Cartledge, 2012-04-04 Mark Cartledge's book is unique in integrating charismatic and empirical perspectives in practical theology It exemplifies both qualitative and quantitative methods of research and suggests a way forward for the emerging field of charismatic theology In part one Cartledge offers a proposal for the development of a charismatic practical theology He surveys the different models of the interaction of practical theology and social sciences and defends one that is consistent with charismatic spirituality The section also explores how charismatic spirituality affects theories of truth and knowledge by making testimony an integrating center before concluding with a clear explanation of the methods of research employed Part two progresses into six empirical studies on charismatic worship glossolalia and postmodernity women and prophetic activity the Toronto Blessing healing and socialization Each chapter of this important book ends with a methodological reflection and suggestions from renewed theological praxis enforcing the values of such methods of study for a clearer understanding of charismatic Christianity **Social Things** Charles C. Lemert, 2008 The fourth edition of Social Things is as poignant and readable as ever with new material to help introduce sociology as a discipline and a way of life to a new generation of students and readers of all ages As before Lemert captivates his readers by helping them understand that as he puts it \_sociology is first of all a thing lived\_ which makes us all practical sociologists *International Handbook of Practical Theology* Birgit Weyel, Wilhelm Gräb, Emmanuel Lartey, Cas Wepener, 2022-09-06 Practical theology has outgrown its traditional pastoral paradigm The articles in this handbook

recognize that faith spirituality and lived religion within and beyond institutional communities refer to realms of cultures ritual practices and symbolic orders whose boundaries are not clearly defined and whose contents are shifting The International Handbook of Practical Theology offers insightful transcultural conceptions of religion and religious matters gathered from various cultures and traditions of faith The first section presents concepts of religion Chapters have to do with considerations of the conceptualizing of religion in the fields of anthropology community family institution law media and politics among others The second section is dedicated to case studies of religious practices from the perspective of their actors The third section presents major theoretical discourses that explore the globally significant diversity and multiplicity of religion Altogether sixty one authors from different parts of the world encourage a rethinking of religious practice in an expanded transcultural globalized and postcolonial world *Outline of Practical Sociology* Carroll Davidson Wright,1902

*New Technology in Sociology* Grant Blank,James L. McCartney,Edward E. Brent,1989-01-01 When technology has been applied in business environments its justification has usually been cast in terms of saving time or saving money In the social sciences the justification must be different the viability of sociology as a profession for example will not be enhanced by cost reductions The focus in this volume is on a different bottom line the quality and content of work *Sociology* Angelia

Alexander, 2015-12-03 This volume addresses the key question of the intersection of sociology and politics and asks what a non Marxist cultural perspective can offer the Left Written by leading scholars it develops new conceptions of social critique new techniques of interpretive analysis and new concepts for the sociology of democratic practice It is a volume for the twenty first century where global and local meet when critical theory must examine its most fundamental presuppositions

Discourse : Event : Practice Franka Schäfer, 2025-10-14 With Discourse Event Practice the author presents a dynamic theoretical program for a discourse theoretically informed sociology of practice oriented toward the concept of the event She outlines the sociological relationship between the concepts of discourse event and practice diagnoses their distorted relationship and explains the dynamization of dichotomous conceptions as the guiding principle of her argumentation Through a reconstruction of the discourse theoretical foundations the practical theoretical conditions the situation of the method discussion and the starting point of sociological protest research she forms the basis of the research program and marks the question of the association of discourses and practices as a gap which is elucidated using the example of protest research The core of the book is a nuanced examination of the concept of event developed from the influence of Foucault as a primary basis for transformation and translated into a concept of event that ensures a relationship between discourse and practice that overcomes dichotomies within a post structuralist materialism In addition the potential of the program lies in the expansion of practice studies to include an explicit perspective on power and domination illustrated through an analysis of the practices of resistance as exemplified by the Yippie Festival of Life
