Richard J. Bernstein and the Expansion of American Philosophy Marcia Morgan, Megan Craig, 2016-12-24 Thinking The Plural Richard J Bernstein and the Expansion of American Philosophy is a text devoted to highlighting scrutinizing and deploying Bernstein s philosophical research as it has intersected and impacted American and European philosophy Collecting essays written explicitly for the volume from former students of Bernstein s the book shows the breadth and scope of his work while expanding key insights into new contexts and testing his work against thinkers outside the canon of his own scholarship In light of urgent contemporary ethical and political problems the papers collected here show the continuing relevance of Bernstein s lifelong focus on democracy dialogue pragmatism fallibilism and pluralism Bernstein has always contested the supposed Analytic Continental divide insisting on the pluralism of philosophical discourses and styles that contribute to genuine debate and save philosophy from stale academicism This book enacts Bernstein s pluralistic spirit by crossing traditions and generating new avenues for ongoing research A central argument of the book is that thinkers of different backgrounds using diverse and even clashing methodologies contribute to the understanding of a given problem issue or theme This argument lies at the heart of Bernstein s published works and is central to the fallibilistic pragmatism of his pedagogy This book therefore does not rest on a single answer to a question or a univocal theme but shows the differentiation of Bernstein s scholarship through the extension of pluralism into territory Bernstein himself did not enter The chapters individually and collectively demonstrate the force of Bernstein s pluralism beyond mere commentary on his works This book will be of interest to many people 1 scholars students and others in American philosophy who have worked on or with Richard J Bernstein or in the tradition of American Pragmatism widely construed 2 those interested in the intersections between American and European philosophy or between the Analytic and Continental traditions 3 professional philosophers philosophy students and public intellectuals concerned with the application of theory to contemporary ethical and political problems and 4 those interested in an introduction to the key concepts animating Bernstein s work and their relationship to the history of philosophy

Deliberative Theory and Deconstruction Gormley Steven Gormley,2020-06-18 Our political climate is increasingly characterised by hostility towards constructed others Steven Gormley answers the question what does it mean to do justice to others He pursues this question by developing a critical but productive dialogue between deliberative theory and deconstruction Two key claims emerge from this First doing justice to the other demands that we maintain an ethos of interruption And secondly Such an ethos requires a democratic form of politics In developing this account Gormley places deliberative theory and deconstruction into critical conversation with the work of Mouffe Aristotle Rorty Laclau and different traditions of critical theory

Habermas and Religion Craig Calhoun,Eduardo Mendieta,Jonathan VanAntwerpen,2016-03-18 To the surprise of many readers Jürgen Habermas has recently made religion a major theme of his work Emphasizing both religion s prominence in the contemporary public sphere and its potential contributions to critical

thought Habermas's engagement with religion has been controversial and exciting putting much of his own work in fresh perspective and engaging key themes in philosophy politics and social theory Habermas argues that the once widely accepted hypothesis of progressive secularization fails to account for the multiple trajectories of modernization in the contemporary world He calls attention to the contemporary significance of postmetaphysical thought and postsecular consciousness even in Western societies that have embraced a rationalistic understanding of public reason Habermas and Religion presents a series of original and sustained engagements with Habermas's writing on religion in the public sphere featuring new work and critical reflections from leading philosophers social and political theorists and anthropologists Contributors to the volume respond both to Habermas's ambitious and well developed philosophical project and to his most recent work on religion The book closes with an extended response from Habermas itself a major statement from one of today's most important thinkers

Humanism, Anti-Authoritarianism, and Literary Aesthetics Ulf Schulenberg, 2023-08-10 Presenting pragmatist humanism as a form of anti authoritarianism this book sheds light on the contemporary significance of pragmatist aesthetics and the revival of humanism This interdisciplinary study shows that a mediation between pragmatist aesthetics which emphasizes the significance of creating making and inventing and Marxist materialist aesthetics which values form promises interesting results and that the former can learn from the latter In doing so Ulf Schulenberg discusses 3 layers of the multi layered phenomenon that is the revival of humanism He first explains the potential of a pragmatist humanism clarifying the contemporary significance of humanism He then argues that pragmatist humanism is a form of anti authoritarianism Finally he shows the possibility of bringing together the resurgence of humanism and a renewed interest in the work of aesthetic form by arguing that pragmatist aesthetics needs a more complex conception of form Establishing a transatlantic theoretical dialogue Humanism Anti Authoritarianism and Literary Aesthetics brings together literary and aesthetic theory philosophy and intellectual history It discusses a broad range of authors from Emerson Whitman James Nietzsche Proust and Dewey to Wittgenstein Lukács Adorno Jameson Latour and Rorty to illuminate how humanism pragmatism and anti authoritarianism are interlinked

Secular Cosmopolitanism, Hospitality, and

Religious Pluralism Andrew Fiala, 2016-10-04 This book explores the idea of religious pluralism while defending the norms of secular cosmopolitanism which include liberty tolerance civility and hospitality The secular cosmopolitan ideal requires us to be more tolerant and more hospitable toward religious believers and non believers from diverse traditions in our religiously pluralistic world Some have argued that the world s religions can be united around a common core This book argues that it is both impossible and inadvisable either to reduce religion to one thing or to deny religion Instead the book affirms non reductive pluralism and seeks to understand how we should live in a pluralistic world Building on work in the sociology of religion and philosophy of religion the book examines the growth of religious diversity and the spread of nonreligion in the contemporary world It argues that religious toleration hospitality and compassion must be extended in a global direction Secular cosmopolitanism recognizes that each person has a right to his or her deepest beliefs and that the diversity of the world s religious and non religious traditions cannot be reduced or eliminated **Literature and Religious**

Experience Matthew J. Smith, Caleb D. Spencer, 2022-01-13 This book challenges the status quo of studies in literature and religion by returning to experience as a bridge between theory and practice Essays focus on keywords of religious experience and demonstrate their applications in drama fiction and poetry Each chapter explores the broad significance of its keyword as a category of psychological and social behavior and tracks its unique articulation by individual authors including Conrad Beecher Stowe and Melville Together the chapters construct a critical foundation for studying literature not only from the perspectives of theology and historicism but from the ways that literary experience reflects reinforces and sometimes challenges religious experience Community and Loyalty in American Philosophy Steven A. Miller, 2018-04-17 American

pragmatism has always had at its heart a focus on questions of communities and ethics This book explores the interrelated work of three thinkers influenced by the pragmatist tradition Josiah Royce Wilfrid Sellars and Richard Rorty These thinkers work spanned the range of twentieth century philosophy both historically and conceptually but all had common concerns about how morality functions and what we can hope for in our interactions with others Steven Miller argues that Royce Sellars and Rorty form a traditional line of inheritance with the thought of each developing upon the best insights of the ones prior Furthermore he shows how three divergent views about the function possibilities and limits of moral community coalesce into a key narrative about how best we can work with and for other people as we strive to come to think of widely different others as somehow being morally considerable as one of us The Continuum Companion to Pragmatism Sami

Pihlström, 2011-06-30 The Continuum Companion to Pragmatism offers the definitive guide to a key area of contemporary philosophy The book covers all the fundamental questions asked by pragmatism areas that have continued to attract interest historically as well as topics that have emerged more recently as active areas of research Twelve specially commissioned essays from an international team of experts reveal where important work continues to be done in the area and most valuably the exciting new directions the field is taking The Companion explores issues pertaining to aesthetics economics education

The Rhetorical Surface of Democracy Scott Welsh, 2012-10-18 Citizens political theorists and politicians alike insist that political or partisan motives get in the way of real democracy Real democracy we are convinced is embodied by an ability to form collective judgments in the interest of the whole The Rhetorical Surface of Democracy How Deliberative Ideals Undermine Democratic Politics by Scott Welsh argues instead that it is our easy rejection of political motives individual interests and the rhetorical pursuit of power that poses the greatest danger to democracy Our rejection of politics understood as a rhetorical contest for power is dangerous because democracy ultimately rests upon the perceived public legitimacy of public political challenges to authority and the subsequent reconstitution of authority amid the impossibility of collective judgment Hence rather than searching for allegedly more authentic democracy rooted in the pursuit of ever illusive collective judgments we must find ways to come to terms with the persistence of rhetorical political contests for power as the essence of democracy itself Welsh argues that the impossibility of any kind of public judgment is the fact that democracy must face Given the impossibility of public judgment rhetorical competitions for political power are not merely poor substitutes for an allegedly more authentic democratic practice but constitute the essence of democracy itself The Rhetorical Surface of Democracy is an iconoclastic investigation of the democratic process and public discourse

Fictionality and Multimodal Narratives Torsa Ghosal, Alison Gibbons, 2023-08 Fictionality and Multimodal Narratives interrogates the multimodal relationship between fictionality and factuality The contemporary discussion about fictionality coincides with an increase in anxiety regarding the categories of fact and fiction in popular culture and global media Today's media saturated historical moment and political climate give a sense of urgency to the concept of fictionality distinct from fiction specifically in relation to modes and media of discourse Torsa Ghosal and Alison Gibbons explicitly interrogate the relationship of fictionality with multimodal strategies of narrative construction in the present media ecology Contributors consider the ways narrative structures their reception and their theoretical frameworks in narratology are influenced and changed by media composition particularly new media By accounting for the relationship of multimodal composition with the ontological complexity of narrative worlds Fictionality and Multimodal Narratives fills a critical gap in contemporary narratology the discipline that has to date contributed most to the conceptualization of fictionality

Rawls and Habermas Todd Hedrick, 2010-06-01 This book offers a comprehensive evaluation of the two preeminent post WWII political philosophers John Rawls and Jürgen Habermas Both men question how we can be free and autonomous under coercive law and how we might collectively use our reason to justify exercises of political power In pluralistic modern democracies citizens cannot be expected to agree about social norms on the basis of common allegiance to

comprehensive metaphysical or religious doctrines concerning persons or society and both philosophers thus engage fundamental questions about how a normatively binding framework for the public use of reason might be possible and justifiable Hedrick explores the notion of reasonableness underwriting Rawls's political liberalism and the theory of communicative rationality that sustains Habermas's procedural conception of the democratic constitutional state His book challenges the Rawlsianism prevalent in the Anglo American world today while defending Habermas's often poorly understood theory as a superior alternative *Conceiving Strangeness in British First World War Writing* C.

Buck,2015-04-03 This book reframes British First World War literature within Britain's history as an imperial nation Rereading canonical war writers Siegfried Sassoon and Edmund Blunden alongside war writing by Enid Bagnold E M Forster Mulk Raj Anand Roly Grimshaw and others the book makes clear that the Great War was more than a European war

Primal Philosophy Lucas Fain,2021-01-29 Primal Philosophy Rousseau with Laplanche presents the first comprehensive study of Rousseau's thought on the possibility of philosophy and the responsibility of the philosopher Through a close reading of texts from throughout Rousseau's entire corpus together with inspiration from Jean Laplanche's seminal work on the Freudian theory of seduction this book positions Rousseau within a contemporary debate involving Theodor Adorno and Alain Badiou on the fate of philosophy after Heidegger In confrontation with the radical subordination of ethics to ontology which is characteristic of Cartesian thought and its culmination in Heidegger's philosophical legacy the reading of Rousseau with Laplanche elaborates the rootedness of philosophy in a process of primal seduction which opens a way to rethink the meaning of a genuine first philosophy not as the study of being qua being in the tradition initiated by Aristotle but as primal philosophy the study of the genesis of philosophy itself The rootedness of philosophy in a process of primal seduction then reveals the primal responsibility of the philosopher a responsibility for human happiness found in the possibility of philosophy itself The Ethical Foundations of Postmodernity Nina Michaela von Dahlen,Nina Michaela Von Dahlen,2013-07

A return to ethics which began in the 1980s and 1990s and is still predominant today has been ascribed to literary studies and theory In this book theoretical issues within ethics are discussed based on the examples of literary analyses The authors examined are Margaret Atwood Jeffrey Eugenides and Robert M Pirsig The main questions concern the foundation on which ethical concepts are based and the way in which such concepts function These topics are evidently connected to matters of human concepts and human nature in general which are understood to be fundamentally communicative Contrary to popular conclusions of relativity the need for a realist foundation of ethics implying universal validity will be revealed It is not only possible but also necessary to develop such an idea of ethics within a postmodern relativist framework A communicative foundationalist ethics will thus be designed With regard to literature an increasing emergence of first person narrative can be witnessed in addition to a new focus on a realist and more mimetic style after a peak of pluralist conceptions at the end of the twentieth and the beginning of the twenty first centuries The analysis of such narrative situations will reveal the

significance of the narrative generation of individual personalities for an understanding of ethical questions The conflict between relativist and realist points of view centers on the postmodern critique of the individual The study of the literary generation of individuals will elucidate means of confronting this critique The theoretical background includes the poststructuralist and communicative concepts of Judith Butler and Seyla Benhabib as well as Ernst Tugendhat's analytical approach Nina von Dahlern studied English language and literature philosophy sociology and educational sciences at the Universities of Hamburg and Heidelberg This book is based on her Ph D thesis
