

Political

- **Louis XIV**
 - Versailles
 - Ended Estates General, limited Parlements, and arrested opposition
 - Corvees – forced labor as a tax
 - Edict of Fountanbleau – ended toleration of Huguenots
 - Suppressed Jansenists (Catholics with Calvinist ideas)
 - More advanced Mercantilism under Jean Baptiste Colbert

Louis Xiv And The Parlements

Albert N. Hamscher

Louis XIV And The Parlements:

Louis XIV and the Parlements John J. Hurt, 2004-09-04 The first scholarly study of the political and economic relationship between Louis XIV and the parlements of France the Parlement of Paris and all the provincial tribunals calling into question current revisionist understanding of Louis XIV

Louis XIV and the Parlements John Jeter Hurt, 2002 This study calls into question the current revisionist understanding of the reign of Louis XIV and insists that after all absolute government had a harsh reality at its core Based upon extensive archival research Louis XIV and the parlements will be of interest to all students of the history of early modern France and the monarchies of Europe John J Hurt is Associate Professor of History at the University of Delaware BOOK JACKET

The Conseil Privé and the Parlements in the Age of Louis XIV Albert N. Hamscher, 1987 This vol while encompassing the entire reign of Louis XIV all the parlements of the realm has the narrow focus of investigating the impact of royal policy on the judicial authority of the parlements as revealed in their relations with the king's councils notably the one that specialized in judicial affairs the Conseil Privé This is above all a study of the evolution of conciliar jurisprudence judicial procedure as much an exercise in what the French call l'histoire du droit as an opportunity to observe in a novel way the resolution of some of the most pressing political problems in the Age of Louis XIV But the overall aim is to understand the practical consequences of royal absolutism for the kingdom's highest judicial institutions

Provincial Power and Absolute Monarchy Julian Swann, 2003-08-21 This is the first book in English to study the history of the Estates General of Burgundy during the classic period of absolute monarchy Although not a representative institution in any modern sense the Estates were constantly engaged in a process of bargaining with the French crown and this book examines that relationship under the ancien régime Julian Swann analyses the organisation membership and powers of the Estates and explores their administration their struggles for power with rival institutions and their relationship with the crown and with the Burgundian people The Estates proved remarkably resilient when confronted by the challenges posed by the Bourbon monarchy and by the reign of Louis XVI they were seemingly more powerful than ever However the desire to protect their privileges and to extend their authority had not been accompanied by an attempt to forge a meaningful relationship with the people they claimed to serve

The Parlement of Paris After the Fronde, 1653-1673 Albert N. Hamscher, 2010-11-23 This book assesses how and to what extent the governments of Cardinal Mazarin and Louis XIV controlled the Parlement of Paris in the two decades after the civil wars known as the Fronde The history of this prestigious court of law bears directly on the broader issue of the growth of royal absolutism Few historians have examined the resurgence of royal authority after the Fronde from the vantage point of traditional institutions and no other scholarly work deals extensively with the activities of Parlement during this controversial period This study reveals the methods achievements and limitations of absolutism associated with the Sun King The book investigates the impact of royal policies on the way the judges acquired and transmitted their posts the sources of their wealth the social composition of their

court and their judicial and administrative authority Parlement's political activities and its conflicts with the crown over issues of judicial financial and religious importance also receive thorough treatment The author's extensive archival research indicates that many widely held assumptions about declining importance of Parlement after the civil war are unwarranted Although Parlement's political activities gradually declined this transformation was neither as complete nor as irreversible as historians have asserted Parlement retained some voice in affairs of state and most of the administrative machinery it could employ to oppose royal policy remained intact Moreover the crown failed to attack the sources of parlementaire wealth and the judges freely enhanced their court's status as a social corporation

The Royal Financial Administration and the Prosecution of Crime in France, 1670-1789 Albert N. Hamscher, 2012-07-13 The Royal Financial Administration and the Prosecution of Crime in France 1670-1789 explores the French monarchy's role in financing criminal prosecutions in the royal courts of the realm the payment of criminal frais de justice in the vocabulary of the ancien régime between 1670 and 1789 that is from the codification of criminal judicial procedure in the early period of Louis XIV's personal rule to the outbreak of the French Revolution The subject brings together three areas of scholarly inquiry criminal justice royal administration and the management of the crown's finances A central goal of the study is to provide factual information and interpretive insights on each of these topics and to explain the relationship of each to the others over a long time period The book contributes to existing scholarship in four ways First although each of the major dimensions of the inquiry the operation of the criminal justice system the conduct of the royal administration and the management of the monarchy's finances has a large and increasingly sophisticated historical literature this is the first study to combine them in a systematic way Second the long time period covered in the book not only enables the historian to distinguish gradual from rapid change but it also allows the reader to view how the system functioned in different historical contexts Third the study is based on archival sources throughout France This comprehensive approach permits the identification of elements of a common experience without sacrificing attention to important aspects of regional diversity Finally with respect to the sources themselves the range is broad encompassing regulatory acts and decisions of the king's councils administrative correspondence at the central regional and in some cases local levels financial accounts and related papers and court records from the major appellate courts and from several lower courts as well An appendix of 33 tables lists figures of annual expenditure and other pertinent financial operations for each of the major financial districts of the kingdom

France, 1500-1715 Alastair Armstrong, 2003 Heinemann Advanced History offers a differentiation strategy with books covering AS and A2 Exam preparation includes practice questions advice on what makes a good answer and help for students on interpreting questions and planning essays

The Oxford Handbook of the Ancien Régime William Doyle, 2012 An exploration of current scholarly thinking about the wide and surprisingly complex range of historical problems associated with the study of Ancien Régime Europe

The Rise of Fiscal States Bartolomé Yun-Casalilla, Patrick K. O'Brien, Francisco Comín

Comín,2012-05-24 Leading economic historians present a groundbreaking series of country case studies exploring the formation of fiscal states in Eurasia **Exile, Imprisonment, Or Death** Julian Swann,2017 On the accession of Louis XIII in 1610 following the assassination of his father the Bourbon dynasty stood on unstable foundations For all of Henri IV s undoubted achievements he had left his son a realm that was still prey to the ambitions of an aristocracy that possessed independent military force and was prepared to resort to violence and vendetta in order to defend its interests and honour To establish his personal authority Louis XIII was forced to resort to conspiracy and murder and even then his authority was constantly challenged Yet a little over a century later as the reign of Louis XIV drew to a close such disobedience was impossible Instead a simple royal command expressing the sovereign s disgrace was sufficient to compel the most powerful men and women in the kingdom to submit to imprisonment or internal exile without a trial or an opportunity to justify their conduct abandoning their normal lives leaving families careers offices and possessions behind in obedience to their sovereign To explain that transformation this volume examines the development of this new politics of disgrace why it emerged how it was conceptualised the conventions that governed its use and reactions to it not only from the perspective of the monarch and his noble subjects but also the great corporations of the realm and the wider public Although that new model of disgrace proved remarkably successful influencing the ideas and actions of the dominant social elites it was nevertheless contested and the critique of disgrace connects to the second aim of this work which is to use shifting attitudes to the practice as a means of investigating the nature of Old Regime political culture and some of the dramatic and profound changes it experienced in the years separating Louis XIII s dramatic seizure of power from the French Revolution *The History of the Wars which Arose Out of the French Revolution*: Alexander Stephens,1886 **A History of the French Revolution** Henry Morse Stephens,1886 **France 1715-1804** Gwynne Lewis,2018-12-14 Gwynne Lewis history opens with a full analysis of all the components of traditional France including political and religious structures the seigneurial system the bourgeoisie and the poor Part two examines the meaning and challenge of the Enlightenment with particular reference to women and the mass of the poor Part three concentrates upon the relationship between the shift to laissez faire economics popular revolts and government repression providing the essential background to the Revolutionary decade of the 1790s The Revolution witnessed the rise of a politicised Popular Movement that achieved briefly a measure of popular democracy War and counter revolution blocked the move towards real democracy strengthened the authority of the centralised state and enhanced the credibility of bourgeois political and economic power One of the main contentions of this work is that the failure of both monarchical and Revolutionary regimes to deal with the massive social problem of poverty played a far larger part in explaining the collapse of the Bourbons in 1789 and the failure of democracy during the 1790s than most historians have allowed Likewise the importance of religion in directing the momentous events of this period has also been under estimated

The Complete Idiot's Guide to European History, 2nd Edition Nathan Barber,2011-10-04 Fascinating fact filled

writing that delivers hundreds of years in the life of the European continent Terrific supplementary reading for AP History students

The State in Early Modern France James B. Collins, 1995-09-28 This major new textbook addresses fundamental questions about the nature of the state in early modern Europe through an analysis of the most important continental state France Professor Collins abandons the traditional formulation of the absolute monarchy and presents in its place a state that evolved to meet the needs of the French elites Collins offers a detailed analysis of French society to provide the broader context for the development of the French state The model that emerges from his synthesis is one that relied more on persuasion and congruity of influence than on arbitrary authority and Collins argues that fundamental changes in French society made the monarchical ministerial state a dangerous anachronism by the 1750s leading to political impasse by the second half of the eighteenth century Collins offers a fundamental reinterpretation of the state relevant to historians and students of political thought
