promoting the idea that we are all a separate self which is the chief source of our daily distress and dissatisfaction No more than a narrative of personhood pieced together from disparate neural activations the self we believe ourselves to be in our own minds although quite capable of being affirming inspiring and constructive often spews forth a distressing flow of worry and second guessing blaming and shaming regret and guilt This book offers an antidote to this epidemic of stolen identity isolation and self deprecation no self a concept known in Buddhist philosophy as anatta or anatman The No Self Help Book turns the idea of self improvement on its head arguing that the key to well being lies not in the relentless pursuit of bettering one s self but in the recognition of the self as a false identity born in the mind Rather than identifying with a small relative sense of self this book encourages you to embrace a liberating alternative an expansive awareness that is flexible and open to experiencing life as an ongoing and ever changing process without attachment to personal outcomes or storylines To help you make this leap from self to no self the book provides forty bite sized chapters full of clever and inspiring insights based in positive psychology and non duality a philosophy that asserts there is no real separation between any of us So if you re tired of self help and you re ready to explore who you are beyond the self let The No Self Help Book be your guide
