More Stories I Lived Kenneth P. Campbell, Ken Campbell's first book of stories from his growing up years and early adult

life *Stories I Lived* was so captivating that it left readers with an appetite for more. *More Stories I Lived* will surely satisfy the palate and grab the imagination through the author's vivid folksy storytelling from a much simpler time when survival meant hard work and boys had the time to ride out on horseback and explore the rural wilderness. Campbell writes with humor and purpose as he tells the stories he lived and the hard-learned life lessons that survival gave him. From picking his first tomatoes to raising a willful pet sheep from exploring a hidden cave to sledding uncontrolled down a steep hill from enduring a home style haircut to corralling a run away horse. His stories will make you laugh and they will even make you wince. Yet don't worry everything will come out all right in the end and you'll come away having enjoyed the journey and learned something with the author as well. More wonderful tales from a true treasure. Uncle Kenny takes us to a simpler time with smiles aplenty and great life lessons along the way. Eric Brown, Ministerial Director, Upper Columbia Conference.

Dear Science and Other Stories Katherine McKittrick, 2020-12-14. In *Dear Science and Other Stories* Katherine McKittrick presents a creative and rigorous study of black and anticolonial methodologies. Drawing on black studies, studies of race, cultural geography and black feminism as well as a mix of methods, citational practices and theoretical frameworks, she positions black storytelling and stories as strategies of invention and collaboration. She analyzes a number of texts from intellectuals and artists ranging from Sylvia Wynter to the electronica band Drexciya to explore how narratives of imprecision and relationality interrupt knowledge systems that seek to observe, index, know and discipline blackness. Throughout, McKittrick offers curiosity, wonder, citations, numbers, playlists, friendship, poetry, inquiry, song, grooves and anticolonial chronologies as interdisciplinary codes that entwine with the academic form. Suggesting that black life and black livingness are in themselves rebellious methodologies, McKittrick imagines without totally disclosing the ways in which black intellectuals invent ways of living outside prevailing knowledge systems.
