Myths Of Oz Reading Australian Popular Culture:

Australian Cultural Studies John Frow, Meaghan Morris, 1993 Cultural studies has emerged as a major force in the analysis of cultural systems and their relation to social power Rather than being interested in television or architecture or pinball machines themselves as industrial or aesthetic structures cultural studies tends to be interested in the way such apparatuses work as points of concentration of social meaning as media literally according to John Frow and Meaghan Morris Here two of Australia's leading cultural critics bring together work that represents a distinctive national tradition moving between high theory and detailed readings of localized cultural practices Ethnographic audience research cultural policy studies popular consumption and aboriginal art landscape in feature films style form and history in TV miniseries and the intersections of tourism with history and memory these are among the topics addressed in a landmark volume that cuts across myriad traditional disciplines *Cultural Seeds: Essays on the Work of Nick Cave* Tanya Dalziel, Karen

Welberry, 2016-05-13 Nick Cave is now widely recognized as a songwriter musician novelist screenwriter curator critic actor and performer From the band The Boys Next Door 1976-1980 to the spoken word recording *The Secret Life of the Love Song* 1998 to the recently acclaimed screenplay of *The Proposition* 2005 and the *Grinderman* project 2008 Cave's career spans thirty years and has produced a comprehensive and sometimes controversial body of work that has shaped contemporary alternative culture Despite intense media interest in Cave there have been remarkably few comprehensive appraisals of his work its significance and its impact on understandings of popular culture In addressing this absence the present volume is both timely and necessary *Cultural Seeds* brings together an international range of scholars and practitioners each of whom is uniquely placed to comment on an aspect of Cave's career The essays collected here not only generate new ways of seeing and understanding Cave's contributions to contemporary culture but set up a dialogue between fields all too often separated in the academy and in the media Topics include Cave and the Presley myth the aberrant masculinity projected by *The Birthday Party* the postcolonial Australian-ness of his humour his interventions in film and his erotics of the sacred These essays offer compelling insights and provocative arguments about the fluidity of contemporary artistic practice *Myths of*

Oz John Fiske, 1987 **Myths of Oz** John Fiske, Bob Hodge, Graeme Turner, 2016-10-04 This book first published in 1987 sets out to examine and extend our understanding of Australian popular culture and to counter the long established traditional criticism bemoaning its lack The authors argue that the knocker's view started from an elitist viewpoint yearning for Australia to aspire to a European culture in art music literature and other traditional cultural fields They argue however that there are other definitions of culture that are more populist more comprehensive and which represent a vitality and dynamism which is a true reflection of the lives and aspirations of Australians *Myths of Oz* offers no comprehensive definition of Australian culture but rather a way of interpreting its various aspects The barbeque or the pub an expedition to the shops or a day at the beach the home the workplace or the job queue all these intrinsic parts of Australian life are examined and conclusions

drawn as to how they shape or are shaped by what we call popular culture The authors look too at monuments and symbols from Ayers Rock to the Sydney Opera House which both shape and reflect Australian culture while a chapter on the Australian accent shows how language and terminology play a powerful role in establishing cultural standpoints A particular strength of this book is that while delivering a provocative and stimulating series of viewpoints on popular culture it also makes use of current academic tools and methodology to ensure that we gain new insights into the meanings and pleasures we derive from our everyday experiences *Australian Leisure* A J Veal, Simon Darcy, Rob Lynch, 2015-05-20 For first year students in tertiary leisure studies programs both Leisure Studies and Social Science *Australian Leisure* 4e provides an introduction to and analysis of a broadly defined concept of leisure It integrates Australian and international knowledge so that the book is an Australian interpretation based largely on local sources but which engages with relevant international research and theory This edition has been extensively reviewed and updated and includes new chapters on social networks global cultures and events Leisure is not just sport or the arts or outdoor recreation it is all these things and more including tourism gambling hobbies television watching entertainment play and doing nothing in particular The purpose of the text is to illuminate leisure and its place in past present and future Australian society The text is designed to lead students into the subject and provide pointers to more detailed study through discussion questions and guides to further reading

for all those interested in Australian beaches **Re-enchanting Nationalisms** Brad West, 2015-04-13 This book provides original insight into the way we now engage and remember national history Drawing on fieldwork and analysis of international case studies on state commemoration memorialization recreational and tourism and times of disaster and crisis the author demonstrates that not only does the nation frequently retain a strong cultural relevance in our global world but that the emergence of new forms of ritual and remembrance means that in many instances we are seeing the re enchantment of nationalism Drawing upon and developing an empirically informed cultural sociology the author charts the distinctive qualities of these new national rites and how they feed into and advance particular cosmopolitan and orthodox national politics Because social science has so often wrongly assumed the end of nationalism the insights of this of the book about the possibilities and limitations of contemporary nationalism demand serious consideration by academics and also by policy makers and the general public *Continuum Guide to Media Education* Pat Brereton, 2005-07-01 Presented in an A Z format this is an authoritative guide to media education in all its aspects **Shelf Life** Kim Humphery, 1998-07-27 Supermarkets in all their everyday mundanity embody something of the enormous complexity of living and consuming in late twentieth century western societies Shelf Life first published in 1998 explores the supermarket as a retail space and as an arena of everyday consumption in Australia It historically situates and critically discusses the everyday food products we buy the retail environments in which we do so the attitudes of the retailers who construct such environments and the diverse ways in which all of us undertake and think about supermarket shopping Yet this book is more than narrative history It engages with broader issues of the nature of Australian modernity the globalisation of retail forms the connection between consumption and self autonomy and the highly gendered nature of retailing and shopping It interrogates also the work of cultural critics and questions recent attempts to grasp what it means to consume and to be a consumer *Reports from a Wild Country* Deborah Bird Rose, 2004 Explores some of Australia s major ethical challenges Written in the midst of rapid social and environmental change and in a time of uncertainty and division it offers powerful stories and arguments for ethical choice and commitment The focus is on reconciliation between Indigenous and Settler peoples and with nature Introduction to Communication Studies John Fiske, 2010-10-18 This revised edition of a now classic text includes a new introduction by Henry Jenkins explaining Why Fiske Still Matters for today s students followed by a discussion between former Fiske students Ron Becker Elana Levine Darrell Newton and Pamela Wilson on the theme of Structuralism and Semiotics Fiske Style Both underline the continuing relevance of this foundational text in communication studies How can we study communication What are the main theories and methods of approach This classic text provides a lucid accessible introduction to the main authorities in the field of communication studies aimed at students coming to the subject for the first time It outlines a range of methods of analysing examples of communication and describes the theories underpinning them Thus armed the reader will be able to tease out the latent cultural meanings in such apparently simple communications as news

photos or popular TV programmes and to see them with new eyes What's Become of Cultural Studies? Graeme Turner, 2011-12-01 Graeme Turner is one of the most remarkable figures in the world of cultural studies He has helped to make and remake the field over the last twenty five years So when he sets his alarm clock and it goes off loudly we all know it's time to pay attention This extraordinary testament to what is right and wrong with cultural studies today will reverberate across the globe Toby Miller University of California This original sharp and engaging book draws the reader into a compelling exploration of cultural studies in the twenty first century It offers a level headed account of where cultural studies has come from the methodological and theoretical dilemmas that it faces today and an agenda for its future development In an age in which the relevance of cultural studies has been called into question this book seeks to generate debate Focusing upon the actual practice of cultural studies within the university today it asks whether or not cultural studies has really managed to maintain a connection with its original political and ethical mission and comments on the strategies needed to regain the initiative Written by a world class figure in cultural studies each chapter supports and guides the reader by introducing the key issues reviewing the relevant commentary and offering a critical conclusion of how each theme fits into a bigger picture This timely and provocative consideration of cultural studies as a global discipline will be essential reading for academics and students working in the field for years to come *The Situated Politics of Belonging* Nira

Yuval-Davis, Kalpana Kannabiran, Ulrike Vieten, 2006-06-27 This collection of essays examines the racialized and gendered effects of contemporary politics of belonging issues which lie at the heart of contemporary political and social lives It encompasses critical questions of identity and citizenship inclusion and exclusion emotional attachments violent conflicts and local global relationships The range geographically thematically and theoretically covered by the chapters reflects current concerns in the world today A timely contribution to the ongoing debates in the field it will be a valuable companion to scholars working in the areas of multiculturalism globalisation and culture race and ethnic studies gender studies and studies of post partition societies **Postcolonial Gateways and Walls** Daria Tunca, Janet Wilson, 2016-11-07 Metaphors are

ubiquitously used in the humanities to bring the tangibility of the concrete world to the elaboration of abstract thought Drawing on this cognitive function of metaphors this collection of essays focuses on the evocative figures of the gateway and the wall to reflect on the state of postcolonial studies Some chapters on such topics as maze making in Canada and the Berlin Wall in the writings of New Zealand authors foreground the modes of articulation between literal borders and emotional disconnections while others examine how artefacts ranging from personal letters to clothes may be conceptualized as metaphorical gateways and walls that lead or conversely regulate access to specific forms of cultural expression and knowledge Following this line of metaphorical thought postcolonial studies itself may be said to function as either barrier or pathway to further modes of enquiry This much is suggested by two complementary sets of contributions on the one hand those that contend that the canonical centre periphery paradigm and the related writing back model have prevented scholars

from recognizing the depth and magnitude of cross cultural influences between civilizations on the other those that argue that the scope of traditional postcolonial models may be fruitfully widened to include territories such as post imperial Turkey a geographical and cultural gateway between East and West that features in several of the essays included in this collection Ultimately all of the contributions testify to the fact that postcolonial studies is a field whose borders must be constantly redrawn and whose paradigms need to be continually reshaped and rebuilt to remain relevant in the contemporary world in other words the collection s varied approaches suggest that the discipline itself is permanently under construction Readers are therefore invited to perform a critical inspection of the postcolonial construction site
