Praxis And Method A Sociological Dialogue With Lukacs Gramsci And The Early Frankfurt School:

Praxis and Method (RLE: Gramsci) Richard Kilminster, 2014-04-24 This sociological critique of the philosophy of praxis looks at the importance of the concept in the social theory of leading influential Western Marxists such as Lukacs Gramsci Korsch Horkheimer Marcuse and Adorno in the inter war period It offers a detailed critique of Marx and Hegel and explores the validity and implications for sociology of two of Marx's ideas which the later theorists made the centre piece of their social theory first that true theory is authenticated by praxis and second its corollary that certain major social transformations should and would in practice render sociology redundant

Social Theory Today Anthony Giddens, 1987 Social theory has undergone dramatic changes over the past fifteen years The aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought The contents of the book range in a systematic way across the major traditions of social theory prominent today Among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences Traditions of thought discussed include behaviourism symbolic interactionism Parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory Marxism and critical theory

Gramsci and the History of Dialectical Thought Maurice A. Finocchiaro, 2002-04-18 A critical reappraisal of Gramsci as a thinker and of the dialectical approach as a mode of inquiry

Antonio Gramsci Renate Holub, 2005-07-05 This book provides the first detailed account of Gramsci's work in the context of current critical and socio cultural debates Renate Holub argues that Gramsci was ahead of his time in offering a theory of art politics and cultural production Gramsci's achievement is discussed particularly in relation to the Frankfurt School Adorno Horkheimer Benjamin Bloch Habermas to Brecht's theoretical writings and to thinkers in the phenomenological tradition especially Merleau Ponty She argues for Gramsci's continuing relevance at a time of retreat from Marxist positions on the postmodern left Antonio Gramsci is distinguished by its range of philosophical grasp its depth of specialized historical scholarship and its keen sense of Gramsci's position as a crucial figure in the politics of contemporary cultural theory

Karl Marx and the Philosophy of Praxis Gavin Kitching, 2015-04-17 In this major study first published in 1988 Professor Kitching builds on recent scholarship on Marx and Wittgenstein to provide an incisive readable account and critique of the whole of Marx's work He presents the philosophical economic and political Marx as one thinker and argues that the key to understanding Marx is his commitment to a philosophy of praxis This sees thought as just part of that purposive activity or praxis which distinguishes human beings from other creatures This is the first book to analyse all of Marx's thought from a Wittgenstein perspective in doing so it clarifies and deepens our understanding of Marx

Marxism and Totality Martin Jay, 1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Lukacs Korsch Gramsci and Bloch through the second

exemplified by the Frankfurt School Lefebvre Goldmann Sartre Merleau Ponty and Della Volpe up to the most recent typified by Althusser Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive decentered longitudinal latitudinal normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism Gramsci's Democratic Theory Sue Golding, Susan R. Golding, 1992-01-01 An in depth study of Antonio Gramsci's prison notebooks Quaderni del carcere and his specific contributions to radical democratic theory The book encompasses English Italian and French debates on the subject as well as political and philosophical discussions concerning the limitations of liberal and socialist democratic theory Theory and Practice in the Study of Adult Education Barry P. Bright, 2018-11-12 Originally published in 1989 this book presents a variety of perspectives on the definition of knowledge and of adult education by leading authors and practitioners in the study of adult education in the UK and USA This collection of different and often contradictory views makes a detailed analysis of the epistemology and practice of adult education Three major views are reflected within the book all of which focus upon the role of the conventional disciplines as a theoretical basis for adult education curricula and professional practice Learning Opportunities for Adults Trevor Corner, 2012-10-12 Argues for the financial backing from governments and industry for adult education and will help adult and community educators draw comparisons between their own work and that of their colleagues in other developed countries **Critical Theory and Economics** Robin Maialeh, 2023-03-23 This book expands upon a range of economic insights within the overall context of critical theory particularly with respect to the question of socioeconomic inequalities and presents an explanation of how critical theory provides a number of interesting perspectives for economists Economic agents deliberately imprisoned in their instrumental rationality as a means to survive under competitive relationships are microscopic constituents of systemic forces which exist beyond their will Despite the subjective rationality of such agents in terms of formally logical transitivity and consistency aggregate market distributional mechanisms also display non rational patterns The crucial aspect of the dynamics of this system consists of the paralysing effect of the high level of socioeconomic inequality which is driven by a permanent struggle for self preservation under competitive rules it is a reminiscence of natural uncivilised relationships that constituted the reproduction process of the whole These reified agents thus become instruments of their socially constructed powers on the one hand and objects of their existential conditionality on the other Hence the dialectical approach adopted by the author aims to uncover the way in which structurally genetic market forces govern individual behaviour as well as how individual behaviour shapes these structurally genetic forces which together form the transcending principles of unequal distribution This book will be of particular interest to scholars of the political economy philosophy and the methodology of the social sciences especially those concerned with inequality issues This book includes a preface written by Professor Martin Jay A Tale of Two Theologians Ambrose Mong, 2017-03-31 In A Tale of Two

Theologians Ambrose Mong's observant new work he examines the writings of the Peruvian theologian Gustavo Gutierrez and the Indian theologian Michael Amaladoss and gives fresh attention to their main concerns regarding evangelisation and the poor. Why he asks is Gutierrez's liberation theology now accepted and celebrated by the Roman Catholic Church while Amaladoss's Asian theology with a liberation thrust is threatened with censorship. Mong argues that the dwindling threat of Communism has made the Marxist overtones of Latin American liberation theology more palatable to the Catholic hierarchy while the challenge of religious pluralism in Asia is as complex and emotive as ever. How can the Church learn to balance the need for dialogue between religions with their duty to proclaim the Gospel? How can the Church inculturate itself in Asia while maintaining its identity? Ambrose Mong tackles these questions with the shrewd, clear-eyed view of an active priest and scholar exploring the long, troubled relationship the Church has with liberation theology and offering guidance for the future.

Dysconscious Racism, Afrocentric Praxis, and Education for Human Freedom: Through the Years I Keep on Toiling Joyce E. King, 2015-04-10. A dynamic leader and visionary teacher-scholar, Joyce E. King has made important contributions to the knowledge base on preparing teachers for diversity, culturally connected teaching and learning, and inclusive, transformative leadership for change, often in creative partnership with communities. Dr. King is internationally recognized for her innovative interdisciplinary scholarship, teaching practice, and leadership. Her concept of dysconscious racism continues to influence research and practice in education and sociology in the U.S. and in other countries. This volume weaves together ten of her most influential writings and four invited reflections from prominent scholars on the major themes the work addresses. In the World Library of Educationalists, international scholars themselves compile career-long collections of what they judge to be their finest pieces: extracts from books, key articles, salient research findings, major theoretical and/or practical contributions, so the world can read them in a single, manageable volume. Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field. **A Brief**

First Published in 1980. Manfred S Frings translation of Problems of a Sociology of Knowledge makes available Max Scheler's important work in sociological theory to the English speaking world. The book presents the thinker's views on man's condition in the twentieth century and places it in a broader context of human history. This book highlights Scheler as a visionary thinker of great intellectual strength who defied the pessimism that many of his peers could not avoid. He comments on the isolated fragmented nature of man's existence in society in the twentieth century but suggests that a World Age of Adjustment is on the brink of existence. Scheler argues that the approaching era is a time for the disjointed society of the twentieth century to heal its fractures and a time for different forms of human knowledge to come together in global understanding. From Women's Experience to Feminist Theology Linda Hogan, 1995-01-01. What are the implications of adopting a primacy of praxis position in feminist theology? How can we respect the diversity of women's experience while retaining it as a useful analytic category? Do these twin resources of women's experience and praxis together imply that feminist theology is ultimately relativist? Through an analysis of the work of some of today's key feminist theologians Christian Womanist and post Christian the author considers these and other central methodological questions. This work examines the origins and development of the categories of women's experience and praxis and argues that the adoption of these resources ought to result in a hermeneutic of difference and a reluctance to claim a normative theory for feminist theology.
