Nine Ulster Lives:

Nine Ulster Lives Gerard O'Brien, Peter Roebuck, 1992 The significant contributions to the development of modern society made by Ulster men and women are often overlooked in current assessments of the province and its people This book aims to redress the balance somewhat by providing an appreciation of the lives of nine people of Ulster origin who deserve to be remembered both for their personal achievements and for their public importance The lives included have emerged from a variety of backgrounds and span a period of some four centuries Some carried with them a warm appreciation of their origins and a few returned either to visit or remain in Ulster as their lives drew to a close Others sustained the Ulster side of their identity quietly even unsuspectingly If the latter are harder to detect their discovery for the reader will be all the more rewarding Of the eight men and one woman scientists soldiers politicians clergyman artist scholar few have been remembered except perhaps by obituarists as being of Ulster origin The importance of their roots is best conveyed by the telling in these pages of their individual and compelling stories *The American Presence in Ulster: A Diplomatic History, 1796-1996* American Presence in Ulster Francis M. Carroll, 2005-12 Alex Voorman a cerebral thirty year old archaeologist is married to the woman of his dreams a beautiful ambitious botanist named Isabel When Isabel is killed by a reckless driver Alex reluctantly consents to donate her heart Janet Corcoran a young headstrong mother of two and an art teacher at an inner city school in Chicago is sick with heart disease She is on the waiting list for a transplant but her chances are slim She watches the Weather Channel secretly praying for foul weather and car accidents The day Isabel dies Janet gets her wish Flash forward a year Janet sends Alex a letter She'd like to learn something about the woman who saved her life But Alex isn't interested in talking to the recipient of his dead wife's heart Since Isabel's accident he's still grief stricken Meanwhile a local blues musician named Jasper the man responsible for Isabel's death attempts to atone for his misdeed Irreplaceable is the story of what happens after the transplant not only to Alex but within the concentric circles of family that spiral outward from him and from Janet Stephen Lovely takes us vividly inside the lives of these characters to reveal their true intentions however misguided and gives us a stunning debut novel of loss and love **A New History of Ireland Volume VII** J. R. Hill, 2003-12-04 A New History of Ireland is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume VII covers a period of major significance in Ireland's history It outlines the division of Ireland and the eventual establishment of the Irish Republic It provides comprehensive coverage of political developments north and south as well as offering chapters on the economy literature in English and Irish the Irish language the visual arts emigration and immigration and the history of women The contributors to this volume all specialists in their field provide the most comprehensive treatment of these developments of any single volume survey of twentieth century Ireland *Redcoats to Tommies* Kevin Lynch, Matthew Lord, 2021 This book

surveys and examines the history of Britain's soldiers from the eighteenth to the twentieth century. It focuses on the lifecycle of a soldier including enlistment and experience and on identity representations and place in society. It covers the diverse military forces of the British crown: the regular army, home defence forces, part-time soldiers, auxiliaries, officers, non-commissioned officers, and rank and file across times of conflict and peace and their wider relationship to families, communities, government, and society. Additionally, it considers both British troops and recognising Britain's soldiers as a transnational phenomenon: forces raised outside of Britain and Ireland. By assessing the evolution of Britain's soldiers across three centuries, the book highlights continuity and change and gauges how far the basic fundamentals, principles, and priorities of army life have endured or been transformed during the existence of a continual standing army. The book includes up-to-date research from a new generation of early career researchers and reflections from established scholars. *British Rural Life and Labour* Francis George Heath, 1911

Culture, Northern Ireland, and the Second World War Guy Woodward, 2015-02-12. *Culture Northern Ireland and the Second World War* explores the impact of the Second World War on literature and culture in Northern Ireland between 1939 and 1970. It argues that the war as a unique interregnum in the history of Northern Ireland challenged the entrenched political and social makeup of the province and had a profound effect on its cultural life. Critical approaches to Northern Irish literature and culture have often been circumscribed by topographies of partition and sectarianism, but the Second World War generated conditions for reimagining the province within broader European and global contexts. These have perhaps been obscured by the amount of critical attention that has been paid to the impact of the Troubles on the culture of the province and for this reason the book focuses on material produced before the flaring of political violence towards the end of the 1960s. Drawing on archival research over four chapters, the book describes the activities of an eccentric collection of artists and writers during and after the Second World War and considers how the awkward position of the province in relation to the war is reflected in their work.

It's Part of What We Are - Volumes 1 and 2 - Volume 1: Richard Boyle (1566-1643) to John Tyndall (1820-1893); Volume 2: Samuel Haughton (18210-1897) to John Stewart Bell (1928-1990) Charles Mollan, 2007-11-15. Biographies of more than 100 Irish scientists or those with strong Irish connections in the disciplines of Chemistry and Physics including Astronomy, Mathematics, etc., describing them in their Irish and international scientific, social, educational, and political context. Written in an attractive, informal style for the hypothetical educated layman who does not need to have studied science. Well received in Irish and international reviews.

Castlereagh John Bew, 2012. Hardly is a figure more maligned in British history than Robert Stewart, Viscount Castlereagh. One of the central figures of the Napoleonic Era and the man primarily responsible for fashioning Britain's strategy at the Congress of Vienna, Castlereagh was widely respected by the great powers of Europe and America yet despised by his countrymen and those he sought to serve. A shrewd diplomat, he is credited with being one of the first great practitioners of Realpolitik and its cold-eyed and calculating view of the relations between nations. Over the course

of his career he crushed an Irish rebellion and abolished the Irish parliament imprisoned his former friends created the largest British army in history and redrew the map of Europe Today Castlereagh is largely forgotten except as a tyrant who denied the freedoms won by the French and American revolutions John Bew's fascinating biography restores the statesman to his place in history offering a nuanced picture of a shy often inarticulate figure whose mind captured the complexity of the European Enlightenment unlike any other Bew tells a gripping story beginning with the Year of the French when Napoleon sent troops in support of a revolution in Ireland and traces Castlereagh's evolution across the Napoleonic Wars the diplomatic power struggles of 1814-15 and eventually the mental breakdown that ended his life Skillfully balancing the dimensions of Castlereagh's intellectual life with his Irish heritage Bew's definitive work brings Castlereagh alive in all his complexity variety and depth Ireland from Independence to Occupation, 1641-1660 Jane H. Ohlmeyer, 2002-11-07

Between 1641 and 1649 for the first time before 1922 Ireland was recognised by the international community as an independent nation Even though the Cromwellian conquest of 1649 made short work of Catholic Ireland's revolution it nevertheless ranks as one of the most successful revolts of early modern history This interdisciplinary collection of essays examines how the tumultuous events of the 1640s and 1650s transformed the course of Ireland's history The contributors consider throughout why Restoration Ireland after 1660 was such a different world from that of the Stuart era Was the change due simply to the passage of 20 years or to war in the 1640s followed by English occupation in the 1650s During these decades did active forces of change outweigh those of continuity in shaping Irish society identities warfare religious beliefs and economic and tenurial practices These essays seek to set Ireland in its wider European and British contexts

The Irish Enlightenment Michael Brown, 2016-05-02 Scotland and England produced well known intellectuals during the Enlightenment but Ireland's contribution to this revolution in Western thought has received less attention Michael Brown shows that Ireland also had its Enlightenment which for a brief time opened up the possibility of a tolerant society despite a history of sectarian conflict El Alamein 1942 Richard Doherty, 2018-08-30 The Battle of El Alamein is well established as a pivotal moment of the Second World War Following the wildly fluctuating fortunes of the opposing sides there was a real risk that Rommel's Afrika Korps and his Italian allies would break through and seize Cairo with catastrophic strategic and political implications for the Allies That this never happened is of course well known but as this highly readable yet authoritative work reveals there were moments of extreme peril and anxiety Churchill's bold nay desperate decisions concerning key appointments Montgomery's stubborn refusal to be rushed Rommel's chronic logistic problems and critical air superiority are all examined in expert detail The authors description of the actual fighting is brought to life by personal accounts as well as his complete grasp of the plan and tactics involved The result seventy five years on is a delightfully fresh and fascinating account of one of the iconic battles not just of the War but in military history *C. inspire and fascinate millions His legacy remains varied and vast He was a towering intellectual figure a popular fiction author who inspired a global movie franchise around the world of Narnia and an atheist turned Christian thinker In C S Lewis A Life Alister McGrath prolific author and respected professor at King s College of London paints a definitive portrait of the life of C S Lewis After thoroughly examining recently published Lewis correspondence Alister challenges some of the previously held beliefs about the exact timing of Lewis s shift from atheism to theism and then to Christianity He paints a portrait of an eccentric thinker who became an inspiring though reluctant prophet for our times You won t want to miss this fascinating portrait of a creative genius who inspired generations

Ireland Paul Bew,2007-08-16 The French revolution had an electrifying impact on Irish society The 1790s saw the birth of modern Irish republicanism and Orangeism whose antagonism remains a defining feature of Irish political life The 1790s also saw the birth of a new approach to Ireland within important elements of the British political elite men like Pitt and Castlereagh Strongly influenced by Edmund Burke they argued that Britain s strategic interests were best served by a policy of catholic emancipation and political integration in Ireland Britain s failure to achieve this objective dramatised by the horrifying tragedy of the Irish famine of 1846 50 in which a million Irish died set the context for the emergence of a popular mass nationalism expressed in the Fenian Parnell and Sinn Fein movements which eventually expelled Britain from the greater part of the island This book reassesses all the key leaders of Irish nationalism Tone O Connell Butt Parnell Collins and de Valera alongside key British political leaders such as Peel and Gladstone in the nineteenth century or Winston Churchill and Tony Blair in the twentieth century A study of the changing ideological passions of the modern Irish question this analysis is however firmly placed in the context of changing social and economic realities Using a vast range of original sources Paul Bew holds together the worlds of political class in London Dublin and Belfast in one coherent analysis which takes the reader all the way from the society of the United Irishman to the crisis of the Good Friday Agreement

Antitrinitarianism and Unitarianism in the Early Modern World Kazimierz Bem,Bruce Gordon,2024-11-23 This collection offers an innovative and fresh interpretation of Antitrinitarian and rational dissent in the early modern world The central themes focus on the fierce debates surrounding Antitrinitarianism and Unitarianism that emerged from the Reformation and the lived cultures of these dissenting movements The chapters take an interdisciplinary approach addressing ideas in context their reception and appropriation and the diverse and often conflicting visions of Christianity Drawing on previously unused sources many from Eastern Europe and often in inaccessible languages this book challenges our understanding of dissent as marginal and eccentric and places it at the center of contesting convictions about the nature of religious reform
