Walking Seasonal Roads Mary A. Hood, 2012-05-18 Seasonal roads are defined as one lane dirt roads not maintained during the winter They function as connectors linking farmers to their fields neighbors to neighbors or two more well traveled roads to each other Some access hunting lands and recreational areas Some pass by cemeteries allowing people to visit and honor their dead They can be abandoned as people move and towns fade In every incarnation the seasonal road touches the land in a gentler way than do other roads Having traveled nearly every seasonal road in Steuben County New York Hood finds they provide the ideal vantage to contemplate the meaning of place offering intimate contact with plant and wildlife and the beauty of a rural landscape Each road reveals how our land is used how our land is protected and how environmental factors have impacted the land As a literary naturalist Hood reflects on endangered species and invasive species as well as on issues of conservation and sustainability From state forests to potato fields from development along Keuka Lake to vineyards from old family cemeteries to logging sites *Walking Seasonal Roads* is a celebration and an honoring of the rural and the regionalism of place illustrating the ways we connect to our home and to each other

Scribner,2016-05-12 Throughout the twentieth century local control of school districts was one of the most contentious issues in American politics As state and federal regulation attempted to standardize public schools

conservatives defended local prerogative as a bulwark of democratic values Yet their commitment to those values was shifting and selective In *The Fight for Local Control* Campbell F Scribner demonstrates how in the decades after World War II suburban communities appropriated legacies of rural education to assert their political autonomy and in the process radically changed educational law Scribner's account unfolds on the metropolitan fringe where rapid suburbanization overlapped with the consolidation of thousands of small rural schools Rural residents initially clashed with their new neighbors but by the 1960s the groups had rallied to resist government oversight What began as residual opposition to school consolidation would transform into campaigns against race based busing unionized teachers tax equalization and secular curriculum In case after case suburban conservatives carved out new rights for local autonomy stifling equal educational opportunity Yet Scribner also provides insight into why many conservatives have since abandoned localism for policies that stress school choice and federal accountability In the 1970s as new battles arose over unions textbooks and taxes districts on the rural suburban fringe became the first to assert individual choice in the form of school vouchers religious exemptions and a marketplace model of education At the same time they began to embrace tax limitation and standardized testing policies that checked educational bureaucracy but bypassed local school boards The effect Scribner concludes has been to reinforce inequalities between districts while weakening participatory government within them keeping the worst aspects of local control in place while forfeiting its virtues
