Guide to Making Smarter More Persuasive Data Visualizations shows how a good visualization can communicate the nature and potential impact of information and ideas more powerfully than any other form of communication. For a long time, data viz was left to specialists: data scientists and professional designers. No longer. A new generation of tools and massive amounts of available data make it easy for anyone to create visualizations that communicate ideas far more effectively than generic spreadsheet charts ever could. What's more, building good charts is quickly becoming a need to have skill for managers. If you're not doing it, other managers are, and they're getting noticed for it and getting credit for contributing to your company's success. In *Good Charts*, data viz maven Scott Berinato provides an essential guide to how visualization works and how to use this new language to impress and persuade. Data viz today is where spreadsheets and word processors were in the early 1980s, on the cusp of changing how we work. Berinato lays out a system for thinking visually and building better charts through a process of talking, sketching, and prototyping. This book is much more than a set of static rules for making visualizations. It taps into both well-established and cutting-edge research in visual perception and neuroscience, as well as the emerging field of visualization science, to explore why good charts and bad ones create feelings behind our eyes. Along the way, Berinato also includes many engaging vignettes of data viz pros illustrating the ideas in practice. *Good Charts* will help you turn plain, uninspiring charts that merely present information into smart, effective visualizations that powerfully convey ideas.

Soldiers Made Me Look Good Lewis MacKenzie, 2008

A riveting follow-up to the best-selling *Peacekeeper*, including MacKenzie's provocative views on leadership and the current state of the Canadian Armed Forces. Since retiring from the Armed Forces, Lewis MacKenzie has not stayed out of the spotlight but continues to speak his mind. In this straight-talking memoir, he traces his post-military career as an international commentator on military affairs, a consultant to the Irish government, and a federal political candidate. And here, he answers his critics, including journalist Carol Off for her criticism of his handling of the UN mission in Bosnia. In a hard-hitting chapter, he discusses his professional disagreement with the leadership priorities demonstrated by Romeo Dallaire in the early hours of the Rwandan genocide. He continues his story to the present, to the first real litmus test for NATO: Afghanistan. Divided into two parts: pre-1993, when MacKenzie calls himself a Cold War grunt, and post-1993, after his

controversial stint in Bosnia Soldiers Made Me Look Good is laced with anecdotes both funny and profound It concludes with ten pointers on leadership in which Lewis MacKenzie shares hard earned insights from a life on the front lines *Ultimate Presentations* Jay Surti,2018-08-03 Does the thought of delivering a presentation fill you with dread Do you want to learn how to give a fantastic presentation and impress an audience Ultimate Presentations covers every aspect of this essential business skill how to prepare how to structure a great presentation using technology and visual aids communicating a strong message tailoring your presentation to your audience highlighting your personal skills through your presentation time management and dealing with Q and As Business presentation expert Jay Surti guides you through the most common obstructions to giving good presentations and how to overcome them from nerves and uncomfortable body language to voice tone and physical habits Insightful guidance on coping with the unexpected such as interruptions technology breakdowns or difficult questions helps you to feel prepared and confident no matter what happens during your presentation The ability to deliver outstanding presentations is a lifelong skill that remains relevant throughout an entire career and can boost employability and progression From the best selling Ultimate series Ultimate Presentations is your one stop guide to acing that presentation and wowing an employer About the series The Ultimate series contains practical advice on essential job search skills to give you the best chance of getting the job you want Taking you all the way from starting your job search to completing an interview it includes guidance on CV or r sum and cover letter writing practice questions for passing aptitude psychometric and other employment tests and reliable advice for interviewing Presentation Basics Robert J.
