Creative Clinical Teaching in the Health Professions

Sherri Melrose, Caroline Park, Beth Perry, 2021-08-30. For healthcare professionals, clinical education is foundational to the learning process. However, balancing safe patient care with supportive learning opportunities for students can be challenging for instructors, and the complex social context of clinical learning environments makes intentional teaching approaches essential. Clinical instructors require advanced teaching knowledge and skills as learners are often carrying out interventions on real people in unpredictable environments. **Creative Clinical Teaching in the Health Professions** is an indispensable guide for educators in the health professions. Interspersed with creative strategies and notes from the field by clinical teachers who offer practical suggestions, this volume equips healthcare educators with sound pedagogical theory. The authors focus on the importance of personal philosophies, resilience and professional socialization while evaluating the current practices in clinical learning environments from technology to assessment and evaluation. This book provides instructors with the tools to influence both student success and the quality of care provided by future practitioners.

Teaching Nursing

Lynne E. Young, Barbara L. Paterson, 2007. Examines the complexities of teaching and learning nursing, explains the theoretical foundations of student centered learning, describes various methods and models for student centered learning in nursing and explores the issues and challenges of constructing nursing curricula and implementing student centered pedagogies.

The Principles and Practice of Nurse Education

Francis M. Quinn, 2000. This book, now in its fourth edition, has been updated to include material focused on evidence based practice. Covering the complete spectrum of education as applied to nursing and health care professions, this book maintains the blend of theoretical principles and practical applications that has proved successful over the preceding three editions. Among the important developments discussed are the replacement of UKCC and the four National Boards with a new Nursing and Midwifery Council, the initiative to establish the National Institute for Clinical Excellence and the move to incorporate clinical effectiveness into the clinical governance framework. Frank Quinn brings together all the major changes that apply to educators within the National Health Service, making this essential textbook an authoritative source of guidance, up to date information and reference.
