Preventing Heterosexism And Homophobia:

Preventing Heterosexism and Homophobia Esther D. Rothblum, Lynne A. Bond, 1996 Even in today's society gay men, lesbians, and bisexuals experience multiple pressures and constraints related to their chosen lifestyles in addition to the stresses of everyday life. This dual tension can result in psychopathology among gay men, lesbians, and bisexuals. Preventing Heterosexism and Homophobia examines the gay and lesbian experience in light of this tension and points toward a future free of heterosexism. The stress of coming out, the uncertainty of parenting their children, and the difficulties facing ethnic minority lesbians and bisexuals cannot be adequately addressed without confronting the heterosexual bias in society. The contributors to this informative volume propose methods geared to the elimination of the heterosexual bias in various settings: health care, therapy communities, corporate America, and education. Ultimately, this book examines both the risks and joys of being gay, lesbian, and bisexual and how to prevent heterosexism and its effects on the lives of all people, including those of heterosexuals. *Heterosexism in Health and Social Care* J. Fish, 2006-10-31 This interdisciplinary text develops a theory of heterosexism and provides everyday examples from health and social care environments. It engages with current debates, including intersecting identities, and presents a coherent analysis of the health and social care needs of lesbian, gay, bisexual, and transgender people. **The Oxford Handbook of Prevention in Counseling Psychology** Elizabeth Vera, 2012-10-18 The Oxford Handbook of Prevention in Counseling Psychology presents a lifespan approach to prevention that emphasizes strengths of individuals and communities, integrates multicultural and social justice perspectives, and includes best practices in the prevention of a variety of psychological problems in particular populations. **The Construction of Attitudes Toward Lesbians and Gay Men** Tracy Luchetta, Patricia L. Pardie, 2013-11-12 Discover new information and perspectives on why today's culture holds prejudice toward gay men and lesbians. The Construction of Attitudes Toward Lesbians and Gay Men explores the pervasiveness and widespread social acceptance of heterosexism in the United States by analyzing existing social and political systems for their representative beliefs. As a scholar or student of psychology, sociology, women's studies, gay/lesbian studies, or social work who is concerned with the need for positive change in attitudes toward same-sex relationships, this book is for you. You will learn more about current indicators of heterosexism and homonegativity at multiple levels of representation and better understand the cultural obstacles and openings for attitudinal transformation. In The Construction of Attitudes Toward Lesbians and Gay Men, empirical research, critical social analysis, theoretical development, and case study applications are used to investigate negative attitudes toward homosexuals. Some of the individual, social, and cultural prejudices that you will examine include HIV/AIDS stigma and HIV/AIDS knowledge, negative legal imagery of homosexuals portrayed by courts such as in the 1996 majority opinion in *Romer v. Evans*, the lack of civil rights for homosexuals, including laws forbidding homosexual marriage, homophobia in academia, based on institutional policies for spouse benefits, Judeo-Christian mythologies, stereotypical masculine and feminine images.

portrayed by the media sociocultural and historical origins of sexism The Construction of Attitudes Toward Lesbians and Gay Men is a critical investigation of representations of homonegativism in American culture You will gain a deeper understanding of individual identities and relational behaviors within today s dominant culture through an analysis of collective ideologies institutional policies and more The immense research and knowledge contained in this book provides you with a multifaceted view of current indicators of heterosexism and homonegativity and works to eliminate anti gay lesbian prejudice
