**Abstracts of reports of the Immigration Commission** United States. Immigration Commission (1907-1910), 1911 **Quality Assessment and Enhancement in Higher Education in Africa** Peter

Neema-Abooki, 2022-12-16 This book explores quality assessment and enhancement in higher education in Africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement. The book demonstrates that technological and socio-economic trends, innovations and inventions of the twenty-first century demand that additional attention be placed upon education for national, regional and international development. Since conventions for quality assessment and enhancement need to be defined and systematic structures constructed to develop quality practices, the book shows how quality in higher education within Africa has been established and advanced to provide a framework for monitoring, auditing and reviewing assessment and enhancement. Though the book considers African complexities and diversity, it incorporates global trends and utilises an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental Africa and beyond. Illustrating why quality assessment and enhancement should be embraced in all aspects including inputs, processes, outputs and outcomes in educational settings globally, this book will be of interest to policymakers and scholars in the fields of Higher Education Quality and Global Studies, African Education, African Studies and Management and Administration, Leadership and Professional Development Studies.

Skoglund, Judy Ness, 2011-06-16 This book is about moving from the conceptual to practical applications that impact the day to day teaching and learning processes. Skoglund and Ness give school leaders all the tools that are necessary to change the culture of a school, improve teacher performance and elevate student achievement. Each component of the process is clearly addressed. The authors provide critical documents such as an academic mission, core commitments, instructional calendars, common assessments, data charts, error analysis forms and meeting agendas. The Continuous Improvement System differs from other improvement efforts in that it views the school as an integrated whole and not a group of parts that are to be independently addressed. This common sense approach has been welcomed by administrators and teachers alike. **Rethinking Migration and Return in Southeastern Europe** Eda Gemi, Anna Triandafyllidou, 2021-05-27 This book provides an important new analytical framework for making sense of return remigration and circular mobility conceptualising them as different phases of a wider migration process Using an in depth case study of Albania and its two main destination countries Italy and Greece the book demonstrates that instead of being viewed as a linear path between origin and destination migration should be seen as a segmented or cyclical pattern that may involve several localities and more than two countries Characterised by important previous historical social economic and political linkages geographical proximity but also high migration volatility and sustained flows in either directions Albanian migration to Italy and Greece offers an optimal case study for analysing complex return reintegration and mobility processes While interesting as a unique regional migration system the lessons learned cast light on important migration and mobility dynamics that are relevant for labour migration in Europe also from other important migrant origin countries in the EU's neighbourhood such as for instance Morocco or the Ukraine This rich theoretical and empirical study will be of interest to researchers within European Studies and Migration Studies as well as providing a useful contribution to policy debates on how to govern return migration reintegration and circular migration The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780429344343> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
