Christianity Remarkably African American slaves were able to find in the religion of their oppressors a message of hope affirmation and resistance Through stories song distinctive forms of prayer celebration and prophetic witness Hayes shows how the spirituality of African Americans has nurtured their survival as well as promoting action on behalf of the community and the greater society
