Mayans were a Mesoamerican civilization living in what is now Guatemala, Honduras, and parts of Mexico. They are believed to have had some contact with the Olmecs, who preceded them in Mexico. Their culture ultimately became more complex than other nearby civilizations, such as Teotihuacan in today's Mexico City, Zapotec in today's Oaxaca, or Tula in today's Hidalgo. The rise and fall of these three kingdoms left behind massive monuments still standing today that had survived centuries without being covered by new civilizations coming in on top of them. Like happened at many other sites around Mexico Central America, where older buildings were simply built over when newer ones came along later on top of them.
