Committed Spirituality Ottmar Fuchs,2019-11-13 Christian faith can lead to a spirituality that can give strength and energy for just action Conversely human solidarity can open us up to the contents of the Christian faith Christian hope in particular opens us to a universal solidarity that does not exclude others and never serves only one s own areas without others Ottmar Fuchs has spelled out this connection in his entire practical theology in many works and now presents here important results of his work in collected form for an English language readership The churches are at the service of this commitment for all people In the acute disputes between identitarian fundamentalist and open universal solidaritarian formations the author represents the position of a faith that accepts all people into the love of God and an ethics not limited by any borders It is the vote for a church that is more self giving than victorious at the expense of others and that profiles all its instruments from the social and ritual organization of the church to its respective external relations in such a way It is about a format of faith and church that does even not release the respective exclusivistic parts in churches and in society from the caring responsibility

Dreaming the Land Friedrich Schweitzer,International Academy of Practical Theology. Meeting,2007 *Dreaming the Land Theologies of Resistance and*

Hope is a theme that testifies to the contextual nature of practical theology. This present volume contains a collection of essays with international contributions to practical theology. In their original form these essays were presented at the seventh biennial conference of the International Academy of Practical Theology (IAPT) held at Brisbane, Australia, in June 2005. The dreaming and the land are both concepts central to the thinking of the Aboriginal peoples of Australia. The dreaming encompasses the creative and life-giving forces which govern and express the lifeworld of these same people, while the land is sacred space where the spirits of the ancestors of all human, plant, and animal life are represented. The theme is the common thread in the first part of the book. Here the search for Theologies of Resistance and Hope is related to experiences in the southern hemisphere to issues of the land as a concept for practical theology and to questions of human rights.

Practical Theology Richard R. Osmer, 2008-07-02. Every church congregation encounters challenging situations, some the same the world over and others specific to each church. Richard Osmer here seeks to teach congregational leaders, including but not limited to clergy, the requisite knowledge and skills to meet such situations with sensitivity and creativity. Osmer develops a framework for practical theological interpretation in congregations by focusing on four key questions: What is going on in a given context? Why is this going on? What ought to be going on, and How might the leader shape the context to better embody Christian witness and mission? The book is unique in its attention to interdisciplinary issues and the ways that theological reflection is grounded in the spirituality of leaders. Useful, accessible, and lively, with lots of specific examples and case studies, Osmer's *Practical Theology* effectively equips congregational leaders to guide their communities with theological integrity.

Crossing Thresholds Timothy Carson, Nigel Rooms, Lisa Withrow, Rosemary Fairhurst, 2021-01-01. The human transformation available at the limen, literally the edge or threshold, noticed across different cultures by anthropologists is at the heart of the Gospel. Indeed, the liminal place is the place of transformation and change par excellence. We live in an age of enormous and rapid change to which we do not yet see an end. There is therefore a kairos moment here for the church to understand the importance of liminality through this unique book. Reading this book will offer new lenses to understand humanity, God's world, the shape of Christian discipleship, the church, and its mission differently. The authors believe engaging

with liminality can help both readers faith and the church to be re imagined and have included case studies exercises and questions in each chapter to help this process

Sense and Spirituality James McCullough, 2015-06-02 There is growing interest in the relationship between the arts and Christian faith Much has been written about the arts and theology and the place of the arts in church life Not as much has been written however about how the arts might actually advance spiritual formation in terms of the cumulative effect of religious experience and intentional practices This book provides a modest step forward in that conversation a conversation between theological aesthetics and practical theology Understanding aesthetics as the realm of sense perception and spiritual formation as growing capacities to participate in God s purposes James McCullough suggests how these dynamics can mutually enhance each other with the arts as an effective catalyst for this relationship McCullough proposes an analysis of artistic communication and explores exciting examples from music poetry and painting which render theoretical proposals in concrete terms This book will engage both those new to the arts and those already deeply familiar with them What is art How is it formed What does it do Does it or can it illuminate animate express and catalyze spirituality the perception and experience of the presence of God McCullough answers all these questions but explains as well how each person who understands the answers will have much to do much attention much contemplation much silence Indeed McCullough plumbs the depth of puzzlement of the arts and the wonderful enlightenment of spirituality James W Sire former editor of InterVarsity Press Just as Martin Thornton and Diogenes Allen rediscovered theology s inherent relation to Christian spirituality so James McCullough here does the same for the theology and art conversation Heeding T S Eliot s call to transform esthetic sensibility into spiritual perception and spiritual perception into esthetic sensibility McCullough deftly calls attention to the elephant in the aesthetics seminar room the way that art catalyzes spiritual growth Matthew Milliner Associate Professor of Art Wheaton College James McCullough is an adjunct instructor at Lindenwood University He has published articles on the music of Anton Bruckner as well as on the art of Graham Sutherland and Makoto Fujimura

A New Old Spirituality? Tone Stangeland Kaufman, 2017-07-11 How do pastors live their spiritual lives both as private persons and as professionals How can their spirituality be characterized and understood Drawing on in depth interviews with

Norwegian clergy as well as literature from the fields of Christian spirituality practical theology congregational studies and the sociology of religion this book offers a nuanced understanding of clergy spirituality Tone Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors the ministry itself vocational spirituality daily life everyday spirituality and spiritual practices located at the margins of daily life intentional spirituality The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives Hence the author makes the case that their spirituality can aptly be described as a new old spirituality The book also seeks to nuance Paul Heelas' and Linda Woodhead's Spiritual Revolution claim and thus engages in the broader spirituality vs religion discourse A New Old Spirituality is an exciting example of how qualitative empirical research can be used in creative ways to make a practical theological argument It is a book for scholars students and practitioners

Christian Practical Wisdom Dorothy C. Bass, Kathleen A. Cahalan, Bonnie J. Miller-McLemore, James R. Nieman, Christian B. Scharen, 2016-05-05 In this richly collaborative work five distinguished scholars examine the oft neglected embodied practical wisdom that is essential for true theological understanding and faithful Christian living After first showing what Christian practical wisdom is and does in several real life situations the authors tell why such practical wisdom matters and how it operates exploring reasons behind its decline in both the academy and the church and setting forth constructive cases for its renewal

Postcolonializing God Emmanuel Y. Lartey, 2013-08-13 Postcolonializing God examines how African Christianity especially as a practical spirituality can be truly a postcolonial reality The book offers thoughts as to how African Christians and by that token others who were colonial subjects may practice a spirituality that bears the hallmarks of their authentic cultural heritage even if that makes them distinctly different from Christians from the colonizing nations There are themes in both the Hebrew Bible and the Christian Scriptures in which God's activities result in shattering hegemony overthrowing the powerful diversifying communities and affirming pluralism These have by and large been ignored or downplayed in the formation of Christian communities by western and westernized Christians in Africa The effect of this is that much of the practice of African Christians imitates that of a European Christianity of bygone times Postcolonializing God charts a different course uplifting these ignored readings of scripture and identifying how they are expressed again by Africans who courageously seek through the practices of mysticism and African culture to portray a God whose actions liberate and diversify human experience Postcolonializing God seeks to express the human diversity that seems to be the Creator's ongoing desire for the world and thereby to continue to manifest the manifold and diverse nature and wisdom of God It is only as humans refuse to be created in the image of any other human beings that the richness and complexity of the divine image will be more closely viewed throughout the world

Practical Theology Mark J. Cartledge, 2012-04-04 Mark Cartledge's book is unique in integrating charismatic and empirical perspectives in practical theology It exemplifies both qualitative and quantitative methods of research and suggests a way forward for the emerging field of charismatic theology

In part one Cartledge offers a proposal for the development of a charismatic practical theology He surveys the different models of the interaction of practical theology and social sciences and defends one that is consistent with charismatic spirituality The section also explores how charismatic spirituality affects theories of truth and knowledge by making testimony an integrating center before concluding with a clear explanation of the methods of research employed Part two progresses into six empirical studies on charismatic worship glossolalia and postmodernity women and prophetic activity the Toronto Blessing healing and socialization Each chapter of this important book ends with a methodological reflection and suggestions from renewed theological praxis enforcing the values of such methods of study for a clearer understanding of charismatic Christianity

Kiesling, 2013-08-15 The shift from adolescence to adulthood a recently identified stage of life called emerging adulthood covers an increasing span of years in today s culture roughly ages 18 30 due to later marriages and extended education During this prolonged stage of exploration and self definition many young adults drift away from the church Here two authors both veteran teachers who are experienced in young adult and campus ministry address this new and urgent field of study offering a Christian perspective on what it means to be spiritually formed into adulthood They provide a practical theology for emerging adult ministry and offer insight into the key developmental issues of this stage of life including identity intimacy and sexuality morality church involvement spiritual formation vocation and mentoring The book bridges the gap between academic and popular literature on emerging adulthood and offers concrete ways to facilitate spiritual formation among emerging adults
