In Search of Goodness Ruth W. Grant, 2011-03-15 The recent spate of books and articles reflecting on the question of evil might make one forget that the question of just what constitutes goodness is no less urgent or perplexing. Everyone wants to think of him or herself as good. But what does a good life look like? And how do people become good? Are there multiple competing possibilities for what counts as a good life, all equally worthy? Or is there a unified and transcendent conception of the good that should guide our judgment of the possibilities? What does a good life look like when it is guided by God? How is a good life involved with the lives of others? And finally, how good is good enough? These questions are the focus of *In Search of Goodness*, the product of a year-long conversation about goodness. The eight essays in this volume challenge the dichotomies that usually govern how goodness has been discussed in the past: altruism versus egoism, reason versus emotion, or moral choice versus moral character. Instead, the contributors seek to expand the terms of the discussion by coming at goodness from a variety of perspectives: psychological, philosophic, literary, religious, and political. In each case, they emphasize the lived realities and particulars of moral phenomena, taking up examples and illustrations from life, literature, and film. From Achilles and Billy Budd to Oskar Schindler and Shel Silverstein's *The Giving Tree* to Iris Murdoch and the citizens of Flagstaff, Arizona, readers will find a wealth of thought-provoking insights to help them better understand this most basic but complex element of human life and happiness.

Liminality in Tourism Robert S. Bristow, Ian Jenkins, 2021-09-05 Liminality is not typically associated with tourism, even though it can be viewed as an intrinsic element of the social-cultural experiences of tourism. *Liminality in Tourism: Spatial and Temporal Considerations* aims to build upon the tradition of liminality as expounded in social and anthropological disciplines, elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product. The emergence of post-modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience. An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space, leaving the tourist permanently psychologically transformed before returning to normalised society. The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes. Covid-19 has further changed the rubric of tourism. Until the

current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal *Tourism Geographies* *New Wars and New Soldiers* Asst Prof Jessica Wolfendale, Dr Paolo Tripodi, 2013-03-28 Modern conflicts now bear little relation to traditional wars between states The threat of terrorism the creation of new military technologies the rise of private military companies and the increasing involvement of the military in counter terrorism and humanitarian operations all pose challenges to traditional ideas about the ethics of war the relevance of current international law governing armed conflict and Just War theory How then should military ethics approach these new forms of conflict Modern military ethics now includes work from disciplines as diverse as philosophy history sociology international relations politics and psychology This diversity of approaches suggests that the approach to contemporary military ethics that is best suited to understanding the wars of today is a broad multidisciplinary vision By bringing together contributors from philosophy international relations security studies and strategic studies this volume offers just such an interdisciplinary analysis The chapters in this volume explore the ethical issues posed by recent developments in both the nature and conduct of war as well as focusing on the role and needs of modern military personnel This comprehensive approach allows the reader to see the broad scope of modern military ethics and to understand the numerous questions about modern conflict that require critical scrutiny Aimed at both military and academic audiences this volume will be of significant interest to researchers and students in philosophy sociology military and strategic studies international relations politics and security studies [Nine Commentaries on the Communist Party](#), 2015-02-04 *Nine Commentaries on the Communist Party* was published amidst one of Chinese Communist Party's most brutal persecution against the 100 million practitioners of Falun Gong in China When loved ones and witnesses see innocent meditators behind bars tortured and harvested for their organs it is hard to stand on the sideline That is why so many Chinese people and those sympathetic to the cause are doing one thing they know they can do Spread the word quit the Party **Personality, Identity, and Character** Darcia Narváez, Daniel K. Lapsley, 2009-06-29 This edited volume features cutting edge work in moral psychology by pre eminent scholars in moral self identity moral character and moral personality **Nine Commentaries on the Communist Party** The Epoch Group, 2004 This groundbreaking book is systematically dismantling the Chinese Communist Party CCP It is a final verdict on the CCP that has been rapidly spreading in China During the CCP's 80 year history its lies dictatorship various political movements and crackdowns have wreaked unprecedented havoc on the land of China and caused irreversible damage to China's traditional moral values In today's China under the CCP's violent

and despotic rule social tensions are dangerously high and crises are appearing in succession The Chinese communist regime is seated on an active volcano that may erupt at any moment The Nine Commentaries have posed the greatest challenge to the CCP's ideology since the party was established The book has struck a chord deep in the hearts of many Chinese people in China and around the world It is poised to be a major part in the rebirth of the nation's soul *Dialogue and the New Cosmopolitanism* Fred Dallmayr, 2022-11-28 *Dialogue and the New Cosmopolitanism* Conversations with Edward Demenchonok stands in opposition to the doctrine that might makes right and that the purpose of politics is to establish domination over others rather than justice and the good life for all In the pursuit of the latter goal the book stresses the importance of dialogue with participants who take seriously the views and interests of others and who seek to reach a fair solution In this sense the book supports the idea of cosmopolitanism which by contrast to empire involves multi lateral cooperation and thus the quest for a just cosmopolis The international contributors to this volume with their varied perspectives are all committed to this same quest Edited by Fred Dallmayr the chapters take the form of conversations with Edward Demenchonok a well known practitioner of international and cross cultural philosophy The conversations are structured in parts that stress the philosophical anthropological cultural and ethical dimensions of global dialogue In our conflicted world it is inspiring to find so many authors from different places agreeing on a shared vision **Cognition, Literature, and History** Mark J. Bruhn, Donald R. Wehrs, 2013-11-26 *Cognition Literature and History* models the ways in which cognitive and literary studies may collaborate and thereby mutually advance It shows how understanding of underlying structures of mind can productively inform literary analysis and historical inquiry and how formal and historical analysis of distinctive literary works can reciprocally enrich our understanding of those underlying structures Applying the cognitive neuroscience of categorization emotion figurative thinking narrativity self awareness theory of mind and wayfinding to the study of literary works and genres from diverse historical periods and cultures the authors argue that literary experience proceeds from qualitatively heightens and selectively informs and even reforms our evolved and embodied capacities for thought and feeling This volume investigates and locates the complex intersections of cognition literature and history in order to advance interdisciplinary discussion and research in poetics literary history and cognitive science *The Psychology of the Armenian Genocide* George Green, 2025-02-25 This book examines the radicalization of beliefs tactics and oppression by a dominant governing group when faced with a subordinate group's historic quest for basic human rights dating back for five centuries A unique approach an analysis of archival documents including minutes of Turkish meetings provides a window into the inner workings and decision making of the leaders Their persuasive propaganda campaign is demystified by applying contemporary social psychological research to identify and explain their use of psychological mechanisms to weaponize intergroup prejudice and exclusionary ideology Social antagonistic traits of the leader's ideology dark personality traits and propensity for moral disengagement are readily apparent in their highly effective propaganda

campaign to gain the necessary support from their party and Turkish civilians for their genocidal agenda The Psychology of the Armenian Genocide will appeal to scholars and students alike interested in better understanding how a nation of people can be manipulated to support the annihilation of subordinate groups It will also appeal to a much wider range of people who would be interested in better understanding the manipulation of beliefs and morality to create intergroup divisions and intolerance for cooperation
