**Thinking about the Elgin Marbles** John Henry Merryman, 2009-06-10. The new edition of this insightful work begins with a critical reexamination of the rival Greek and British claims to the Elgin Marbles. That case study identifies the questions that continue to dominate the growing international debate about cultural property policy and which are subsequently explored in a newly expanded array of essays. Why are people concerned about cultural property? Is cultural nationalism a sound organizing principle for dealing with cultural property questions? Or is it a relic of 19th-century romanticism kept alive by the power of Byron's poetry? How can one rationalize cultural nationalism with the idea that works of art and antiquities are the cultural heritage of all mankind? What are alternative ways of thinking about cultural property policy and law? The work goes on to pay particular attention to the law and policy relating to cultural property export controls and the evolution and development of the 1995 UNIDROIT Convention on the Return of Stolen and Illegally Exported Cultural Property. The second part of this highly regarded book addresses a number of contemporary art law issues in essays on counterfeit art, the moral rights of artists, the artist's resale right (*droit de suite*), the litigation over the Mark Rothko estate, and problems of museum trustee negligence, conflict of interests, and misuse of inside information. The author, John Henry Merryman, is an Emeritus and Affiliated Professor in the Department of Art at Stanford Law School. He is a widely respected authority in the fields of international cultural property and art law.

**Trafficking Culture** Simon Mackenzie, Neil Brodie, Donna Yates, Christos Tsirogiannis, 2019-08-15. Trafficking Culture outlines current research and thinking on the illicit market in antiquities. It moves along the global trafficking chain from source to market, identifying the main roles and routines involved. Using original research, the authors explore the dynamics of this grey market where legal and illegal goods are mixed and conflated. It compares and contrasts this illicit trade with other transnational criminal markets such as the illegal trades in wildlife and diamonds. The analytical frames of organized crime and white collar crime drawn from criminology provide a fresh perspective on a problem that has tended to be seen as archaeological rather than

criminological Bringing insights from both disciplines together this book represents a productive discourse between experts in these two fields working together for several years to produce the evidence base that is reported here Innovative forms of regulation are the most productive way to explore crime control in this field and this book provides a series of propositions about practical crime reduction measures for the future It will be invaluable to academics working in the fields of archaeology criminology art history museum studies and heritage The book will also be a vital resource for professionals in the field of cultural property protection and preservation      **Ethics in American Archaeology** Mark J. Lynott, Alison Wylie, 2000
