Land of Disenchantment Michael L. Trujillo, 2010-03-16 New Mexico's Española Valley is situated

in the northern part of the state between the fabled Sangre de Cristo and Jemez Mountains. Many of the Valley's communities have roots in the Spanish and Mexican periods of colonization, while the Native American Pueblos of Ohkay Owingeh and Santa Clara are far older. The Valley's residents include a large Native American population, an influential Anglo or non-Hispanic white minority, and a growing Mexican immigrant community. In spite of the varied populace, native New Mexican Latinos or Nuevomexicanos remain the majority and retain control of area politics. In this experimental ethnography, Michael Trujillo presents a vision of Española that addresses its denigration by neighbors and some of its residents because it represents the antithesis of the positive narrative of New Mexico. Contradicting the popular notion of New Mexico as the Land of Enchantment, a fusion of race, landscape, architecture, and food into a romanticized commodity, Trujillo probes beneath the surface to reveal the causes of social dysfunction brought about by colonization and the transition from a pastoral to an urban economy.

Defying the Inquisition in Colonial New Mexico Francisco A. Lomelí, Clark A. Colahan, 2018-03

Miguel de Quintana was among those arriving in New Mexico with Diego de Vargas in 1694. He was active in his village of Santa Cruz de la Cañada where he was a notary and secretary to the alcalde mayor, functioning as a quasi-attorney. Being unusually literate, he also wrote personal poetry for himself and religious plays for his community. His conflicted life with local authorities began in 1734 when he was accused of being a heretic. What unfolded was a personal drama of intrigue before the colonial Inquisition. In this fascinating volume, Lomelí and Colahan reveal Quintana's writings from deep within Inquisition archives and provide a translation of and critical look at Quintana's poetry and religious plays.

This book is also an official product of the state's centennial celebration. Richard Anthony Melzer is a professor of history at the University of New Mexico Valencia Campus. Católicos Mario T. García, 2010-01-01 Chicano Catholicism both as a popular religion and a foundation for community organizing has over the past century inspired Chicano resistance to external forces of oppression and discrimination including from other non Mexican Catholics and even the institutionalized church Chicano Catholics have also used their faith to assert their particular identity and establish a kind of cultural citizenship Based exclusively on original research and sources Mario T García here offers the first major historical study to explore the various dimensions of the role of Catholicism in Chicano history in the twentieth century This is also one of the first significant studies in the still limited field of Chicano religious history Topics range from how early Chicano Catholic intellectuals and civil rights leaders were influenced by Catholic Social Doctrine to the role that popular religion has played in the lives of ordinary men and women in both rural and urban areas García also examines faith based Chicano community movements like Católicos Por La Raza in the 1960s and the Sanctuary movement in Los Angeles in the 1980s While Latino a history and culture has been for the most part inextricably linked with the tenets and practices of Catholicism there has been very little written until recently about Chicano Catholic history García helps to fill that void and explore the impact both positive and negative that the Catholic experience has had on the Chicano community

Three Roads to Magdalena David Wallace Adams, 2016-06-03 Someday Candelaria García said

to the author you will get all the stories It was a tall order in Magdalena New Mexico a once booming frontier town where Navajo Anglo and Hispanic people have lived in shifting sometimes separate sometimes overlapping worlds for well over a hundred years But these were the stories and this was the world that David Wallace Adams set out to map in a work that would capture the intimate complex history of growing up in a Southwest borderland At the intersection of memory myth and history his book asks what it was like to be a child in a land of ethnic and cultural boundaries The answer as close to all the stories as one might hope to get captures the diverse ever changing experience of a Southwest community defined by cultural borders and the nature and role of children in defending and crossing those borders In this book we listen to the voices of elders who knew Magdalena nearly a century ago and the voices of a younger generation who negotiated the community's shifting boundaries Their stories take us to sheep and cattle ranches Navajo ceremonies Hispanic fiestas mining camps First Communion classes ranch house dances Indian boarding school drill fields high school social activities and children's rodeos Here we learn how class religion language and race influenced the creation of distinct identities and ethnic boundaries but also provided opportunities for cross cultural interactions and intimacies And we see the critical importance of education in both reinforcing differences and opening a shared space for those differences to be experienced and bridged In this Adams's work offers a close up view of the transformation of one multicultural community but also of the transformation of childhood itself over the course of the twentieth century A unique blend of oral social and childhood history *Three Roads to Magdalena* is a rare living document of conflict and accommodation across ethnic boundaries in our ever evolving multicultural society Published in Cooperation with the William P Clements Center for Southwest Studies Southern Methodist University
