## Secret Voice:

**The Naked Voice** Chloe Goodchild, 2015-05-05 Both science and spirituality agree that every particle of matter every phenomenon we experience is a form of resonance or vibration The human voice is quite literally a mouthpiece of this truth there is no form of expression more personal more tied to our identities than our voices With simple inspirational exercises this book by renowned voice teacher Chloe Goodchild gives readers the tools to guide them in a process of sound healing and soul communication that is guaranteed to open the heart and restore forgiveness compassion and interconnectedness between individuals and in their communities At the heart of every human journey exists the longing to feel at home in one self and in the world In a unique response to meet this longing Chloe Goodchild invites you on a compelling adventure of self discovery and creative fulfillment through a direct experience of your own authentic voice the voice of your personal authority the song of your soul Going beyond traditional vocal training guides this book will appeal to anyone wishing to encounter themselves at a primal level through the medium of the voice Hidden Intercourse Wouter J. Hanegraaff, Jeffrey Kripal, 2008-12-31 From rumours about gnostic orgies in antiquity to the explicit erotic symbolism of alchemical texts from the subtly coded eroticism of medieval kabbalah to the sexual magic practiced by contemporary occultists and countercultural translations of Asian Tantra the history of Western esotericism is rich in references to the domains of eros and sexuality This volume which brings together an impressive array of top level specialists is the first to analyze the eroticism of the esoteric without sensationalism or cheap generalizations but on the basis of expert scholarship and attention to textual and historical detail While there are few other domains where the imagination may so easily run wild the various contributions seek to distinguish fact from fiction only to find that historical realities are sometimes even stranger than the fantasies In doing so they reveal the outlines of a largely unknown history spanning more than twenty centuries *The RIP* James Bèyor, 2016-06-03 The Quest To pass through conscript meaning enter the emotional sensorial parallel feel deeply and bring forth the full essence of whole consciousness Born With Five Perfectly Balanced Senses the human mind is bathed in dynamic sensing In mathematical terms this represents five to the fifth power conscious awareness Are you aware that the creature being exists within an encoded emotional first voice that is immediately activated at birth Is Fear Your Friend or Enemy When fear is your enemy you lose your essence Did you know that knowledge has no essence Do You Think Your Feelings Belong To You They do not via psychological implant losses or gains are predetermined circumstances governed by the word sanction given to others What Makes The Idea Of Truth a Hypocrisy Can you define fact as anything more than mental impasse or define truth as more than paradoxical conscription The Word Language is a mono dimensional syllabus and noun verb inversion that is unfit for an essenced creature the human being Are you using your first voice to access total consciousness rather than remembering performance rated acts How do you stimulate and use this natural treasure Once you learn how to enter the world of emotion your feelings will evolve and take flight The RIP will remain as one of the most

important fresh and poignant works to eclipse this century Until you read The RIP who and what you are will never be as clear     The Hidden Church of the Holy Graal Arthur Edward Waite,2014-07-10 In the 13th century over a few decades a huge literature emerged around an unlikely tale Survivors of the core of early Christianity make a perilous journey to Western Europe They begin a hidden bloodline preserve immensely powerful relics of the crucifixion and carry a secret which if revealed would turn the established church on its head A E Waite gets to the core of the Grail legend an interwoven mass of narratives which started with seeds of pagan folklore and grew into a massive allegorical Christian epic     Way of The English Mystics Gordon C. Miller,1996-01-07 A distinctive feature of Western religious life in recent years has been the rediscovery of the contemplative tradition in Christianity Within the Christian mystical tradition England holds a unique place with a number of major figures from the Middle Ages and later whose writings have fascinated generations of readers This book presents seven of them five from the medieval period the golden age of English mysticism Richard Rolle Walter Hilton the author of The Cloud of Unknowing Julian of Norwich and Margery Kempe and two from later centuries William Law and George Herbert Each chapter consists of an introductory essay on the life and writings of each individual followed by carefully chosen extracts from their writings Those from the medieval period are in fresh new translations All these writers see the spiritual life as an ongoing process a pilgrimage This inner pilgrimage requires no outer excursions but throughout the ages spiritual pilgrims have undertaken physical pilgrimages as well One aim of this book is to encourage its readers to continue this tradition by visiting sites from which the writings arose So each chapter is provided with a map of the area of immediate interest and a drawing of the place most associated with each figure and the introductory essays contain practical information about how to get there No other anthology of mystical and spiritual writings describes the lives and locations of these individuals in this way Gordon L Miller Ph D is a writer and historian living near Seattle Washington He attended Milligan College and Christian Theological Seminary This book developed from a period of post graduate study at Cambridge University when he visited the sites described in the book a journey which he says made the historical grounding of the English mystical tradition much more real to me He is also the author of Wisdom of the Earth Visions of an Ecological Faith

Sahuquillo, 2007-05-31 Spain in the twentieth century gave birth to an array of astounding artistic and literary talent including the passionately iconoclastic writer Federico Garcia Lorca But his works were ill received in the homophobic atmosphere of institutionalized Spanish criticism Because of this atmosphere even today's critics have effectively marginalized and disavowed intimations of homo affectivity and homoeroticism in the great Spanish works This book first appeared in Spain in 1991 as counter discourse against those prevailing ideological structures Before its appearance no significant work had focused on the position of Spanish culture towards homosexuality or on how homosexuality could affect the works of canonical writers Engaging with homosexuality as an imperative source of meaning in artistic work this volume rigorously studies the works of Federico Garcia Lorca and several of his marginalized homosexual contemporaries including Emilio Prados Luis Cernuda Juan Gil Albert and Salvador Dali The study relies on the textual evidence presented by these authors to define the homosexual culture as one plagued by the realities of rejection fear of the law self doubts the lack of an authorized language with which to convey emotions the awareness of disgust around the individual the need to accept marginality to find sexual or emotional satisfaction and the knowledge of one's own social divergence all of which have an enormous influence on any artist's work With this new and updated translation this work offers English speaking readers the opportunity to focus on formal aspects of literary expressions of homosexuality      **The Poems of William Watson** William Watson, 2018-04-05 Reproduction of the original The Poems of William Watson by William Watson      **Arresting Language** Peter David Fenves, 2001 Concentrating on both widely known and seldom read texts from a variety of philosophers writers and critics from Leibniz and Mendelssohn through Kleist and Hebel to Benjamin and Irigaray the book analyzes the genesis
