

SECRET ARMIES

JAMES ADAMS, defense correspondent of *The Sunday Times* (London) and a leading authority on covert warfare and terrorism, details the inside story of the U.S., Soviet, and British special forces—their secret armies. Delta Force and the secret intelligence-gathering unit ISA in the U.S., SAS in Great Britain, and the terrifying and highly accomplished Spetsnaz in the Soviet Union are all in the same business. Their aim is to continually press for political or territorial advantage in the shadow of a war too terrible to contemplate. Indeed, these special forces are the cutting edge in today's wars, and they play an increasingly prominent part in the planning of future strategy.

Secret Armies is the first account of the development of these covert forces whose training, methods, and operations are by definition kept hidden from public scrutiny. Much of this information is drawn from previously secret documents and intelligence files and published here for the first time. For example:

Spetsnaz—a detailed look at the structure, training, and targets of the extremely successful Soviet special forces.

Czechoslovakia—the Spetsnaz infiltration prior to the massive Soviet invasion in 1968 along with Spetsnaz's comprehensive campaign of assassination and sabotage in cooperation with the KGB.

Afghanistan—the story of the covert war told in detail for the first time. James Adams draws on formerly classified material in the intelligence files of Western agencies.

Delta Force—the structure, training, and operations of this super-secret organization based at Fort Bragg. *Secret Armies* reveals previously unpublished material on missions such as the abortive rescue of American hostages in Iran and the rescue of hostages in Bangkok and Venezuela.

Intelligence Support Activity—ISA was formed after the Iranian rescue mission, to gather intelligence for covert military operations. It operated without Congressional authority and was thought to have been disbanded. In fact, Adams details, it has operated in Lebanon, Central America, and Europe.

Secret Armies:

NATO's Secret Armies Daniele Ganser, 2005-06-21 This fascinating new study shows how the CIA and the British secret service in collaboration with the military alliance NATO and European military secret services set up a network of clandestine anti communist armies in Western Europe after World War II These secret soldiers were trained on remote islands in the Mediterranean and in unorthodox warfare centres in England and in the United States by the Green Berets and SAS Special Forces The network was armed with explosives machine guns and high tech communication equipment hidden in underground bunkers and secret arms caches in forests and mountain meadows In some countries the secret army linked up with right wing terrorist who in a secret war engaged in political manipulation harassment of left wing parties massacres coup d tats and torture Codenamed Gladio the sword the Italian secret army was exposed in 1990 by Italian Prime Minister Giulio Andreotti to the Italian Senate whereupon the press spoke of The best kept and most damaging political military secret since World War II Observer 18 November 1990 and observed that The story seems straight from the pages of a political thriller The Times November 19 1990 Ever since so called stay behind armies of NATO have also been discovered in France Spain Portugal Germany Belgium the Netherlands Luxemburg Denmark Norway Sweden Finland Switzerland Austria Greece and Turkey They were internationally coordinated by the Pentagon and NATO and had their last known meeting in the NATO linked Allied Clandestine Committee ACC in Brussels in October 1990 *God's Secret Armies* Joseph Johnston, 1956

Hidden Armies of the Second World War Patrick G. Zander, 2017-10-03 Even though much of Europe eventually succumbed to the Nazis during World War II many Europeans defiantly resisted occupation in every way possible This captivating book provides a survey of these resistance movements during the period of Axis occupation and recounts the ways in which unarmed citizens undermined Nazi efforts at domination A thorough description of the Axis conquest of Europe the formation of the Special Operations Executive in Britain and the Office of Strategic Services in the United States provides a backdrop for this turbulent time in history Chapters cover the resistance organizations their leaders and other key individuals behind their operations The book details the movement s furtive tactics that included spreading information providing the Allies with key intelligence conducting industrial sabotage destroying bridges and factories and fighting behind the lines Case studies of resistance operations in France Norway Holland Denmark Poland Czechoslovakia the Soviet Union the Balkans Greece Italy and within Nazi Germany itself show the scope and breadth of the resistance movement throughout the world *Secret Armies* John L. Spivak, 2020-01-09 John L Spivak comes closer to the popular conception of the ace journalist than any other living writer Combining the instinct of a detective with the resourcefulness of a reporter and gifted with a hard hitting breezy style he has time and again scooped the world gotten the story despite powerful opposition and personal danger that might well have daunted less hardy souls But there is an important difference that sets Spivak apart from most other gentlemen of the press For several years he has devoted his bright and sharp pen solely to uncovering

evidence of fascist activities in the United States evidence that is credited with having set off several official investigations exposing un American foreign dominated propaganda Secret Armies climaxes Spivak s exposures His sensational inside story of Hitler s far flung under cover poison campaign in the Americas would seem scarcely credible were it not so thoroughly documented with original letters and records citing chapter and verse naming names dates and places His unanswerable uncontradicted facts should go far toward jolting many of us out of our false sense of security **Secret Armies** Jacques Bergier,1975 **Government of the Shadows** Eric Wilson,2009-01-20 This book uncovers the activities of clandestine governments It explores how covert political activity and transnational organised crime are linked and how they ultimately work to the advantage of state and corporate power Using a variety of case studies from the mafia in Italy to programmes for food and reconstruction in Iraq the authors illustrate that parapolitical structures are not deviant but central to the operation of global governments The creation of this parallel world economy the source of huge political and economic potential entices states to undertake new forms of regulation either through their own intelligence agencies or through the more shadowy world of criminal cartels **Weapon of the Strong** Jon Bailes,Cihan Aksan,2012-11-09 The term terrorism is often applied exclusively to non state groups or specific rogue states Far less attention is given to state terrorism carried out or sponsored by democracies most notably the United States History shows that this state terrorism has been responsible for the deaths of millions of people Weapon of the Strong analyses the forms of US state terrorism through exclusive never before published interviews with leading commentators and theorists including Noam Chomsky Edward S Herman Richard A Falk Judith Butler Ted Honderich Norman Finkelstein and Gilbert Achcar The interviews explore the different aspects of state terrorism its functions institutional supports and the legal and moral arguments surrounding it and consider specific case studies in Europe Latin America and the Middle East Weapon of the Strong makes an indispensable contribution to contemporary debates on terrorism and constructs a damning critique of US foreign policy from World War Two to the present day

Secret Armies John Spivak,2016-12-11 The material in this small volume just barely scratches the surface of a problem which is becoming increasingly grave the activities of Nazi agents in the United States Mexico and Central America During the past five years I have observed some of them watching the original crudely organized and directed propaganda machine develop grow and leave an influence far wider than most people seem to realize What at first appeared to be merely a distasteful attempt by Nazi Government officials at direct interference in the affairs of the American people and their Government has now assumed the more sinister aspect of also seeking American naval and military secrets Further studies in Central America Mexico and the Panama Canal Zone disclosed an espionage network directed by the Rome Berlin Tokyo axis and operating against the peace and security of the United States A scrutiny of the Nazi Fifth Column in a few European countries especially in Czechoslovakia just before that Republic was turned over to Germany s mercy by the Munich peace and in France where Nazi and Italian agents built an amazing secret underground army has made the fascist activities in the

Western Hemisphere somewhat clearer to me I have included one chapter detailing events which cannot so far as I have been able to discover be traced directly to Nazi espionage but it shows the influence of Nazi ideology upon England's now notorious Cliveden set which maneuvered the betrayal of Austria sacrificed Czechoslovakia and is working in devious ways to strengthen Hitler in Europe The Cliveden set has already had so profound an effect upon the growth and influence of fascism throughout the world that I thought it advisable to include it The sources for most of the material by its very nature naturally cannot be revealed Those conversations which I quote directly came from people who were present when they occurred or as in the case of the Cagouards in France from official records In the chapter on Czechoslovakia I quote a conversation between a Nazi spy and his chief The details came to me from a source which in the past I had found accurate Subsequently the spy was arrested by Czech secret police and his confession substantiated the conversation as I have given it Much of the material in this volume has been published in various periodicals from time to time but so many Americans feel that concern over Nazi penetration in this country is exaggerated that I hope even this brief and incomplete picture will serve to impress the reader as it has impressed me with the gravity of the situation J L S CONTENTS Preface I Czechoslovakia Before the Carving II England's Cliveden Set III France's Secret Fascist Army IV Dynamite Under Mexico V Surrounding the Panama Canal VI Secret Agents Arrive in America VII Nazi Spies and American Patriots VIII Henry Ford and Secret Nazi Activities IX Nazi Agents in American Universities X Underground Armies in America XI The Dies Committee Suppresses Evidence XII Conclusion

The Hidden Structure of Violence Marc Pilisuk, Jennifer Achord Rountree, 2015-07-17 Acts of violence assume many forms they may travel by the arc of a guided missile or in the language of an economic policy and they may leave behind a smoldering village or a starved child The all pervasiveness of violence makes it seem like an unavoidable and ultimately incomprehensible aspect of the modern world But in this detailed and expansive book Marc Pilisuk and Jen Rountree demonstrate otherwise Widespread violence they argue is in fact an expression of the underlying social order and whether it is carried out by military forces or by patterns of investment the aim is to strengthen that order for the benefit of the powerful The Hidden Structure of Violence marshals vast amounts of evidence to examine the costs of direct violence including military preparedness and the social reverberations of war alongside the costs of structural violence expressed as poverty and chronic illness It also documents the relatively small number of people and corporations responsible for facilitating the violent status quo whether by setting the range of permissible discussion or benefiting directly as financiers and manufacturers The result is a stunning indictment of our violent world and a powerful critique of the ways through which violence is reproduced on a daily basis whether at the highest levels of the state or in the deepest recesses of the mind

Terror White Soldiers David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seem to include secularism human rights democracy and capitalism

have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history
