Selling the American People Lee Mcguigan,2023-07-18 How marketers learned to dream of optimization and speak in the idiom of management science well before the widespread use of the Internet Algorithms data extraction digital marketers monetizing eyeballs these all seem like such recent features of our lives And yet Lee McGuigan tells us in this eye opening book digital advertising was well underway before the widespread use of the Internet Explaining how marketers have brandished the tools of automation and management science to exploit new profit opportunities Selling the American People traces data driven surveillance all the way back to the 1950s when the computerization of the advertising business began to blend science technology and calculative cultures in an ideology of optimization With that ideology came adtech a major infrastructure of digital capitalism To help make sense of today s attention merchants and choice architects McGuigan explores a few key questions How did technical experts working at the intersection of data processing and management sciences come to command the center of gravity in the advertising and media industries How did their ambition to remake marketing through mathematical optimization shape and reflect developments in digital technology In short where did adtech come from and how did data driven marketing come to mediate the daily encounters of people products and public spheres His answers show how the advertising industry s efforts to bend information technologies toward its dream of efficiency and rational management helped to make surveillance capitalism one of the defining experiences of public life

The Rotarian ,1968-10 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine

Popular Science ,1965-03 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Directory of Publishing 2010** ,2009-12-01 Now in its 35th edition this is the most authoritative detailed trade directory available for the United Kingdom and the Republic of Ireland *Resources in Education* ,2001-04 **Marketing Information Guide** ,1968 *Daily Graphic* Ransford
