Teaching a Dark Chapter Daniela R. P. Weiner, 2024-07-15 *Teaching a Dark Chapter* explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as *Teaching a Dark Chapter* demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values *Teaching a Dark Chapter* weds the historical study

of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them **Circular - Office of Education** United States. Office of Education, 1964
