Japan's Development Assistance Yasutami Shimomura, John Page, Hiroshi Kato, 2016-01-26 Once the world's largest ODA provider contemporary Japan seems much less visible in international development However this book demonstrates that Japan with its own aid philosophy experiences and models of aid has ample lessons to offer to the international community as the latter seeks new paradigms of development cooperation *Australian national bibliography*, 1961 Resources in Education, 2001-04 *A.I.D. Research and Development Abstracts* United States. Agency for International Development, 1982 **Japan's Official Development Assistance White Paper**, 2013 *Oxford Handbook of the International Monetary Fund*, 2024-10-08 The International Monetary Fund IMF is a pivotal institution in global economic governance tasked with ensuring monetary stability and preventing financial crises through promoting balanced trade economic growth and poverty reduction It also plays a powerful normative role by shaping economic policies worldwide through its research and expertise The IMF played a crucial role in managing crises like the 2008 financial crisis and the COVID 19 pandemic providing significant financial aid and advocating for stimulus measures However the IMF faces both internal and external challenges from reforming its governance structure to better represent emerging economies to finding its place in a world increasingly defying liberal internationalism and multilateralism Despite reforms power remains concentrated among advanced economies hindering inclusivity and trust particularly in regions like sub Saharan Africa Geopolitical tensions populist nationalism and economic imbalances further strain the IMF's effectiveness This handbook aims to uncover these challenges by providing diverse perspectives and proposing policy recommendations that the Fund could undertake to better navigate the complex landscape of 21st century global governance Part I delves into its historical origins and key debates of the IMF Part II focuses on formal operations such as lending surveillance and capacity development Part III explores the involvement of different actors including states markets and civil society Part IV discusses partnerships with other international organizations and collaboration in financial regulation Part V analyzes shifts in policy instruments and ideological frameworks Part VI broadens concerns to include gender mainstreaming labor markets climate policy and inclusive growth Part VII addresses internal challenges including cultural diversity concerns and uniformity of treatment Part VIII evaluates external challenges such as populist movements China's influence global inequality and unresolved issues in Europe Part IX explores how the IMF can meet the multiple challenges identified in this volume and positively impact 21st century global governance Research in Education, 1974 *Japan Fund for Public Policy Training* Asian Development Bank, 2013-10-01 The Japan Fund for Public Policy Training was established in March 2004 as a trust fund to enhance developing member countries capacity building for public policy management focusing on regional economies in transition Since its inception the Government of Japan has contributed more than 22 million The country director of the Asian Development Bank's Viet Nam Resident Mission acts as the program manager of the fund The Public

Policy Training Program's training facility in Ha Noi continues to operate efficiently with the establishment of strict administrative procedures and systems for the effective implementation of the technical assistance program

Contending Theories on Development Aid Leslie O. Omoruyi, 2017-09-20 This title was first published in 2001 This thorough and comprehensive examination of the nature and pattern of post Cold War aid to sub Saharan Africa provides incisive comparative case studies of the motivations behind the foreign aid policies of key members of the Development Association Committee DAC In one of the most rigorous contemporary efforts to evaluate the adequacy of the dominant theories of international relations on an important subject like foreign aid Dr Omoruyi eschews easy answers to the problem of Africa's marginalization in the international system He provides thoughtful innovative suggestions for promoting a new development partnership between industrialized countries and Africa using a sophisticated quantitative method of inquiry making this text a valuable contribution to social science literature on research methods

Crisis Management Beyond the Humanitarian-Development Nexus Atsushi Hanatani, Oscar A. Gómez, Chigumi Kawaguchi, 2018-09-27 In addressing humanitarian crises the international community has long understood the need to extend beyond providing immediate relief and to engage with long term recovery activities and the prevention of similar crises in the future However this continuum from short term relief to rehabilitation and development has often proved difficult to achieve This book aims to shed light on the continuum of humanitarian crisis management particularly from the viewpoint of major bilateral donors and agencies Focusing on cases of armed conflicts and disasters the authors describe the evolution of approaches and lessons learnt in practice when moving from emergency relief to recovery and prevention of future crises Drawing on an extensive research project conducted by the Japan International Cooperation Agency Research Institute this book compares how a range of international organizations bilateral cooperation agencies NGOs and research institutes have approached the continuum in international humanitarian crisis management The book draws on six humanitarian crises case studies each resulting from armed conflict or natural disasters Timor Leste South Sudan the Syrian crisis Hurricane Mitch in Honduras the Indian Ocean earthquake and tsunami in Indonesia and Typhoon Yolanda The book concludes by proposing a common conceptual framework designed to appeal to different stakeholders involved in crisis management Following on from the World Humanitarian Summit where a new way of working on the humanitarian development nexus was highlighted as one of five major priority trends this book is a timely contribution to the debate which should interest researchers of humanitarian studies conflict and peace studies and disaster risk management
