Spaniards Initially the country's growing urban middle classes embraced the new activity as they built community identities and were introduced to it through economic and educational connections to foreigners To justify this these proponents argued that the adoption of physical education and sport would physically regenerate the nation In response well rounded sporting communities grew developed medical arguments and even debated the activity's appropriateness for different groups like women As sport spread it produced the first football clubs around the turn of the century Subsequently in the 1910s and early 1920s football established the structural institutions like stadiums stars regulatory bodies and a press that enabled its rapid expansion as a mass consumer activity in the late 1920s Regeneration through Sport looks at how this process embedded the sport within the national culture and established itself as a politically neutral activity before the Spanish Second Republic allowing it to become almost ubiquitous today This book will appeal to researchers students and scholars alike who are interested in the history of sport Spain and European history Spanish for the IB MYP 4&5 (Emergent/Phases 1-2): MYP by Concept Second edition J. class men into urban politics connected them to parties and served as venues of political critique. In this way they contributed to the democratization of the public sphere. Elsey shows how club members debated ideas about class, ethnic, and gender identities and also how their belief in the uniquely democratic nature of Chile energized state institutions even as it led members to criticize those very institutions. Furthermore, she reveals how football clubs created rituals, narratives, and symbols that legitimated workers' claims to political subjectivity. Her case study demonstrates that the relationship between formal and informal politics is essential to fostering civic engagement and supporting democratic practices.
