Worthy,2015-08-04 Excerpt from *Practical Heraldry or an Epitome of English Armory Showing How and by Whom Arms May Be Borne or Acquired How Pedigrees May Be Traced or Family Histories Ascertained* I have long realized the fact that everyone has a Pedigree and that whether gentle or simple all who live beyond the present hour must have an interest latent

possibly in many instances in those who have gone before them Therefore I have written this book I have always found that the great drawback to the majority of Heraldic and Genealogical compilations is their extreme dryness an enormous mass of uninteresting detail must of necessity be waded through in order to arrive at one single item interesting or applicable to individual cases whereas it has been my aim to produce something to interest as well as to instruct those who wish to ascertain particulars about their ancestors About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
