Writing History with Lightning Matthew Christopher Hulbert, John C. Inscoe, 2019-02-05 Films possess virtually unlimited power for crafting broad interpretations of American history Nineteenth century America has proven especially conducive to Hollywood imaginations producing indelible images like the plight of Davy Crockett and the defenders of the Alamo Pickett s doomed charge at Gettysburg the proliferation and destruction of plantation slavery in the American South Custer s fateful decision to divide his forces at Little Big Horn and the onset of immigration and industrialization that saw Old World lifestyles and customs dissolve amid rapidly changing environments Balancing historical nuance with passion for cinematic narratives Writing History with Lightning confronts how movies about nineteenth century America influence the ways in which mass audiences remember understand and envision the nation s past In these twenty six essays divided by the editors into sections on topics like frontiers slavery the Civil War the Lost Cause and the West notable historians engage with films and the historical events they ostensibly depict Instead of just separating fact from fiction the essays contemplate the extent to which movies generate and promulgate collective memories of American history Along with new takes on familiar classics like Young Mr Lincoln and They Died with Their Boots On the volume covers several films released in recent years including The Revenant 12 Years a Slave The Birth of a Nation Free State of Jones and The Hateful Eight The authors address Hollywood epics like The Alamo and Amistad arguing that these movies flatten the historical record to promote nationalist visions The contributors also examine overlooked films like Hester Street and Daughters of the Dust considering their portraits of marginalized communities as transformative perspectives on American culture By surveying films about nineteenth century America Writing History with Lightning analyzes how movies create popular understandings of American history and why those interpretations change over time

Hollywood Goes to Washington Michael Coyne, 2008-09-30 Fantasy and politics are familiar dancing partners that rarely separate even in the face of post Election Day realities But Hollywood has a tradition of

punching holes in the fairy tales of electoral promises with films that meditate on what could have been and should have been With *Hollywood Goes to Washington* Michael Coyne investigates how the American political film unravels the labyrinthine entanglements of politics and the psyche of the American electorate in order to reveal brutal truths about the state of our democracy From conspiracy dramas such as *The Manchurian Candidate* to satires like *Wag the Dog* *Hollywood Goes to Washington* argues that political films in American cinema have long reflected the issues and tensions roiling within American society Coyne elucidates the mythology iconography and ideology embedded in both classic and lesser known films including *Gabriel Over the White House* *Silver City* *Advise and Consent* and *The Siege* and examines the cinematic portrayals of presidents in the White House the everyman American citizen and the nebulous enemies who threaten American democracy The author provocatively contends that whether addressing the threat of domestic fascism in *Citizen Kane* or the disillusionment of Vietnam and paranoia of the post Watergate era in *Executive Action* the American political film stands as an important cultural bellwether and democratic force one that is more vital than ever in the face of decreasing civil liberties in the present day United States Compelling and wholly original *Hollywood Goes to Washington* exposes the political power of the silver screen and its ramifications for contemporary American culture *The Handbook of Jamaica for ...* ,1919
