Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China s preoccupation with order unity and harmony contributed to the civilization s remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society **Warfare in Inner Asian History (500-1800)** Nicola Di Cosmo, 2018-11-12 Military developments in Inner Asia lay at the basis of the rise of a number of Ancient and Early Modern Empires This is the first scholarly work to embrace Inner Asian military history across a broad spatial and chronological spectrum from the Turks and Uighurs to the Pechenegs and from the Mongol invasion of Syria to the Manchu conquest of China Based on previously unknown and until now underestimated sources the contributors to this volume explore the context development and characteristic features of Inner Asian warfare making original contributions to our understanding of Asian and world history Museums, International Exhibitions and China's Cultural Diplomacy Da Kong, 2021-03-31 Museums, International Exhibitions and China's Cultural Diplomacy examines the role museums and more specifically international exhibitions have played in shaping China s international image to date Drawing on theories and methods from museum studies and international relations the book evaluates the contribution international exhibitions make to China s cultural diplomacy strategy Considering their impact on the country s international image Kong also probes the mechanisms and processes involved examining in detail the policy of and international activities promoted by the Chinese government The book also analyses the motives of the Chinese and
