**Scents and Sensibility** Catherine Maxwell, 2017-10-20 This lively accessible book is the first to explore Victorian literature through scent and perfume presenting an extensive range of well known and unfamiliar texts in intriguing and imaginative new ways that make us re think literature's relation with the senses Concentrating on aesthetic and decadent authors *Scents and Sensibility* introduces a rich selection of poems essays and fiction exploring these texts with reference to both the little known cultural history of perfume use and the appreciation of natural fragrance in Victorian Britain It shows how scent and perfume are used to convey not merely moods and atmospheres but the nuances of the aesthete or decadent's carefully cultivated identity personality or sensibility A key theme is the emergence of the olfactif the cultivated individual with a refined sense of smell influentially represented by the poet and critic Algernon Charles Swinburne who is emulated by a host of canonical and less well known aesthetic and decadent successors such as Walter Pater Edmund Gosse John Addington Symonds Lafcadio Hearn Michael Field Oscar Wilde Arthur Symonds Mark Andri Raffalovich Theodore Wratislaw and A Mary F Robinson This book explores how scent and perfume pervade the work of these authors in many different ways signifying such diverse things as style atmosphere influence sexuality sensibility spirituality refinement individuality the expression of love and poetic creativity and the aura of personality dandyism modernity and memory A coda explores the contrasting twentieth century responses of Virginia Woolf and Compton Mackenzie to the scent of Victorian literature

The Scent of Empires Karl Schlögel, 2021-04-27 Can a drop of perfume tell the story of the twentieth century Can a smell bear the traces of history What can we learn about the history of the twentieth century by examining the fate of perfumes In this remarkable book Karl Schlögel unravels the interconnected histories of two of the world's most celebrated perfumes In tsarist Russia two French perfumers Ernest Beaux and Auguste Michel developed related fragrances honouring Catherine the Great for the 300th anniversary of the Romanov dynasty During the Russian Revolution and Civil War Beaux fled Russia and took the formula for his perfume with him to France where he sought to adapt it to his new French circumstances He presented Coco Chanel with a series of ten fragrance samples in his laboratory and after smelling each she chose number five the scent that would later go by the name Chanel No 5 Meanwhile as the perfume industry was being revived in Soviet Russia Auguste Michel used his original fragrance to create Red Moscow for the tenth anniversary of the Revolution Piecing together the intertwined histories of these two famous perfumes which shared a common origin Schlögel tells a surprising story of power intrigue and betrayal that offers an altogether unique perspective on the turbulent events and high politics of the twentieth century This

**Essence and Alchemy** Mandy Aftel, 2002-05 For centuries people have taken what seems to be an instinctive pleasure in rubbing scents into their skin and using them to pray to heal and to make love Yet in many ways perfumery is a lost art its creative and sensual possibilities eclipsed by the dominance of synthetic ingredients In *Essence and Alchemy* winner of the Sense of Smell Institute's Richard B Solomon Award Mandy Aftel unearths a forgotten world in which scent was celebrated by poets contemplated by philosophers and universally appreciated for its profound resonance with body mind and soul And she seduces the adventurous into experiencing firsthand the pleasures of working with natural essences

**The Ephemeral History of Perfume** Holly Dugan, 2011-11-01 In contrast to the other senses smell has long been thought of as too elusive too fleeting for traditional historical study Holly Dugan disagrees arguing that there are rich accounts documenting how men and women produced consumed and represented perfumes and their ephemeral effects She delves deeply into the cultural archive of olfaction to explore what a sense of smell reveals about everyday life in early modern England In this book Dugan focuses on six important scents incense rose sassafras rosemary ambergris and jasmine She links these smells to the unique spaces they inhabited churches courts contact zones plague ridden households luxury markets and pleasure gardens and the objects used to dispense them This original approach provides a rare opportunity to study how early modern men and women negotiated the environment in their everyday lives and the importance of smell to their daily actions Dugan defines perfume broadly to include spices flowers herbs animal parts trees resins and other ingredients used to produce artificial scents smokes fumes airs balms powders and liquids In researching these Renaissance aromas Dugan uncovers the extraordinary ways now largely lost that people at the time spoke and wrote about smell objects ambered civited expired fetored halited resented and smeeked or were described as breathful embathed endulced gracious halited incensial odorant pulvil redolent and suffite A unique contribution to early modern studies *The Ephemeral History of Perfume* is an unparalleled study of olfaction in the Renaissance a period in which new scents and important cultural theories about smell were developed Dugan's inspired analysis of a wide range of underexplored sources makes available to scholars a remarkable wealth of information on the topic

**Vanity Fair**, 1999

**Renaissance skin** Evelyn Welch, 2025-07-01 A magnificently illustrated study of skin in Renaissance Europe People in the Renaissance saw skin differently from how we do today The Europe of 1500 to 1700 was a world of humours and skin the clothing of the body was thought to be dangerously porous In this landmark book Evelyn Welch explores Renaissance skin as a bodily surface as physical matter and as a generator of new knowledge Ranging across anatomy surgery and sausage making she reveals how skin was managed by physicians as well as by glovemakers butchers and parchment makers How did people protect their health in a changing

global environment one where the air itself could be pathogenic How did they see their bodies in a world where there was suddenly a multiplicity of skin colours and decorations Addressing these questions and more Welch show us what happens when you see skin differently either in the marketplace where men and women from far away lands were put on display or under the microscope In doing so she reveals that the past had a distinctive and very different way of understanding bodily experiences
