are an infinite number of possible futures that lie ahead of us like threads stretching out into the distance Rob Hopkins cofounder of the international Transition Network movement invites us to travel to future worlds we would actually want to live in In 2020 when the COVID 19 pandemic disrupted every aspect of daily life climate activist and Transition Network cofounder Rob Hopkins responded the way a lot of people did by starting a podcast But it wasn t any ordinary podcast In each episode Hopkins and his guests would time travel together to the year 2030 walking down imagined future streets talking with imagined future neighbors visiting imagined future local businesses While Hopkins s guests came from all walks of life economists politicians bakers comedians novelists and more they all shared a willingness to suspend their worries about the future long enough to mentally inhabit and then describe a world they were thrilled to be a part of What Hopkins

discovered was no less profound this simple exercise of visiting a positive future forced him to rethink the work he d been doing as a climate activist for decades How to Fall in Love with the Future is the result of that radical disruption and Hopkins s deep dive into the people and movements throughout history who have used visions of the future to inspire positive change on a large and dramatic scale From the life and writings of musician Sun Ra and the history of Black utopian movements to the latest neuroscience on what goes on in our minds and hearts when we time travel Hopkins brings essential new thinking to anyone overwhelmed with dread and anxiety for the future He asks us to consider what would the world look like if we all got to work imagining and then building a world we were deeply in love with Rob Hopkins puts imagination back at the heart of future dreaming offering us an irresistible invitation to dream bigger and then make those dreams a reality Kate Raworth author of Doughnut Economics *Italian Americana* ,2007 *Love, Lattes and Mutants* Sandra Cox,2015-02-17 Finding love is hard even when you aren t a mutant Like most seventeen year olds Piper Dunn wants to blend in with the crowd Having a blowhole is a definite handicap A product of a lab engineered mother with dolphin DNA Piper spends her school days hiding her brilliant ocean colored eyes and sea siren voice behind baggy clothing and ugly glasses When Tyler the new boy in school zeroes in on her ignoring every other girl vying for his attention no one including Piper understands why Then Piper is captured on one of her secret missions rescuing endangered sea creatures and ends up in the same test center where her mother was engineered There she discovers she isn t the only one of her kind Joel is someone she doesn t have to hide from and she finds herself drawn to the dolph boy who shares her secrets Talking to him is almost as easy as escaping from the lab Deciding which boy has captured her heart is another story 63 486 Words **Program and Abstracts** American Folklore Society. Annual Meeting,2000 *Where the Heart Lies* T E Church,2005-03 An excerpt from Where The Heart Lies We had become a big festering boil on the rear of the state of California Government charity seemed to reach far and appeared never ending I wish the politicians could have seen what they had helped my parents to do what they had helped many drug addicts do Money that was supposed to feed needy families fed needs all right it fed a need for speed I don t mean going fast either Speed is slang for amphetamines crank meth crystal crack you name it It was called a million different things If my parents weren t slamming heroin they were snorting speed It was almost popular All my uncles and everyone else who came around our house talked about speed Apparently it was cheaper than other drugs and it lasted longer Great give them something they could buy more of that would keep them going longer so the cycle never ends
