A Decade of Federal Antipoverty Programs

Robert H. Haveman,2013-10-22 A Decade of Federal

Antipoverty Programs Achievements Failures and Lessons presents papers on the war on poverty dealing with its origins its education health and income maintenance programs and its community action legal services and antidiscrimination policies The book discusses poverty and social policy in the 1960s and 1970s the social and political context of the war on poverty and a decade of policy developments in the income maintenance system The text also describes a decade of policy

developments in improving education and training for low income populations a decade of policy developments in providing health care for low income families and the mobilization of low income communities through community action 10 Years of legal services for the poor and a decade of policy developments in equal opportunities in employment and housing are also

considered Historians and people involved in political sciences will find the book invaluable Policy Studies: Review

Annual Bruce B. Zellner,2019-01-22 Every editor of the Policy Studies Review Annual brings a unique perspective to bear in selecting articles to be included This perspective reflects varying methodological and disciplinary judgments varying

judgments on what the field of policy studies or policy analysis is and where it should be going and varying judgments regarding the quality of articles which are or claim to be in the field Because it is the objective to assemble a set of essays

which are both interesting and topical there will be varying perspectives on these matters as well The volume clearly reflects the editors perspectives They are explicit about these judgments and perspectives and then let the content of the volume

speak for itself First we are both economists As a result the general topics selected and the articles chosen under each topic tend to emphasize economics more than the other disciplines involved in the field of policy studies sociology psychology political science law and so on This emphasis is clearly seen by comparing the contents of volume I edited by Stuart Nagel a

political scientist and volume II edited by Howard Freeman a sociologist with that of this volume Second the editors have a particular view of what policy studies or policy analysis is That view has several aspects In the first place they feel that the field of policy studies or policy analysis must define itself and this definition will develop as researchers do just what the title of the field says study or analyze policies A corollary of this view is that we place a low weight on papers which discuss the policy process or reforms in policy making relative to papers which analyze a policy a policy proposal or a problem which leads to calls for policy action
