The American Occupation of Tibetan Buddhism Eve Mullen, 2001 *Identity, Ritual and State in Tibetan Buddhism* Martin A. Mills, 2013-11-05 This is a major anthropological study of contemporary Tibetan Buddhist monasticism and tantric ritual in the Ladakh region of North West India and of the role of tantric ritual in the formation and maintenance of traditional forms of state structure and political consciousness in Tibet Containing detailed descriptions and analyses of monastic ritual the work builds up a picture of Tibetan tantric traditions as they interact with more localised understandings of bodily identity and territorial cosmology to produce a substantial re interpretation of the place of monks as ritual performers and peripheral householders in Ladakh The work also examines the central and indispensable role of incarnate lamas such as the Dalai Lama in the religious life of Tibetan Buddhists **The Essence of Jung's Psychology and Tibetan Buddhism** Radmila Moacanin, 2012-05-22 The Essence of Jung's Psychology and Tibetan Buddhism cuts to the heart of two very different yet remarkably similar traditions The author touches on many of their major ideas the collective unconscious and karma archetypes and deities the analyst and the spiritual friend and mandalas Within Tibetan Buddhism she focuses on tantra and relates its emphasis on spiritual transformation also a major concern of Jung This expanded edition includes new material on the integration of the two traditions and the importance of these paths of the heart in today's unsteady world

Buddhist Masculinities Megan Bryson, Kevin Buckelew, 2023-09-05 While early Buddhists hailed their religion's founder for opening a path to enlightenment they also exalted him as the paragon of masculinity According to Buddhist scriptures the Buddha's body boasts thirty-two physical features including lionlike jaws thighs like a royal stag broad shoulders and a deep resonant voice that distinguish him from ordinary men As Buddhism spread throughout Asia and around the world the Buddha remained an exemplary man but Buddhists in other times and places developed their own understandings of what it meant to be masculine This transdisciplinary book brings together essays that explore the variety and diversity of Buddhist masculinities from early India to the contemporary United States and from bodhisattva kings to martial monks Buddhist Masculinities adopts the methods of religious studies anthropology art history textual historical studies and cultural studies to explore texts images films media and embodiments of masculinity across the Buddhist world past and present It turns scholarly attention to normative forms of masculinity that usually go unmarked and unstudied precisely because they are normal illuminating the religious and cultural processes that construct Buddhist masculinities Engaging with contemporary issues of gender identity intersectionality and sexual ethics Buddhist Masculinities ushers in a new era for the study of Buddhism and gender **Reincarnation in Tibetan Buddhism** Ruth Gamble, 2018-07-09 Reincarnation in Tibetan Buddhism examines how the third Karmapa hierarch Rangjung Dorje 1284-1339 transformed reincarnation from a belief into a lasting Tibetan institution Born the son of an itinerant low caste potter Rangjung Dorje went on to become a foundational figure in Tibetan Buddhism and a teacher of the last Mongolian emperor He became renowned

for his contributions to Buddhist philosophy literature astrology medicine architecture sacred geography and manuscript production But as Ruth Gamble demonstrates his most important legacy was the transformation of the Karmapa reincarnation lineage to ensure that after his death subsequent Karmapas were able to assume power in the religious institutions he had led The inheritance model of reincarnation instituted by Rangjung Dorj changed the Tibetan Plateau's power relations which until that time had been based on family associations and created a precedent for later reincarnate institutions including that of the Dalai Lamas Drawing on Rangjung Dorj's hitherto untranslated autobiographies and autobiographical songs this book shows that his reinvention of reincarnation was a self-conscious and multi-faceted project made possible by Rangjung Dorj's cultural social and political standing and specific historical and geographical circumstances Exploring this combination of agency and historical coincidence this is the first full-length study of the development of the reincarnation institution

Journeys of Transformation John D. Barbour, 2022-03-31 Western Buddhist travel narratives are autobiographical accounts of a journey to a Buddhist culture Dozens of such narratives have since the 1970s describe treks in Tibet periods of residence in a Zen monastery pilgrimages to Buddhist sites and teachers and other Asian odysseys The best known of these works is Peter Matthiessen's *The Snow Leopard* further reflections emerge from thirty writers including John Blofeld Jan Van de Wetering Thomas Merton Oliver Statler Robert Thurman Gretel Ehrlich and Bill Porter The Buddhist concept of no self helps these authors interpret certain pivotal experiences of unselfing and is also a catalyst that provokes and enables such events The writers' spiritual memoirs describe how their journeys brought about a new understanding of Buddhist enlightenment and so transformed their lives Showing how travel can elicit self-transformation this book is a compelling exploration of the journeys and religious changes of both individuals and Buddhism itself

Death and Reincarnation in Tibetan Buddhism Tanya Zivkovic, 2013-10-08 Contextualising the seemingly esoteric and exotic aspects of Tibetan Buddhist culture within the everyday embodied and sensual sphere of religious praxis this book centres on the social and religious lives of deceased Tibetan Buddhist lamas It explores how posterior forms corpses relics

reincarnations and hagiographical representations extend a lama's trajectory of lives and manipulate biological imperatives of birth and death. The book looks closely at previously unexamined figures whose history is relevant to a better understanding of how Tibetan culture navigates its own understanding of reincarnation, the veneration of relics and different social roles of different types of practitioners. It analyses both the minutiae of everyday interrelations between lamas and their devotees specifically noted in ritual performances and the enactment of lived tradition and the sacred hagiographical conventions that underpin local knowledge. A phenomenology of Tibetan Buddhist life, the book provides an ethnography of the everyday embodiment of Tibetan Buddhism. This unusual approach offers a valuable and a genuine new perspective on Tibetan Buddhist culture and is of interest to researchers in the fields of social cultural anthropology and religious Buddhist and Tibetan studies.

The People of the Book and the Camera Ofra Amihay, 2022-06-30 Amihay offers a pioneering study of the unique nexus between literature and photography in the works of Hebrew authors. Exploring the use of photography both as a textual element and through the inclusion of actual images, Amihay shows how the presence of visual elements in a textual work of fiction has a powerful subversive function. Contemporary Hebrew authors have turned to photography as a tool to disrupt narratives and give voice to marginalized sectors in Israel, including women, immigrants, Mizrahi Israelis, LGBTQ individuals, second generation Holocaust survivors, and traumatized army veterans. Amihay discusses standard novels alongside graphic novels, challenging the dominance of the written word in literature. In addition to providing a poetic analysis of image-text pages, Amihay addresses the social and political issues authors are responding to, including gender roles, Zionism, the ethnic divide in Israel, and its Palestinian minority. In exploring these avant-garde novels and their authors, Amihay elevates their significance and calls for a more expansive definition of canonical Hebrew literature.

Mitchell, 2024 The Oxford Handbook of American Buddhism offers the most comprehensive and up-to-date scholarship available on Buddhism in America. Memory and Hope Alon Goshen-Gottstein, 2018-08-08 This book tackles the core problem of how painful historical memories between diverse religious communities continue to impact even present-day relations. Its operative notion is the healing of memory developed by John Paul II. Chapters explore how painful memories of yesteryear can be healed and so address some of the root causes. Strategies from six different faith traditions are brought together in what is in some ways a cross-religious brainstorming session that identifies tools to improve present-day relations. At the other pole of the conceptual axis of this book is the notion of hope. If memory informs our past, hope sets the horizon for our future. How does the healing of memory open new horizons for the future? And what is the notion of hope in each of our traditions that could lead to a common vision of good? Between memory and hope, this book seeks to offer a vision of healing that can serve as a resource in contemporary
