

# Patient Education

Patient education can be defined as the process of influencing patients' behavior and producing the changes in knowledge, attitudes and skills necessary to maintain or improve health.

Patient education is critically important.

**It is clear that the leading causes of death in the United States are closely associated with unhealthy lifestyles.**

There is also strong evidence to suggest that counseling and patient education provide substantial benefits.

## Principles of Patient Education

Adapt teaching to the patient's level of readiness, past experience, culture and understanding.

Create an environment conducive to learning with trust, respect and acceptance.

Involve patients by encouraging them to establish their own goals and evaluate their own progress.

Provide motivation by presenting material relevant to the patient's needs.

Provide opportunities for patients to demonstrate their understanding of information and to practice skills.

## Barriers to Patient Learning

Physical condition

Financial considerations

Lack of support system

Misconceptions about disease and treatment

Low literacy/ comprehension skills

Cultural/ethnicity language barriers

Lack of motivation

Environment

Negative past experience

Denial of personal responsibility

To provide effective patient education, a variety of practical skills must be mastered.

Basic Skills

Long-term strategies for chronic disease

Short-term plans for acute illness

Health promotion

Incorporation of education in practice
