Second Lives:

Moral Wisdom and Good Lives John Kekes, 2018-10-18 In this profound and yet accessible book John Kekes discusses moral wisdom a virtue essential to living a morally good and personally satisfying life He advances a broad nontechnical argument that considers the adversities inherent in the human condition and assists in the achievement of good lives The possession of moral wisdom Kekes asserts is a matter of degree more of it makes lives better less makes them worse Exactly what is moral wisdom however and how should it be sought Ancient Greek and medieval Christian philosophers were centrally concerned with it By contrast modern Western sensibility doubts the existence of a moral order in reality and because we doubt it and have developed no alternatives we have grown dubious about the traditional idea of wisdom Kekes returns to the classical Greek sources of Western philosophy to argue for the contemporary significance of moral wisdom He develops a proposal that is eudaimonistic secular anthropocentric pluralistic individualistic and agonistic He understands moral wisdom as focusing on the human effort to create many different forms of good lives Although the approach is Aristotelian the author concentrates on formulating and defending a contemporary moral ideal The importance of this ideal he shows lies in increasing our ability to cope with life's adversities by improving our judgment In chapters on moral imagination self knowledge and moral depth Kekes calls attention to aspects of our inner life that have been neglected because of our cultural inattention to moral wisdom He discusses these inner processes through the tragedies of Sophocles which can inspire us with their enduring moral significance and help us to understand the importance of moral wisdom to living a good life

Poems of Life Timothy Wilkins, 1908 **Aimer et mourir** Eilene Hoft-March, Judith Holland

Sarnecki, 2009-01-23 *Aimer et Mourir* offers a wide ranging selection of essays that collectively address how from the Middle Ages to the present the notions of love and death get inextricably associated with the narratives that are women's lives Some of the essays tackle male writers representations that link women and in particular women's sexuality with death resulting in the figures of the femme fatale the woman in parturition and the desiring vampire A number of essays reiterate that women's hyper sexualized bodies have been used as a social construct and a psychological screen upon which to project a fear of death The challenges to this pat reduction of woman's domain come from the mostly women writers represented here and they span from Marguerite de Navarre to Am lie Nothomb These women writers rework the old formulae giving us instead death defying memories of love love regenerative of language as of bodies love forcing the frontiers of death or love creatively redefined within the parameters of death Nor are these new narratives imagined as belonging to women alone but rather as attesting to a richer more varied and greatly sensitized human experience

Crime John Muncie, Deborah Talbot, Reece Walters, 2014-05-22 *Crime Local and Global* and its sister text *Criminal Justice Local and Global* are two new teaching texts that aim to equip the reader with a critical understanding of the globally contested nature of crime and justice Through an examination of key concepts and criminological approaches the books illuminate the different ways in which

crime is constructed conceived and controlled International case studies are used to demonstrate how crime and justice are historically and geographically located in terms of the global local context and how processes of criminalisation and punishment are mediated in contemporary societies Crime Local and Global covers the way local events such as prostitution have wider aspects than previously thought Links with people traffickers international organised crime and violence cannot be ignored any longer Each crime or area of activity selected within this text has a global reach and is made ever more possible due to the way globalisation has opened up markets both legitimate and illegitimate The book s approach and scope emphasises that we can no longer view crime as something which occurs within certain jurisdictions at certain times and in particular places For example the chapter on cybercrime highlights the illegal acts that can be perpetrated by second lifers anywhere in the world but are they a crime
