Bowman, 2018-03-16 Imagination and Environmental Political Thought The Aftermath of Thoreau seeks to correct oversimplified readings of Henry David Thoreau's political thought by elucidating a key tension within his imagination With the celebration of Thoreau's two hundredth birthday now past this study outlines and builds on his own understanding of imagination and considers its implications for environmental politics Despite the use of the word aftermath Thoreau's legacy for environmental political thought is primarily constructive and foundational for modern environmentalism Thoreau's virtues and vices have been inherited by his environmentally conscious readers The author of Walden's preference for an abstract ahistorical higher law his radical concept of autonomy and his frustration with government and community foster an impractical political thought characteristic of an idyllic imagination Nevertheless Thoreau demonstrates a more prudential and moral imagination by emphasizing the inescapable relationship between the moral order of individuals and the order of political communities and by pioneering the central questions of humanity's relationship to non human nature Can this tension of imaginations be resolved What are the consequences of this tension Thoreau's overall vision ultimately creates significant problems with which environmentalists still struggle While Thoreau's emphasis on freedom and the immaterial aspects of human and non human nature are of considerable value his abstract political morality misanthropy and escapism must be resisted both for the sake of environmental well being and human dignity In addition this book is an exercise in re thinking how the humanities may provide scholars critical insights to better diagnose and respond to the environmental challenges of our time AB Bookman's Weekly, 1998 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1973 **Children's Literature Aligned with SDGs to Promote Global Competencies** Angela K. Salmon, Aixa Pérez-Prado, Karin Morrison, Flavia Iuspa, 2024-05-23 This book presents children's literature as a platform for learning and helping young readers develop the knowledge skills and attitudes needed to thrive in an interconnected and diverse global society It draws from various theoretical frameworks and research findings to implement critical literacy and culturally responsive teaching in the meaning making process The book focuses on global competencies and Sustainable Development Goals SDGs as intertwined concepts that work together to foster a more sustainable inclusive and equitable world Developing global competencies empowers children and communities to actively participate in achieving the SDGs and addressing the pressing challenges of our time The authors set high expectations on

children as actors in transforming society To facilitate this the book offers an overview of child development theories as a foundation for designing developmentally appropriate practices to extend children s books toward deep thinking and understanding The book includes sample lessons that use cutting edge research based pedagogies and tools such as visible thinking routines and other approaches Those lessons also help readers identify the Habits of Mind HOM children can develop by listening to and discussing stories The HOM are attributes of good problem finders and problem solvers needed when confronting complex issues The book provides resources and sample lessons that implement different thinking strategies to engage children in questioning and analyzing what they read making them more critical This is how children deeply understand the world and their role in creating positive change The book aims to cultivate change makers and global citizens through stories It offers innovative approaches including online learning options in accessible and engaging ways to help children think globally and act locally Through the power of children s literature this book serves a larger agenda To build a more thoughtful world for future generations By caring for and learning from one another through suggested activities in this book they will share the riches and resources from across the world As children learn about the promise of actions toward the UN Sustainable Goals they can imagine living in an interdependent learning community where all people continually searching for ways to trust each other learn together and grow toward greater intelligence Arthur Costa and Bena Kallick Co Founders and Directors of The Institute for Habits of Mind **Our Father's World** Edward R.
